	265480	A. Building B. Wing	03/25/2025

NAME OF PROVIDER OR SUPPLIER	STREET ADDRESS, CITY, STATE, ZIP CODE
Grand River Health Care	118 Trenton Road Chillicothe, MO 64601

For information on the nursing home's plan to correct this deficiency, please contact the nursing home or the state survey agency.

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)
F 0600 Level of Harm - Actual harm Residents Affected - Few	Protect each resident from all types of abuse such as physical, mental, sexual abuse, physical punishment, and neglect by anybody. **NOTE- TERMS IN BRACKETS HAVE BEEN EDITED TO PROTECT CONFIDENTIALITY** 47195 Based on record review and interview, the facility failed to keep one resident (Resident #2) free from verbal and physical abuse when Nurse Aide (NA) A held resident's arms down and cussed at resident (Resident #2) and when Licensed Practical Nurse (LPN) A yelled at resident (Resident #2) and forced the resident to wear a bi-pap mask (A device that forces oxygenated air through mask that is suctioned against a person's face to provide respiratory support) against the resident's will . The facility census was 26. Review of facility policy, dated ,d+[DATE], showed: -It is the policy of the facility that at each resident will be free from abuse. Abuse can include verbal, mental, sexual, or physical abuse, misappropriation of resident property, and exploitation, corporal punishment, or involuntary seclusion. The resident will be free from physical and chemical restraints imposed for purposes of discipline or convenience and that are not required to treat the resident's medical symptoms. The resident will be protected from abuse, neglect, and harm while they are residing at the facility. -All employees who have been alleged to commit abuse will be suspended immediately pending investigation. -If allegation is substantiated there is a potential that the employee will be terminated, added to the Employee Disqualification List and not allowed to work in a nursing home, disciplined by their licensing agency, and charged with a crime. 1. Review of Resident #2's Significant change Minimum Data Set (MDS), a federally mandated assessment tool completed by facility staff, dated [DATE], showed: -The resident was now on hospice care. Review of Resident #2's Quarterly MDS, dated [DATE], showed: -Cognition intact; -He/She had clear speech; (continued on next page)

Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)
F 0600 Level of Harm - Actual harm Residents Affected - Few	-Order started [DATE], oxygen therapy: ,d+[DATE] liters each nostril nasal cannula as need to keep oxygen saturation levels above 92%. Special instructions: As needed (PRN); -Order started [DATE], Continue home oxygen as directed and use Bi-Pap as directed. Special instructions: Continue home oxygen use as directed and use Bi-pap as directed; -Order started [DATE], code status DNR. Review of progress notes, dated [DATE]-[DATE], showed: -On [DATE] at 6:34 A.M., LPN A wrote oxygen saturations were checked every ,d+[DATE] minutes and were ,d+[DATE]%, at 3:00 A.M. resident saturations were at 75%. Resident's Bi-Pap was placed on and oxygen went up to 84% saturation. Breathing treatment was given. Resident kept saying he/she wanted to go to the hospital. Residents saturations dropped to ,d+[DATE]%. Resident became combative and not leaving Bi-pap on. Family Nurse Practitioner was contacted at 4:30 A.M. and new order was obtained to transfer to emergency room . At 5:35 A.M. ambulance was notified and EMS left with resident. Guardian notified by phone, fax sent to family nurse practitioner to notify of resident's transfer. -On [DATE] at 10:23 A.M., Registered Nurse (RN) A wrote call received from emergency room and transfer of resident was pending as soon as hospital bed was located for him/her; -On [DATE] at 4:50 P.M., RN A wrote resident was sent to hospital in Kansas City. Resident's guardian and family were made aware; -On [DATE], Facility received an email from resident's guardian regarding assessing resident for palliative care or hospice when discharged back to facility; -On [DATE] at 11:50 A.M., RN A wrote that resident was discharged from hospital; -On [DATE] at 2:55 P.M., RN A received report from RN at Kansas City hospital that resident had been hospitalized for acute chronic respiratory failure with hypoxia and hypercapnia. Resident continued to be noncompliant with bi-pap but did wear bi-pap 3.5 to 4 hours the previous night. -On [DATE] at 7:32 P.M., RN A wrote that the resident returned to facility. Review of facility investigation, dated [DATE] at 3:30 P.M., showed: -Notification: Facility was notified by Resident #2's guardian on [DATE] at 3:30 P.M. that Resident #2 told his/her family member that LPN A was condescending and told Resident #2 he/she would die if he/she was noncompliant with care and told NA B to hold Resident #2 down. -Witness Interview showed: -NA B informed facility that NA was frustrated at resident for not wearing his/her mask through the night, called Resident #2 stupid and to keep his/her fucking mask on and punched a pillow. NA B said LPN A was yelling and arguing with Resident #2 over compliance with mask and held Resident #2's right hand down to put his/her mask on face; (continued on next page)

