(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)		
F 0677 Level of Harm - Minimal harm or potential for actual harm Residents Affected - Few	Provide care and assistance to perform activities of daily living for any resident who is unable. **NOTE- TERMS IN BRACKETS HAVE BEEN EDITED TO PROTECT CONFIDENTIALITY** This citation pertains to intake #3094708Based on observation, interview, and record review the facility failed to ensure ADLs (Activities of Daily Living) specifically, nail care, for dependent residents, were completed for 2 (Resident #101 and Resident #104) of 4 residents reviewed for ADLs resulting in an unkept appearance and the potential for the spread of infection.Findings include:Resident #101Review of an admission Record revealed Resident #101 was a female who originally admitted to the facility on [DATE] and had pertinent diagnoses which included: debility, hemiparesis of left non-dominant side (paralysis of one side of the body), and late onset alzheimer's disease.Review of a Minimum Data Set (MDS) assessment for Resident #101, with a reference date of 5/31/2026 revealed a Brief Interview for Mental Status (BIMS) score of 6/15 which indicated Resident #101 was severely cognitively impaired. Review of Section GG Self-Care revealed Resident #101 was dependent for personal hygiene.Review of Work List Task Completion for Resident #101 revealed give thorough bed bath-family preference for this resident- Q (every) Tu (Tuesday) & F (Friday).On 7/28/26 at 12:26 pm, Resident #101 was in bed, and her fingernails were observed to be long, jagged, and soiled with black debris. In an interview on 7/28/26 at 2:10 pm, Certified Nurse Assistant (CNA) AA reported Resident #101 was given a bed bath twice a week on Tuesday and Friday and that nail care was done during the bed bath or shower if the resident allowed. CNA AA confirmed Resident #101 was given a bed bath today.On 7/28/26 at 2:15 pm, Resident #101 was in bed, and her fingernails were observed to be long, jagged, and soiled with black debris.On 7/29/26 at 11:35 am, Licensed Practical Nurse (LPN) LL was observed cleaning and clipping Resident #101's fingernails while she was in bed. LPN LL reported CNA P had asked her to try to clean Resident #101's fingernails since she, (CNA P) had been unsuccessful. In an interview on 7/29/26 at 11:40 am, CNA P reported she checked and completed nail care for everyone when she provided care. CNA P Resident #101 often had her hand inside her brief, and her nails needed to be checked frequently. Resident #104Review of an admission Record revealed Resident #104 was a male who originally admitted to the facility on [DATE] and had pertinent diagnoses which included: pressure ulcer of the sacral region Stage IV (full thickness tissue loss with bone exposure; lower back, upper buttock area of the body) numbness of the right lower extremity, and right hand pain.Review of a Minimum Data Set (MDS) assessment for Resident #104, with a reference date of 5/28/26 revealed a Brief Interview for Mental Status (BIMS) score of 15/15 which indicated Resident #104 was cognitively intact. Review of Section GG Self-Care revealed Resident #104 required partial moderate assistance with personal hygiene. Review of Work List Task Completion for Resident #104 revealed assist with bathing/showering - Q Tuesday / Friday.On 7/28/26 at 2:40 pm, Resident #104's fingernails were noted to be long, jagged, and soiled with dirt and debris. Resident #104 reported he preferred to keep his nails short and clean and had asked for assistance but had not gotten any help yet. Resident #104 reported the staff had not offered to cut his (continued on next page)		

Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.
