NAME OF PROVIDER OR SUPPLIER  Brewer Center for Health & Rehabilitation, LLC		STREET ADDRESS, CITY, STATE, ZIP CODE  74 Parkway South Brewer, ME 04412	

For information on the nursing home's plan to correct this deficiency, please contact the nursing home or the state survey agency.

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)
<p>F 0684</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Some</p>	<p>Provide appropriate treatment and care according to orders, resident's preferences and goals.</p> <p>Based on clinical record reviews and interviews, the facility failed to ensure physician orders were followed for 4 of 6 resident's reviewed for medications (Resident #45 [R45], R103, R125, and R74). Findings:</p> <p>1. On 4/29/26, a review of R45's clinical record was completed. Documentation in the physician orders indicated that an order was written on 4/23/26 for Ceftriaxone Sodium (antibiotic) injection solution, reconstitute 1 gram (Ceftriaxone Sodium), inject 1 gram intramuscularly one time a day for a urinary tract infection for 5 days.</p> <p>A review of R45's Treatment Administration Record (TAR) indicated that the antibiotic was administered on 4/23/26, 4/24/26, 4/26/26 and 4/27/26. There was no evidence that the resident received the antibiotic on 4/25/26.</p> <p>On 4/29/26 at 11:58 a.m., in an interview with the surveyor, the Director of Nursing confirmed that the antibiotic Ceftriaxone had not been administered on 4/25/26.</p> <p>2. On 4/28/26 at 12:53 p.m., during an interview with a surveyor, R103 stated he/she has had trouble with constipation and diarrhea since admission to the facility.</p> <p>On 4/29/26, R103's clinical record was reviewed and indicated the following:</p> <p>An active order for Loperamide [Hydrochloride (HCl)] Capsule 2 [milligrams (MG)] Give 1 capsule by mouth as needed for diarrhea after loose stool, may repeat [one time (x1)], with a start date of 11/2/25.</p> <p>An active order for Sennosides Tablet 8.6 MG Give 2 tablets by mouth two times a day for constipation Hold for loose stools in the last 24 hours, with a start date of 4/27/26.</p> <p>Review of the Bowel Elimination History indicated that on 4/3/26, R103 did not have a bowel movement. Review of the Medication Administration Record (MAR) indicated R103 received a dose of Loperamide. The Loperamide was not given as ordered.</p> <p>Review of the Bowel Elimination History indicated that R103 had a Loose/Diarrhea bowel movement on 4/4/26. Review of the MAR indicated Loperamide was not given after a loose stool as ordered.</p> <p>Review of the Bowel Elimination History indicated that on 4/6/26, R103 did not have a bowel movement. Review of the Medication Administration Record (MAR) indicated R103 received a dose of Loperamide. The Loperamide was not given as ordered.</p> <p>(continued on next page)</p>

Any deficiency statement ending with an asterisk (\*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