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)
F 0600 Level of Harm - Actual harm Residents Affected - Few	-Interviews with alleged perpetrators showed: -LPN A said Resident #2 was having extremely low oxygen saturations, being combative, and noncompliant. NA A did have a heated episode according to coworker NA A and he/she removed him from the room but did not hear it and told NA A not to talk to residents rudely. Resident #2's oxygen was extremely alarmingly low and he/she called emergency medical services. He/She tried to get Resident #2's oxygen saturations up and Resident #2 was being combative, not in his/her right state of mind, so he/she did hold Resident #2's hand down just to get his/her mask repositioned. Resident #2 was not hurt at all and was not restrained. -NA A said: Resident #2's oxygen was low like down in the 30's. It was very emotional and intense. He/She got upset Resident #2 would not keep his/her mask on so he/she admitted that he/she called Resident #2 stupid and to keep his/her fucking mask on. He/She regretted it and realized it was wrong. The charge nurse, LPN A talked me through it and told me my behavior was unacceptable. Resident #2 was combative and ripped his/her mask off. LPN A was trying to talk us through it. He/She held down Resident #2's hands so the nurse, LPN A, could put Resident #2's mask on. It was a life or death situation and very intense. -Conclusion: Allegation was verified by eyewitness statement, confirming abuse and neglect by both perpetrators. NA A verbal abuse and LPN B physical abuse from using restraint. -Corrective Action: Facility immediately suspended perpetrators and following investigation terminated both LPN A and NA A. Psychosocial visits to victim upon return. Education to facility staff on abuse and neglect, restraints, and reporting abuse and neglect. -Facility interviewed five residents with BIMS over 12, all residents said they had no issues or bad experiences with either perpetrator. All denied abuse or neglect by a staff member. -Review of facility investigation, dated showed: -Twenty-three residents were interviewed regarding if they had experienced abuse or neglect from staff member, if they had been held down, constrained, or restricted by staff, and if there was anything they wanted to report or were too shy to report. -Statements were obtained from NA B on [DATE]; -Interview was conducted with Resident #2 on [DATE]; -Facility reported LPN A to professional Missouri licensing board; -Facility reported NA B to CNA Registry. Review of resident's medical chart, dated [DATE], showed Do Not resuscitate orders were signed by Resident #2's guardian on [DATE] and were also signed by two physicians. During an interview on [DATE] at 9:28 A.M., Resident #2 said: (continued on next page)

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)
F 0602 Level of Harm - Minimal harm or potential for actual harm Residents Affected - Few	Protect each resident from the wrongful use of the resident's belongings or money. **NOTE- TERMS IN BRACKETS HAVE BEEN EDITED TO PROTECT CONFIDENTIALITY** 47195 Based on observation, interviews, and record reviews, the facility failed to assure one resident (Resident #1) was free from misappropriation of his/her property when the resident's narcotic medications were found missing from the facility. The facility census was 26. Review of facility's abuse policy, dated ,d+[DATE], showed: -It is the policy of the facility that at each resident will be free from abuse. Abuse can include misappropriation of resident property -All employees who have been alleged to commit abuse will be suspended immediately pending investigation. -If allegation is substantiated there is a potential that the employee will be terminated, added to the Employee Disqualification List and not allowed to work in a nursing home, disciplined by their licensing agency, and charged with a crime. Review of facility policy, Scheduled II-V Medications, undated, showed: -Schedule II-V medications may be kept in medication cart lock box, refrigerator, boxes, or double lock box maintained in medication room. -Scheduled medications will have disposition records that are in a binder on medication cart or area instructed by Director of Nursing (DON). -Scheduled medications that are as needed (PRN) must be kept in medication cart locked box. -Additional cards may be kept in the medication room locked box or in the medication locked box in nurse medication cart. Dispositions records will be kept with the schedule II medication disposition records. -When a Schedule II, III, IV, V car is emptied, the CMT will place the card with the disposition record in the designated area for the DON or licensed designee to collect. -When new or refill schedule II, III, IV, or V cards arrive from the pharmacy, the disposition record is filled out, the card is counted and placed in the locked box in the medication cart. -All schedule II, III, IV, and V medications must be counted (comparing number of pills to disposition record) at every change of shift by two CMT, or one CMT and one licensed nursing staff. Both personnel must sign verification of correct count for Schedule II, III, IV, and V. -If at any time the count is incorrect, CMT must notify licensed nursing staff, who will call DON or designee for instruction. -All scheduled II medications will be administered by the nurse or authorized CMT. (continued on next page)

