(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)
<p>F 0732</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>Post nurse staffing information every day.</p> <p>Complaint #2580072Based on observation, interview, and review of pertinent facility documents, it was determined that the facility failed to ensure that the 24-hour staffing report was accurately posted within the facility for the residents and the visitors to view for 2 of 2 observations.This deficient practice was evidenced by the following: On 11/3/25 at 8:20 AM, the surveyor entered the facility and observed that the Nursing Home Resident Care Staffing Report (NHRCSR) that was posted on the receptionist desk was dated 11/2/25, day shift. The NHRCSR was not up to date. On 11/3/25 at 2:18 PM, both the surveyor and the Unit Clerk/Certified Nursing Aide (UC/CNA), observed the posted NHRCSR was dated 11/2/25 for day shift. The UC/CNA informed the surveyor that she was covering for the Receptionist. She stated that she was unsure if she can update the posted NHRCSR because it was the responsibility of the Receptionist to post updated NHRCSR. On 11/3/25 at 2:21 PM, the surveyor notified the Director of Nursing (DON) of the above findings and concerns with regard to NHRCSR posted dated 11/2/25. On that same date at 2:45 PM, the DON informed the surveyors that the NHRCSR should be posted timely and updated for nursing staffing by whoever covering for the Receptionist. She confirmed that the NHRCSR reflected the staff to resident ratio and should comply with the requirements. A review of the facility's Posting of Nurse Staffing Information Policy that was provided by the DON, with a revision date of 6/2025, revealed, on a daily basis the nursing facility will post nurse staffing data for the licensed and unlicensed staff directly responsible for resident care in the facility. Procedure: 1. Data requirements: the facility must post the following information on a daily basis: facility name, current date, the total number and the actual hours worked by the following categories of licensed and unlicensed nursing staff directly responsible for resident care per shift: registered nurse, licensed practical nurses or licensed vocational nurses, certified nurses aide, and resident census. N.J.A.C. 8:39-41.2 (a)(b)(c)</p>

Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.