<p>F 0684</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Some</p>	<p>Review of the Bowel Elimination History indicated that on 4/7/26, R103 did not have a bowel movement and on 4/8/26 R103 had a normal bowel movement. Review of the Medication Administration Record (MAR) indicated R103 received 2 doses of Loperamide on 4/8/26. The Loperamide was not given as ordered.</p> <p>Review of the Bowel Elimination History indicated that on 4/9/26, R103 had 2 normal bowel movements. Review of the Medication Administration Record (MAR) indicated R103 received a dose of Loperamide. The Loperamide was not given as ordered.</p> <p>Review of the Bowel Elimination History indicated that R103 had Loose/Diarrhea bowel movements on 4/10/26 and 4/11/26. Review of the MAR indicated Loperamide was not given after loose stools as ordered.</p> <p>Review of the Bowel Elimination History indicated that on 4/16/26, R103 did not have a bowel movement. Review of the Medication Administration Record (MAR) indicated R103 received a dose of Loperamide. The Loperamide was not given as ordered.</p> <p>Review of the Bowel Elimination History indicated that on 4/21/26, R103 did not have a bowel movement. Review of the Medication Administration Record (MAR) indicated R103 received a dose of Loperamide. The Loperamide was not given as ordered.</p> <p>Review of the Bowel Elimination History indicated that on 4/23/26, R103 had a normal bowel movement. Review of the Medication Administration Record (MAR) indicated R103 received a dose of Loperamide. The Loperamide was not given as ordered.</p> <p>Review of the Bowel Elimination History indicated that R103 had 2 Loose/Diarrhea bowel movements on 4/24/26. Review of the MAR indicated Loperamide was not given after loose stools as ordered.</p> <p>Review of the Bowel Elimination History indicated that R103 had a Loose/Diarrhea bowel movement on 4/26/26. Review of the MAR indicated that a dose of Sennosides was given on 4/27/26b within 24 hours of a loose stool. The Sennosides order was not followed.</p> <p>Review of the Bowel Elimination History indicated that R103 had a Loose/Diarrhea bowel movement on 4/28/26. Review of the MAR indicated Loperamide was not given after a loose stool as ordered, and R103 was given Sennosides on 4/29/26 within 24 hours of a loose stool. The Sennosides order was not followed.</p> <p>04/29/2026 11:44 PM during an interview, a surveyor and the Regional Director of Clinical Operations reviewed R103's clinical record and confirmed that the physician orders for Loperamide and Sennosides were not followed.</p> <p>3. On 4/28/26 at 12:53 p.m., during an interview with a surveyor, R103 stated he/she had an appointment with a Urologist who ordered an antibiotic. R103 stated the prescription was filled and in the facility, but the staff refused to provide it for weeks.</p> <p>On 4/29/26, R103's clinical record was reviewed and indicated:</p> <p>On 3/6/26, a provider request form indicated that R103 experienced dysuria and hematuria and R103 made an appointment with the Urologist for 3/18/26. (X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)		
<p>F 0684</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Some</p>	<p>On 3/21/26, a provider request form indicated a request for orders to administer the antibiotic received from the pharmacy.</p> <p>On 4/1/26, a faxed order was sent to the facility stating R103 was seen in the office on 3/18/26 and was ordered an antibiotic to be taken every 8 hours for 7 days.</p> <p>Review of the Medication Administration Record indicated R103 received the first dose of antibiotic on 4/1/26 (12 days after receiving the antibiotic from the pharmacy).</p> <p>On 4/29/26 at 12:51 p.m., during an interview with a surveyor, the Director of Nursing (DON) stated the Urologist did not have a discharge note prepared after R103's visit for the Certified Nursing Assistant or R103 to return with. The DON stated that multiple staff attempted to follow up but were unable to reach the Urologist. At this time the surveyor confirmed the clinical record lacks evidence that staff followed up with the Urologist regarding the antibiotic and/or for a progress note to be maintained in the medical record resulting in the delay of treatment (12 days).</p> <p>4. On 4/28/2026 during a clinical record review the surveyor noted that Resident #125 had a provider request dated 1/2/26 identifying R125 was having complaints of shortness of breath (SOB), the nurse asked for nebulizer treatments. The provider's response was that R125 already has an order for as needed (PRN) nebulizer ordered which was dated 12/30/25.</p> <p>During review of R125's electronic medication administration record for January 2026 there is no evidence that R125 received any PRN nebulizer treatments as ordered on 1/2/26 when he/she was experiencing SOB.</p> <p>On 4/28/26 at 3:28 p.m. during an interview and a record review for R125 with the Director of Nursing the surveyor confirmed that there was no evidence that R125 received a nebulizer treatment for SOB as ordered on 1/2/26.</p> <p>5. On 4/29/26 at 8:54 a.m. during a medication administration observation a surveyor observed Certified Nursing Assistant &amp;dash; Medications (CNA-M) administer medications to R74. R74 was seated at a table in the dining room with a Speech Therapist sitting next to him/her. The CNA-M handed R74 a medication cup that contained 14 pills and R74 brought the medication cup to his/her mouth and emptied all 14 pills into his/her mouth and then took a drink of the water provided by the CNA-M to swallow the pills. The Speech Therapist asked the CNA-M if she usually gives R74 his/her medications this way. The CNA-M stated that she usually gives them one at a time. She stated, she sets the medication cup on the table and R74 takes the medication one at a time. The Speech Therapist reminded the CNA-M to give the medications to R74 one at a time.</p> <p>On 4/30/26, a review of R74's clinical record was completed. Documentation in the physician orders indicated an order written on 4/9/26 for Dietary orders Meds whole with water one at a time and upright position.</p> <p>On 4/30/26 at 8:55 a.m. in an interview with the CNA-M, a surveyor confirmed that R74 received his/her medications all at once and not one at a time as ordered by the provider.</p>