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)
F 0602 Level of Harm - Minimal harm or potential for actual harm Residents Affected - Few	-CMT A signed he/she administered medication between 8:00 A.M.-10:00 A.M. and 11:00 A.M.-2:00 P.M.; -On [DATE], Resident received medication between 8:00 A.M.-10:00 A.M., 11:00 A.M.-2:00 P.M., and 3:, d+[DATE]:00 P.M.; -CMT A signed he/she administered medication at all three administration times. Review of care plan, revised [DATE], showed the resident had constant chronic back pain. Physician's orders, dated [DATE], showed the order started [DATE], Hydrocodone-acetaminophen -schedule II tablet; 7XXX,d+[DATE]mg, 1 tab three times a day by mouth. Observation of medication room on [DATE] at 2:58 P.M., showed: -There were two bubble packs for resident #1 of hydrocodone-acetaminophen 7XXX,d+[DATE]mg in medication cart, 1 card had 20 remaining, the other card had 60 count. -Controlled drug count sheet matched the number of pills found in medication cart; -Controlled drug box inside the medication cart was not locked. Review of pharmacy facility delivery receipts, [DATE]-[DATE], showed: -On [DATE], 60 quantity, hydrocodone-acetaminophen 7XXX,d+[DATE] mg tablets, were delivered to the facility; -On [DATE], 60 quantity, hydrocodone-acetaminophen 7XXX,d+[DATE] mg tablets, were delivered to the facility; -On [DATE], 60 quantity, hydrocodone-acetaminophen 7XXX,d+[DATE] mg tablets, were delivered to the facility. 2. Review of facility investigation, dated [DATE], showed: -Facility became aware of incident on [DATE] at 3:00 P.M.; -RN A reported that on [DATE] she returned to work from having two days off and noted a missing pack of Resident #1's hydrocodone-acetaminophen as he/she had previously had two bubble packs of the hydrocodone-acetaminophen when he/she had worked on [DATE]. He/She had inquired with CMT A what had happened to them and CMT A reported that DON and Administrator had destroyed medications due to state survey agency being in building and facility having too many controlled drugs and an inhaler. RN A shrugged off the information but later heard a conflicting story on [DATE] when CMT A had said that he/she had destroyed the controlled drugs so he/she reported information to facility administration. DON and Administrator informed RN A that they had not destroyed any medications. -Steps taken included: (continued on next page)

