For information on the nursing home's plan to correct this deficiency, please contact the nursing home or the state survey agency.

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)
F 0684 Level of Harm - Minimal harm or potential for actual harm Residents Affected - Some	<p>Provide appropriate treatment and care according to orders, resident's preferences and goals.</p> <p>Based on record review and interview, the facility failed to follow physician orders by not checking vital signs prior to administration of blood pressure medications or administered blood pressure medications when they were outside of physician ordered parameters for 4 of 4 blood pressure medications reviewed with parameters for Resident #1. Findings:On 1/13/26 at 11:50 a.m., the Administrator and surveyor reviewed R1's physician orders for blood pressure medications and the documentation in the vital signs record and Medication Administration Record (MAR) for December 2025 for R1. The following were confirmed during this review:1. A physician order, dated 12/10/25, for Carvedilol directed staff to hold this medication if systolic blood pressure (SBP) was less than 110 or if heart rate was less than 60. This medication was ordered to be given once between 7 a.m.- 12 p.m. and once between 4 p.m. - 10 p.m. It was noted that between 12/10/25 - 12/23/25, blood pressure and pulse were not documented on the MAR. -On 12/11/25, documentation in the vital signs record indicated that the SBP was 90 at 6:49 p.m. The MAR was documented to indicate the medication was given.-On 12/12/25, documentation in the vital signs record indicated that the SBP was 95 at 8:52 p.m. The MAR was documented to indicate the medication was given.-On 12/13/25, documentation in the vital record indicated that the SBP was 98 at 8:36 a.m. The MAR was documented to indicate the medication was given.-On 12/14/25, there was no documented SBP between 4 p.m. - 10 p.m., however the MAR was documented to indicate the medication was given. -On 12/15/25, there was no documented SBP between 7 a.m. - 12 p.m., however, the MAR was documented to indicate the medication was given. Documentation in the vital signs record indicated that the SBP was 109 at 6:41 p.m., however the MAR was documented to indicate the medication was given.-On 12/17/25, documentation in the vital signs record indicated that the SBP was 95 at 10:35 a.m., however the MAR was documented to indicate the medication was given. There was no documented SBP between 4 p.m. - 10 p.m., however the MAR was documented to indicate the medication was given. -On 12/18/25, there was no documented SBP between 4 p.m. - 10 p.m., however the MAR was documented to indicate the medication was given. -On 12/19/25, there was no documented SBP between 7 a.m. - 12 p.m., however the MAR was documented to indicate the medication was given. -On 12/20/25, documentation in the vital signs record indicated that the SBP was 105 at 9:08 a.m., however the MAR was documented to indicate the medication was given. Documentation in the vital signs record indicated that the SBP was 90 at 8 p.m., however the MAR was documented to indicate the medication was given. -On 12/21/25, there was no documented SBP between 7 a.m. - 12 p.m., however the MAR was documented to indicate the medication was given. Documentation in the vital signs record indicated that the SBP was 104 at 8:20 p.m., however the MAR was documented to indicate the medication was given. -On 12/22/25, documentation in the vital signs record indicated that the SBP was 103 at 9:34 a.m., however the MAR was documented to indicate the medication was given. There was no documented SBP between 4 p.m. - 10 p.m., however the MAR was documented to indicate the medication was given. -On 12/23/25, documentation in the vital signs record indicated that the SBP was 86 at 10:12 a.m., however the MAR</p> <p>(continued on next page)</p>

Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

<p>F 0684</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Some</p>	<p>was documented to indicate the medication was given. Documentation in the vital signs record indicated that the SBP was 85 at 7:15 p.m., however the MAR was documented to indicate the medication was given. 2. A physician order, dated 12/18/25, for Diltiazem directed staff to hold this medication if systolic blood pressure (SBP) was less than 110 or if heart rate was less than 60. This medication was ordered to be given once between 7 a.m.- 12 p.m. It was noted that between 12/18/25 - 12/23/25, blood pressure and pulse were not documented on the MAR. -On 12/19/25, there was no documented SBP between 7 a.m. - 12 p.m., however the MAR was documented to indicate the medication was given. -On 12/20/25, documentation in the vital signs record indicated that the SBP was 105 at 9:08 a.m., however the MAR was documented to indicate the medication was given. -On 12/21/25, there was no documented SBP between 7 a.m. - 12 p.m., however the MAR was documented to indicate the medication was given. -On 12/22/25, documentation in the vital signs record indicated that the SBP was 103 at 9:34 a.m., however the MAR was documented to indicate the medication was given. -On 12/23/25, documentation in the vital signs record indicated that the SBP was 86 at 10:12 a.m., however the MAR was documented to indicate the medication was given. 3. A physician order, dated 12/10/25, for Enalapril directed staff to hold this medication if systolic blood pressure (SBP) was less than 110 or if heart rate was less than 60. This medication was ordered to be given once between 4 p.m. - 7 p.m. It was noted that between 12/10/25 - 12/23/25, blood pressure and pulse were not documented on the MAR. On 12/11/25, documentation in the vital signs record indicated that the SBP was 90 at 6:49 p.m. The MAR was documented to indicate the medication was given.-On 12/12/25, documentation in the vital signs record indicated that the SBP was 95 at 8:52 p.m. (out of range of the time of 4 p.m. - 7 p.m.), however the MAR was documented to indicate the medication was given. -On 12/14/25, there was no documented SBP between 4 p.m. - 7 p.m., however the MAR was documented to indicate the medication was given. -On 12/15/25, documentation in the vital signs record indicated that the SBP was 109 at 6:41 p.m., however the MAR was documented to indicate the medication was given.-On 12/17/25, there was no documented SBP between 4 p.m. - 7 p.m., however the MAR was documented to indicate the medication was given. -On 12/18/25, there was no documented SBP between 4 p.m. - 7 p.m., however the MAR was documented to indicate the medication was given. -On 12/20/25, documentation in the vital signs record indicated that the SBP was 90 at 8 p.m., however the MAR was documented to indicate the medication was given. - On 12/21/25, documentation in the vital signs record indicated that the SBP was 104 at 8:20 p.m. (out of range of the time of 4 p.m. - 7 p.m.), however the MAR was documented to indicate the medication was given. -On 12/22/25, there was no documented SBP between 4 p.m. - 7 p.m., however the MAR was documented to indicate the medication was given. -On 12/23/25, documentation in the vital signs record indicated that the SBP was 85 at 7:15 p.m., however the MAR was documented to indicate the medication was given.On 12/23/25, documentation in the vital signs record indicated that the SBP was 85 at 7:15 p.m., however the MAR was documented to indicate the medication was given.4. A physician order, dated 12/18/25, for Spironolactone directed staff to hold this medication if systolic blood pressure (SBP) was less than 110 or if heart rate was less than 60. This medication was ordered to be given once between 7 a.m.- 12 p.m. It was noted that between 12/18/25 - 12/23/25, blood pressure and pulse were not documented on the MAR. -On 12/19/25, there was no documented SBP between 7 a.m. - 12 p.m., however the MAR was documented to indicate the medication was given. -On 12/20/25, documentation in the vital signs record indicated that the SBP was 105 at 9:08 a.m., however the MAR was documented to indicate the medication was given. -On 12/21/25, there was no documented SBP between 7 a.m. - 12 p.m., however the MAR was documented to indicate the medication was given. -On 12/22/25, documentation in the vital signs record indicated that the SBP was 103 at 9:34 a.m., however the MAR was</p> <p>(continued on next page)</p>
