(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)
<p>F 0602</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>Protect each resident from the wrongful use of the resident's belongings or money.</p> <p>**NOTE- TERMS IN BRACKETS HAVE BEEN EDITED TO PROTECT CONFIDENTIALITY** Based on observation, interview, and record review, the facility failed to ensure residents were free from misappropriation for 2 of 3 residents reviewed pharmaceutical services. Resident's narcotic medications went missing after being delivered from the pharmacy which caused residents to miss physician ordered routine medications. (Resident D, Resident G)</p> <p>Findings include:</p> <p>1. During record review on 5/29/25 at 10:30 A.M., Resident D's diagnoses included, but were not limited to; osteoarthritis, chronic kidney disease, and diabetes.</p> <p>Resident D's most recent annual Minimum Data Set (MDS) assessment dated [DATE], indicated the resident had severe cognitive impairment, had occasional pain rated two (2) on a scale of zero (0) - ten (10) (zero being no pain and ten being the most pain), and received opiod medication.</p> <p>Resident D's physician orders included, but were not limited to; oxycodone hydrochloride (HCL) 5 milligrams (mg), one tablet by mouth twice a day for pain (started 10/9/23), and Tylenol 325 mg, two tablets by mouth every six hours as needed (PRN) for pain.</p> <p>Resident D's Medication Administration Record (MAR) included:</p> <p>4/7/25 at 10:22 A.M. - PRN medication given - Tylenol 325 mg - 2 tablets given (due to) out of oxycodone until new script obtained. for pain.</p> <p>4/8/25 at 2:17 P.M. - PRN medication given - Tylenol 325 mg - 2 tablets for pain</p> <p>4/9/25 at 7:38 A.M. - PRN medication given - Tylenol 325 mg - 2 tablets for pain</p> <p>4/9/25 at 3:56 P.M. - PRN medication given - Tylenol 325 mg - 2 tablets for pain</p> <p>4/10/25 at 7:00 A.M. - PRN medication given - Tylenol 325 mg - 2 tablets for pain</p> <p>Resident D's Controlled Drug Record for medication oxycodone hydrochloride (HCL) 5 milligrams (mg), one tablet by mouth twice a day, was dated as received from the pharmacy on 3/20/25 with a total of 28 doses received. The last dose was signed out on 4/5/25 at 4:00 P.M.</p> <p>(continued on next page)</p>

Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)		
<p>F 0602</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>The facility investigation into missing medications included an unsigned, typed note that indicated on 4/1/25 at 10:30 A.M., RN 4 reported to the Director of Nursing (DON) that 30 Norco medications for Resident G were missing. After an unsuccessful search for the medications, pharmacy was contacted to ensure delivery of the medications. RN 7 had received the medication from the pharmacy on 3/25/25. RN 7 left the medications for LPN 9 to secure in the locked medication cart. LPN 9 documented that 2 cards of 42 medications of Resident G's Norco medication was added to the medication cart. All controlled medication cards were counted in the cart on the morning of 3/26/25 for a total of 34 medication cards. The medications cards were counted again that afternoon at 2:00 P.M. for a total of 34. No night shift medication card count was completed on the night of 3/26/25. The medications card sheets were not counted again on 3/27/25 morning shift at 6:00 A.M., or the afternoon shift at 2:00 P.M. When the medications cards were counted again on the night of 3/27/25, 32 cards were counted. When RN 4 attempted to reorder Resident G's Norco medication on 3/29/25, the pharmacy responded that the medications were delivered on 3/25/25.</p> <p>The facility investigation also included that Resident G had missed routine doses of narcotic medications on the night of 4/2/25 and the morning of 4/3/25. Resident D had missed routine doses of narcotic medications on the mornings and nights of 4/7/25, 4/8/25, 4/9/25, and 4/10/25.</p> <p>During an interview on 5/29/25 at 1:55 P.M., the Facility Administrator and DON indicated Resident D and Resident G were each missing a sheet of narcotic medications along with the controlled substance count sheet that correlated with the medications cards. Due to nursing staff not completing counts every shift and due to count sheets missing, an exact total of missing medications was unable to be determined. Resident D and Resident G received PRN pain medication while the facility obtained new orders and waited on the pharmacy to refill the lost medications.</p> <p>On 5/29/25 at 2:55 P.M., the Facility Administrator supplied a facility policy titled, Controlled Substance Policy, dated 07/2024. The policy included, Purpose: To ensure appropriate and consistent procedures for safeguarding controlled substances are followed from delivery through the actual administration and/or destruction of the medications . 2. Controlled Substances Count a. All controlled substances will be counted by 2 nurses at each shift change .</p> <p>This citation relates to complaint IN00459224.</p> <p>3.1-28(a)</p>