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)
F 0602 Level of Harm - Minimal harm or potential for actual harm Residents Affected - Few	-Suspended CMT A; -Obtained written statements; -Searched for medication destruction and controlled medication sheet for Resident #1 but were unable to locate either documentation; -Notified pharmacy -Educated all nurses on narcotics; -Review of written statements showed: -On [DATE], Administrator wrote: On [DATE], RN A reported an incident to him/her, DON, and Quality Assurance Nurse regarding a missing narcotic medication (Hydrocodone-Acetaminophen) for Resident #1. RN A had questioned CMT about the missing medication to which CMT said Administrator and DON were cleaning out the med room since state was in building trying to destroy all expired or non-labeled medications, they must have gotten rid of it. The DON and he/she clarified that this statement was false and that neither of us had cleaned out the medication room. RN A expressed concerns that CMT A might be involved with theft, citing his/her strong desire to pass narcotics at the start of his/her shift, although RN A did not have sufficient evidence to formally accuse CMT A of stealing. As a result of incident, CMT A will be terminated from his/her role as CMT, but will be allowed to maintain his/her position as a CNA without medication administration privileges. -On [DATE], RN A wrote: On Friday February 28, 2025 while getting a narcotic out I noted that resident #1 only had one full card of hydrocodone-acetaminophen and one partial card. When he/she had worked on Tuesday, February 25 there was one partial card and two full 60 count cards of hydrocodone-acetaminophen. CMT A said that Administrator and DON had been in the medication room going through the medication cart and cleaning and that they had taken a card of hydrocodone-acetaminophen because facility had too much and it looked back with state agency in the facility. He/She inquired with CMT A what Administrator and DON did with the card and CMT A said he/she did not know. The sign out sheet for the hydrocodone-acetaminophen was also missing from the narcotic count book. He/She intended to speak with the DON about the medication, but was not able to until [DATE]. He/She did know for a fact that there were two sixty count cards of hydrocodone-acetaminophen in the medication cart because hospice nurse A and him/her had counted the controlled medications for hospice patients on [DATE] and he/she had discussed the controlled drug count for Resident #1 yesterday on [DATE]. Hospice nurse showed me his/her computer that showed the partial count plus 120 more. -On [DATE], Business Office Manager (BOM) wrote: CMT had told him/her he/she had taken a controlled drug home when he/she went to pick CMT A up for work. He/She said he/she had told RN A that he/she had taken it home and he/she would bring the medication back in the morning. CMT A said he/she had left medication on the dryer. BOM offered for CMT A to go back and pick up the medication and CMT A said no that RN A would not say anything or write him/her up for it; (continued on next page)

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)
F 0602 Level of Harm - Minimal harm or potential for actual harm Residents Affected - Few	-On [DATE], CMT A wrote: On February 25, 2025 state notified him/her that he/she had an abundance of extra medications on his/her medication cart. He/She put extra eye drops, nasal sprays, inhalers on the counter to be destroyed. RN A asked him/her about medications being destroyed and he/she said that we had a lot from his/her cart. The only narcotics he/she seen to be destroyed was morphine and RN A was doing correctly so with another nurse. He/She did not normally pop out the narcotics but he/she did get into their cart. He/She accident took home another resident's bromoimide drops. He/She did say that RN A probably wouldn't write him/her up for it. -Undated, DON wrote, CMT A came to him/her and Administrator and informed them that state made him/her and RN A destroy several medications which included an inhaler, morphine, and a medication that belonged to Resident #1 but he/she could not remember the name of the medication. He/She spoke to RN A on [DATE] and informed hi/her that it was weird that CMT A told RN A that DON and Administrator had gotten rid of a card of hydrocodone-acetaminophen for Resident #1. He/She took RN A to administrator and Corporate Quality Assurance nurse to repeat what he/she had said. With guidance from Corporate Quality Assurance nurse, CMT would no longer do medications in facility, a soft file had been started, nurses were in-service and medication sheet is unavailable as he/she, RN A looked for the controlled drug sheet and medication and were unable to locate either items. -On [DATE], Hospice Nurse A wrote: He/She served as hospice case manager for Resident #1 and had conversation with RN A. RN A had asked him/her if he/she had destroyed any of Resident #1's medications. He/She responded no. RN A stated he/she did not feel Resident #1's controlled drug count was correct. RN A stated that CMT A had told RN A that he/she, DON, and a state agency representative was in medication room discussing Resident #1's medications and that had stated Resident #1 had too many hydrocodone-acetaminophen and that Resident #1 did not need that many. I told RN A that conversation never took place and that he/she had not destroyed any of Resident #1's medications. According to his/her charting of Resident #1's medications he/she had 135 tabs of hydrocodone-acetaminophen 7XXX,d+[DATE] on [DATE] and 55 tablets of hydrocodone-acetaminophen 7XXX,d+[DATE] mg on [DATE]. -Corrective Actions showed: -CMT A suspended -Pharmacy and Hospice were notified and medications were replaced; -CMT A would no longer be allowed to work as CMT, only as a CNA; -Only licensed nurses were allowed to pass controlled drugs; -Licensed nurses must count controlled drugs between shifts. Neither nurse shall leave facility if there was miscount, missing narcotics, or undocumented destruction until the DON was informed and approved. -Controlled drug destruction required direct approval from the DON. -Plan of oversight included: Education to nurses regarding corrective action; -DON to audit narcotics weekly for any unreported missing narcotics; (continued on next page)

