<p>F 0600</p> <p>Level of Harm - Actual harm</p> <p>Residents Affected - Few</p>	<p>Abuse Prevention Program Facility Procedures dated November 18, 2016, reads: Abuse is defined as the willful infliction of injury, unreasonable confinement, intimidation or punishment with resulting harm, pain, or mental anguish. Under pre-admission screening of potential residents. The facility shall check the criminal history background on any resident seeking admission to the facility in order to identify previous criminal conviction. While the background or fingerprint check, and/or Identified Offender Report and Recommendation are pending, the facility shall take steps necessary to ensure safety. Under resident assessment, as part of the resident social history evaluation and MDS (Minimum Data Set) assessments, staff will identify residents with increased vulnerability for abuse, neglect, exploitation, mistreatment, or misappropriation of resident property or who have needs and behaviors that might lead to conflict. Through the care planning process, staff will identify problems, goals, and approaches, which would reduce the chances of abuse, neglect, exploitation, mistreatment, or misappropriation of resident property for these residents. Staff will continue to monitor the goals and approaches on a regular basis. For residents who are identified offenders, the facility shall incorporate the Identified Offender Report and Recommendations Report into the identified offenders plan of care including the security measures listed. Abuse policy of the facility clearly instruct for facility staff to identify residents with increased vulnerability of abuse or who have behavior that might lead to conflict.</p> <p>R2's care plan does not address any of the incidents on R2's progress notes to address his physical, verbal, and sexually inappropriate behavior.</p> <p>No psychiatric notes or any medical notes by physician(s) were documented on R2's progress notes that addresses R2's inappropriate behavior. On 4/24/2024 at 2:48 PM, V1 (Nurse Consultant) was informed about R2's lack of documentation and that he wasn't seen by a psychiatrist or any physician on his progress notes. After V1 reviewed R2's electronic record, V1 stated that she cannot find any documentation. V1 stated that there should be a sit down and facility staff should work together to determine that residents are safe and that R2 needs to be seen by a psychiatric or medical doctor when initially admitted and readmitted within 72-hours after admission. V1 said, I don't know why there is no documentation that R2 was not seen by any doctor.</p> <p>As to R1's care plan, it does not address potential abuse prior to and actual abuse after the physical abuse incident happened on 8/1/2023.</p> <p>On 4/24/2024 at 11:45 AM, V7 (Social Service Director) stated that currently she is in-charge of the whole facility and all residents since she is the only social worker in the facility. V7 was asked about R1 being a victim of abuse and if there is a need for this to be care planned. V7 said, I am new to this position. I don't know that an abuse incident should be care planned for the resident that experienced abuse. For me, I will talk to the admin for best practices. V7 was asked if there is a need to determine safety of both residents for residents that are couple. V7 said, If both can give consent. I don't know if I need to check on the safety of residents that are a couple even when a resident has a record of domestic violence. Hypothetically, I don't really know the guidelines on how to protect the victim from the perpetrator. These are all new to me. V7 then stated that room changes and coordination of outside services for domestic violence are possible interventions. After request for behavioral services, policies, and procedures V7 said, I don't know what are those (sic) behavioral services that the facility offers.</p> <p>(continued on next page)</p>

<p>F 0925</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Many</p>	<p>41356</p> <p>Make sure there is a pest control program to prevent/deal with mice, insects, or other pests.</p> <p>Based on observations, interviews, and review of records the facility failed to have an effective pest control program and failed to monitor and log pest issues related to the presence of cockroaches in the kitchen. These failures have the potential to affect all 98 residents' food preparation and consumption due to presence of cockroaches in the kitchen.</p> <p>Findings include:</p> <p>During random conversation with residents, a resident stated that she experienced that there was a cockroach in her tray.</p> <p>On 4/24/2024 at 11:27 PM, V3 (Maintenance Director) stated that since February 2024 there were no complaints of pests in the facility. V3 stated that a pest control company comes to the facility twice a month and leaves traps in the kitchen.</p> <p>On 4/24/2024 at 11:40 AM, the kitchen was observed with V3. Two traps were seen with cockroaches present. One trap was located under the three-sink compartment and another trap was located under the deep freezer. V3 presented the Pest Control report dated 4/6/2024 and 3/6/2024. V15 (Housekeeping Supervisor) stated that pest control was called due to the presence of cockroaches in the kitchen. Pest control came but she was not in the facility at the time because it was a Saturday.</p> <p>On both 3/6/2024 and 4/6/2024 pest control reports document that the main kitchen area equipment, stoves, and preparation tables had activity or the presence of German roaches.</p> <p>On 4/24/2024 at 12:02 PM, V3 stated that he needs to call pest control again because the facility is still having a problem with roaches. Pest monitoring logs were requested from V3. V3 stated, There is no documentation that staff was reporting to me about the pest problem in the kitchen. I don't know what to tell you.</p> <p>The facility's policy for pest control not dated, reads: To ensure that the facility is free from refuse, litter insect and rodent breeding areas. Building and grounds shall be kept free of possible infestations of insects and rodents by eliminating sites of breeding and harborage inside and outside of building. Maintenance will make routine checks of building to monitor any pest issues. Housekeeping will monitor on daily cleaning and report to maintenance. A log will be maintained of pest issues and maintenance will review and clean areas of potential problems.</p>
