| STATEMENT OF DEFICIENCIES AND PLAN OF CORRECTION | (X1) PROVIDER/SUPPLIER/CLIA IDENTIFICATION NUMBER: 055461 | (X2) MULTIPLE CONSTRUCTION A. Building B. Wing | (X3) DATE SURVEY COMPLETED 07/01/2025 |
| NAME OF PROVIDER OR SUPPLIER California Post Acute | | STREET ADDRESS, CITY, STATE, ZIP CODE 909 S Lake Street Los Angeles, CA 90006 | |
| For information on the nursing home's plan to correct this deficiency, please contact the nursing home or the state survey agency. | | | |
| (X4) ID PREFIX TAG | SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information) | | |
| <p>F 0880</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p> | <p>Provide and implement an infection prevention and control program.</p> <p>Based on observation, interview and record review, the facility failed to follow their infection control policy for storage of clean laundry. During observation, on 7/1/25 at 10:32 a.m. and at 1:38 p.m., two laundry carts that contained the clean linen for the residents were in the facility's parking lot. This deficient practice had the potential for the clean linen to be contaminated with dust and allergens that can potentially affect the health and safety of the residents. During observation and concurrent interview on 7/1/25 at 10:32 a.m. two laundry carts with clean linen and towels were observed in the parking lot of the facility. The linen carts were observed to be covered with plastic. The Maintenance Supervisor (MS) stated the carts contain clean linen. MS stated the laundry carts were placed in the parking lot because there was no space inside the facility. During an interview on 7/1/25 at 1:35 p.m. the interim director of nursing (DON) stated the clean linen should not be placed in the parking lot. The DON stated even if the carts were covered with plastic, it is unhygienic and an infection control issue. The DON further added that the linen cart with the clean linen should be taken inside the facility for storage. During observation on 7/1/25 at 1:38 p.m., the same two laundry carts with clean linen remained in the parking lot. During a review of the facility Policy titled Laundry and Linen Policy revised on 3/23 indicated linen is sorted, washed, dried, delivered and handled in the laundry and on the units in a safe and aseptic manner. The Policy indicated all clean linens will be stored and transported in carts/rooms used exclusively for this purpose. The same Policy indicated the clean linen carts must be covered while delivering linen to the resident units. Clean linen will be covered or kept in room with closed door while stored on unit.</p> | | |

Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.