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)
F 0602 Level of Harm - Minimal harm or potential for actual harm Residents Affected - Few	-Systemic changes included: Change in facility policy that revoked CMT privileges to pass controlled medications. -Conclusion of investigation showed: Inconclusive. Facility could not confirm or disprove due to lack of sufficient evidence. No direct observation of CMT stealing narcotics as charge nurse did not witness theft and BOM did not observe the narcotics in CMT's possession. It was verified that controlled drug was missing from Resident #1's supply. It remained inconclusive whether it was misplaced, destroyed, discarded, or stolen. -Inservice was completed on [DATE] with three facility nurses regarding passing of controlled medications; During an interview on [DATE] at 1:46 P.M., Licensed Practical Nurse (LPN) A said: -Two nurses counted narcotics together; -If a medication was discontinued the facility had a jug of drug buster and two nurses fill out a form and both nurses have to sign, destroy, and put it in the drug buster stuff; -He/She knew Resident #1's narcotic medication count was off; -He/She was informed that there had been two cards but they were just using the one card; -One of the nurses reported to him/her that one of the cards was missing; -Evidently someone took the whole controlled dug page out of the controlled medication book and everything; -RN A or RN B had to be the nurse that told him/her that Resident #1's medication card was missing; -He/She worked night shift from 6:00 P.M.-6:30 A.M.; -He/She had never had any issues with missing medication bubble packs; -CMT A had access to the narcotics; -This was a new policy that they allowed CMT's access to narcotics when they hired CMT A; -CMT was allowed to go into both medication carts; -The nurses cart had the narcotics in it; -Resident #1 received Hydrocodone-Acetaminophen scheduled for his/her pain; -CMT A was always asking charge nurse if he/she could give Resident #1 and Resident #4 pain medication; -Resident #4 was on same medication as Resident #1; (continued on next page)

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)
F 0602 Level of Harm - Minimal harm or potential for actual harm Residents Affected - Few	-Another instance, a day aide came up and asked if he/she could give Resident #3's his/her medications because they were getting ready to change him/her and the day aide thought it would help him/her. CMT A already had Resident #3's medication cup ready in medication cart, but when he/she looked in his/her medication cup Resident #3's did not have his/her Ativan in the cup and there was no Ativan in the medication cart. CMT A had popped pills in advance and had them already in a pill cup in the medication cart; -Resident #1 is fairly agreeable resident but at times he/she would become hateful on days CMT A passed Resident #1's medications. He/She had wondered if Resident #1 had been experiencing pain; -CMT A was in medication room helping straighten Medication Administration Records (MARS) during this past month and the MDS Coordinator was working to pass medications that evening; -CMT A was not in facility working to pass medications that shift but he/she asked him/her three times if he/she wanted him/her to go and pass Resident #4's pain medication. On the third time of CMT A asking about Resident #4's pain medication, he/she went to ask and assess Resident #4's pain. Resident #4 said he/she was fine and was not having any pain. CMT A became upset with me. During an interview on [DATE] at 3:05 P.M., Business Office Manager (BOM) said: -He/She transported CMT A to and from work; -He/She dropped CMT A off from work on [DATE] and he/she had a back pack he/she carried with him/her; -He/She picked up CMT A on morning of [DATE] and when he/she backed out of CMT A's driveway, CMT A said he/she had forgotten medication. He/She asked CMT A if he/she needed to go back into get the medication and CMT A said no it was just a pill in a cup; -He/She observed CMT A open his/her backpack and pulled medicine out of his/her bag. Inside his/her bag he/she had long oval pills that were loosely laying in his/her bag; -He/She had also observed some pill bottles and CMT A did indicate he/she took Xanax and Tramadol; -The next day CMT A did bring a pill in a white paper cup up to the Business Office Manager's office and said resident no longer took the medication; -CMT A did not mention any eye drops to him/her, he/she was not aware of any eye drops; -He/She had observed concerns regarding CMT A's behavior at work; -He/She had observed CMT standing at medication cart acting loopy and dozing off and did not appear functional; -He/She had residents ask him/her what was wrong with CMT A and why CMT A would fall asleep or was falling over while trying to write; (continued on next page)

