<p>F 0584</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Some</p>	<p>Honor the resident's right to a safe, clean, comfortable and homelike environment, including but not limited to receiving treatment and supports for daily living safely.</p> <p>34129</p> <p>Based on interview, observation, and record review, the facility failed to ensure residents' rooms and bathrooms were cleaned daily and the residents' shower rooms were kept clean and uncluttered for 3 of 4 shower rooms observed. This had the potential to affect 136 of 136 residents who resided in the facility.</p> <p>Findings include:</p> <p>During an interview Resident B's family member, on 7/9/24 at 10:36 a.m., indicated housekeeping services were not provided on a regular basis.</p> <p>On 7/10/24 at 10:17 a.m., Resident F's family member indicated she visited her husband daily. The resident's room and bathroom were not cleaned routinely. She had complained about the uncleaned room and bathroom previously, in March 2024, during a care plan meeting and had filed a grievance, on 6/3/2024, about the cleanliness of the resident's room. The next day, on 6/4/24, the room and bathroom were cleaned. Now, on the floor, there was dirt, dust, debris and the toilet in the bathroom was also dirty. Resident F and his roommate, Resident H, were bedridden and did not use the toilet, but occasionally the residents' wives used the toilet. It had been a couple of weeks since the room and bathroom had been cleaned. The resident's bed had food crumbs and dirt debris underneath his bed and on the floor throughout the resident's room and bathroom. The daily routine cleaning of the resident's room and bathroom would be nice.</p> <p>On 7/10/24 at 11:10 a.m., the Executive Director (ED) was observed mopping the 300-hallway. The ED indicated his floor technician had called in sick today and the ED had seen the 300-hallway had dust and debris on it, so he decided to mop it himself. The residents' rooms and bathrooms should be cleaned daily.</p> <p>Resident F's and Resident H's room and bathroom, on 7/10/24 at 11:59 a.m., were observed with paper debris and dust on the floor and under the beds and the toilet was not cleaned.</p> <p>On 7/10/24 at 12:32 p.m., Resident H and his wife were observed in the main dining room for the lunch meal. Resident H's wife indicated she visited with her husband daily and the resident's room and bathroom were not cleaned daily.</p> <p>(continued on next page)</p>
