(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)		
F 0883 Level of Harm - Minimal harm or potential for actual harm Residents Affected - Few	Develop and implement policies and procedures for flu and pneumonia vaccinations. Based on record review and interview, the facility failed to offer vaccination to 3 out of 5 residents (R7, R86, R87) reviewed for vaccination related to infection prevention. Findings include: R7's immunization history documents the last time resident received influenza vaccination was on 11/13/2022. Pneumococcal vaccine was not administered, due to refusal, since 07/21/2023. No documentation was available for each vaccine that was offered for the current year 2025. R86's immunization record documents the last time resident received influenza vaccination was on 01/04/2025. Pneumococcal vaccination (PCV13) received on 01/22/2020. Clinical Management / Infection Prevention, dated 03/04/2025, reads: Adult 50 years and older recommends PCV15, PCV20 or PCV21 pneumococcal vaccination. R87's immunization record does not document the resident received pneumococcal vaccination. On 11/19/2025 at 10:34 AM, V6 (Infection Preventionist / Registered Nurse) stated she just started as an Infection Preventionist. V6 stated she still needs to address vaccination of some residents. Currently, residents that do not have documentation as to their immunizations were not offered vaccination yet. V6 stated vaccination is a priority, the importance of vaccination is to protect them (residents) and protect people around residents from infection. Pneumococcal Vaccination Policy dated 07/15/2025: It is the policy of the facility to offer and administer pneumococcal vaccinations to each resident. Pneumococcal vaccination will be offered upon admission. Influenza Vaccination dated 07/15/2025: It is the policy of the facility to annually offer and administer vaccination against influenza to each resident.		

Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.