F 0609 Level of Harm - Minimal harm or potential for actual harm Residents Affected - Few	Timely report suspected abuse, neglect, or theft and report the results of the investigation to proper authorities. 47195 Based on interview and record review, the facility failed to report to the state survey agency and law enforcement, misappropriation of resident property (missing narcotics), when the facility became aware on 3/11/25 that one resident (Resident #1) had one bubble pack card of a narcotic medication, hydrocodone-acetaminophen 7.5-325mg (a controlled drug used to relieve severe pain) missing. The facility census was 26. Review of facility abuse and neglect policy, dated 11/2017, showed: -The facility will ensure that any reasonable suspicion of crimes committed against a resident of the facility will be reported to the appropriate Law Enforcement Agency as established by section 6703(b)(3) of the Patient Protection and Affordable Care Act of 2010. When there is reasonable suspicion that a crime had occurred, then in addition to reporting the allegation of abuse to the state survey agency, the incident must be reported to the local law enforcement. -All reports of suspected crime must be reported immediately reported to local law enforcement to be investigated. The facility will fully cooperate with local law enforcement. 1. Review of Resident #1's Quarterly minimum data set (MDS), a federally mandated assessment tool completed by facility staff, dated 3/14/25, showed: -Cognition severely impaired; -He/She had limited range of motion to both lower extremities; -He/She was dependent on a wheelchair; -He/She required partial to moderate assistance with toileting, upper body dressing, rolling left and right, sit to stand transfers, and toilet transfers; -He/She required substantial to maximal assistance for chair to bed transfers, lying to sitting transfers, and bathing; -He/She was on scheduled pain medication regimen; -He/She was taking an opioid; -Diagnoses included: vascular dementia (cognitive decline caused by damage to the blood vessels in the brain), major depressive disorder (persistently depressed mood), pain, and anxiety. Review of care plan, revised 3/7/25, showed the resident had constant chronic back pain. Review of facility investigation, dated 3/11/25, showed: (continued on next page)

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)
F 0609 Level of Harm - Minimal harm or potential for actual harm Residents Affected - Few	-Facility became aware of one bubble pack of 30 missing narcotics for resident #1 when Registered Nurse (RN) A reported on 3/11/25 that when she returned to work on 2/28/25 there was one package of narcotics that were missing from when he/she had previously worked on 2/25/25. RN A reported that Certified Medication Technician (CMT) A said to him/her that with state in building for survey the Director of Nursing (DON) and Administrator destroyed medications because they had too much narcotics. RN A reported he/she shrugged off the comment until 3/11/25 when he/she heard a conflicting story that CMT A had reported that he/she had destroyed the narcotics. DON and Administrator reported to RN A that they had not destroyed any medications. -Facility steps in their investigation included notifying the state survey agency, gathering statements, suspending alleged perpetrator, informing pharmacy and paying for replacement medications, and education to their nurses; -Law enforcement was not contacted. Physician's orders, dated 3/25/25, showed the order started 1/20/25, Hydrocodone-acetaminophen -schedule II tablet; 7.5-325mg, 1 tab three times a day by mouth. During an interview on 3/25/25 at 1:15 P.M., Administrator said: -He/She did not contact law enforcement regarding the missing medications; -He/She felt like the narcotics had been missing for too long when it had been reported to him/her. During an interview on 3/25/25 at 4:26 P.M., Director of Nursing (DON) said: -He/She did not know if Administrator had contacted law enforcement regarding missing narcotics; -Administrator was the facility investigator. During an interview on 3/25/25 at 4:48 P.M., Administrator said: -The resident's missing narcotics should have been reported to local law enforcement. -He/She expected resident's to be free from misappropriation of their personal property.
