<p>F 0676</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>On 04/17/24 at 08:55 AM, R1 stated she did not know what her days she was on the facility schedule to be bathed and the schedule had changed three times since she arrived at the facility on December 11th of 2023. R1 stated the lack of showers was not because she did not want one. R1 stated last week she was gone Monday through Thursday and when she returned on Friday she asked the staff for a shower, as it had been 10 days prior to her going to the hospital since she had one and at the hospital, she received bed baths. R1 stated the staff told her she missed the schedule and did not assist her to get one. R1 stated a couple of mornings the staff came in her room at 06:00 AM and said if she wanted a shower, she had to do it now, she was barely awake, but she did it. R1 stated about two weeks ago on a Wednesday night at 09:30 PM the head nurse assisted her with a shower, and she got a shower on 04/15/24.</p> <p>On 04/17/24 at 11:01 AM, Certified Nurse Aide (CNA) M stated she was made aware of when bathing was to be completed by a shower list, everyone is usually two times a week unless they refuse or have their own preference of what day they would like a shower. CNA M stated she documented the bathing task on a bath sheet and electronically. CNA M stated if a resident refused bathing, she would document that and let the nurse know, after trying to go back a little bit later to see if they change their mind. CNA M stated if she was not able to complete bathing assignments for her shift, she would pass on to the next shift or try to get them done the next day. CNA M stated the schedule for R1's bathing was on the day shift on Monday and Wednesday and sometimes R1 would refuse bathing, not be in the mood, would think it was too late, or out for an appointment. CNA M stated there used to be a designated bath aide but the facility took that away.</p> <p>On 04/17/24 at 11:35 AM, Licensed Nurse (LN) G stated the CNA's know which residents need bathed on their shift by the assignment sheet which was a printed sheet for the week and showed the day of week, shift, and what showers were due. LN G stated the staff document bathing on a bath sheet, electronically, and the weekly assignment sheet. LN G stated staff would write on the assignment sheet if bathing completed or if refused and the sheet would go to management at the end of the week. LN G stated if a resident refuses bathing, the CNA would notify her, she would go talk to them, and if unable to complete bathing on a scheduled shift that would be communicated with the Signal App and communication with staff coming on the next day. LN G stated for R1's bathing days the staff must first talk to her, and she wanted a scheduled time for the shower, and at times when the staff go back at the scheduled times R1 would be flustered, not ready, almost like an anxiety, but not all the time. LN G stated it was not always possible to meet the multiple steps for R1's bathing.</p> <p>On 04/17/24 at 11:44 AM, CNA N stated the facility has a shower sheet to indicate when bathing is due as well as electronically. CNA N stated she documented bathing electronically and on bath sheets and if a resident refuses, she reports to the charge nurse and documents the refusal. CNA N stated if she was not able to complete scheduled bathing on her shift she would try to complete on her next scheduled shift or pass it on to oncoming shift. CNA N stated R1 sometimes refuses bathing, she likes to be bathed at a certain time and she may not be able to give it then. CNA N stated the times R1 wants bathed changes, pending if she has an appointment that day.</p> <p>On 04/17/24 at 11:51 AM, Administrative Nurse E stated the staff were to document bathing on a bath sheet and electronically, including refusals, and she monitored bathing by a monthly spreadsheet. Administrative Nurse E stated if a resident refuses bathing, the staff should offer an alternative such as a bed bath or come back at a later time, and if they still refuse, the refusal should be documented, and the charge nurse should be made aware.</p> <p>(continued on next page)</p>

Administrative Nurse E stated if the staff did not document bathing on the bath sheet and/or electronically then the staff did not complete the bathing task. Administrative Nurse E stated she expected staff to complete bathing as scheduled, and if a resident refused bathing, the staff were to document that and let the charge nurse know.</p> <p>On 04/17/24 at 01:26 PM Administrative Nurse D stated bathing was part of the Resident Rights. Residents were to receive appropriate and adequate care.</p> <p>The facility lacked a policy for bathing services.</p> <p>The facility failed to offer/provide adequate bathing for R1 resulting in time periods of eight days twice without bathing, 14 days, and 10 days from 02/18/24 through 04/08/24.</p> <p>- The Medical Diagnosis tab, located in the electronic medical record (EMR) for Resident (R)2 included diagnoses of muscle weakness and need for assistance with personal care.</p> <p>The Admission Minimum Data Set (MDS) dated [DATE] assessed R2 with a Brief Interview of Mental Status (BIMS) score of 14 indicating intact cognition. R2 required a wheelchair for mobility, substantial/maximal assistance for showering/bathing and transfers in/out of tub/shower.</p> <p>The Functional Abilities Care Area assessment dated [DATE] revealed R2's self-care and mobility would be addressed in the care plan.</p> <p>The Quarterly MDS dated [DATE] assessed R2 with a BIMS score of 15 indicating intact cognition, continued to require a wheelchair for mobility, required supervision or touching assistance for showering/bathing, and partial/moderate assistance for transfer.</p> <p>The Care Plan dated 02/29/24 revealed R2 was able to assist with bathing by washing her face and private area as able and required assistance of one person for safety with transfers. A revised intervention, dated 03/17/24, revealed R2 preferred to shower in the morning and the staff were to offer showers twice a week and as needed.</p> <p>The untitled document with facility bathing assignments dated 04/09/24 revealed the staff were to provide R2 bathing on the day shift on Wednesdays and Saturdays.</p> <p>Review of the Activities of Daily Living (ADL)-Bathing task in the EMR and the paper Bath Sheet from 02/17/24 through 04/16/24 revealed R2 received a shower on 02/17/24 and not again until 03/17/24 (29 days later). The staff did not provide R2 bathing again until 04/07/24 when she received a shower (21 days later). The EMR and the Bath Sheet lacked further documentation of bathing from 04/08/24 through 04/16/24 (nine days).</p> <p>Review of the Progress Notes from 02/15/24 through 04/15/24 lacked documentation related to bathing.</p> <p>(continued on next page)</p>
