

STATEMENT OF DEFICIENCIES AND PLAN OF CORRECTION	(X1) PROVIDER/SUPPLIER/CLIA IDENTIFICATION NUMBER:  345285	(X2) MULTIPLE CONSTRUCTION A. Building B. Wing	(X3) DATE SURVEY COMPLETED  12/06/2024
NAME OF PROVIDER OR SUPPLIER  Accordius Health at Hendersonville		STREET ADDRESS, CITY, STATE, ZIP CODE 200 Heritage Circle Hendersonville, NC 28791	

For information on the nursing home's plan to correct this deficiency, please contact the nursing home or the state survey agency.

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)
<p>F 0553</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>Allow resident to participate in the development and implementation of his or her person-centered plan of care.</p> <p><b>**NOTE- TERMS IN BRACKETS HAVE BEEN EDITED TO PROTECT CONFIDENTIALITY**</b> 37014</p> <p>Based on record review, resident and staff interviews, the facility failed to invite residents to participate and provide input in care planning for 2 of 3 sampled residents (Residents #50 and #11).</p> <p>Findings included:</p> <p>1. Resident #50 was admitted to the facility on [DATE] with diagnoses that included diabetes, chronic pain, chronic post-traumatic stress disorder, and anxiety disorder.</p> <p>The quarterly Minimum Data Set (MDS) assessment dated [DATE] revealed Resident #50 had intact cognition.</p> <p>Review of Resident #50's electronic medical record revealed no evidence she was invited to attend care plan meetings to discuss and provide input regarding her plan of care following the completion of the annual MDS assessment dated [DATE] or the quarterly MDS assessment 09/13/24.</p> <p>The comprehensive care plan for Resident #50 was last revised on 08/14/24.</p> <p>During an interview on 12/03/24 at 8:49 AM, Resident #50 stated she had not been invited to attend or had a care plan meeting scheduled since June 2024.</p> <p>During interviews on 12/4/24 at 2:28 PM and 12/06/24 at 3:52 PM, the Administrator revealed the Social Worker (SW) was responsible for keeping track of the care plan meeting schedule. He explained the SW left employment on 10/24/24 and since then, they had been actively interviewing candidates to fill the position. He explained that since the SW left employment, the care plan meeting schedule had not been updated and although the Interdisciplinary Team had conducted several initial 48-hour and quarterly care plan meetings with residents in their rooms, along with the resident's Responsible Party/Family Member on the phone, they had not documented the care plan meetings in the resident's medical record. The Administrator could not state for certain if a care plan meeting was held with Resident #50 following the completion of her annual MDS assessment dated [DATE] or quarterly MDS assessment dated [DATE]. The Administrator stated he would expect for care plan meetings to be completed quarterly.</p> <p>(continued on next page)</p>

Any deficiency statement ending with an asterisk (\*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)		
<p>F 0558</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>Reasonably accommodate the needs and preferences of each resident.</p> <p><b>**NOTE- TERMS IN BRACKETS HAVE BEEN EDITED TO PROTECT CONFIDENTIALITY**</b> 36217</p> <p>Based on observation, record review, and interviews with resident and staff, the facility failed to ensure a dependent resident could access a light switch located at the left side of her bed for 1 of 1 resident reviewed for accommodation of needs (Resident #91).</p> <p>The findings included:</p> <p>Resident #91 was admitted to the facility on [DATE].</p> <p>The quarterly Minimum Data Set (MDS) assessment dated [DATE] indicated Resident #91 had severe cognitive impairment. The MDS coded Resident #91 with impairment of one side of lower extremity and walking between locations inside the room for more than 10 feet was not attempted during the assessment period due to medical condition or safety concerns.</p> <p>During an observation conducted on 12/02/24 at 1:09 PM, the switch for the light fixture on the left side of Resident #91's bed 5 feet from the floor was attached with a cord 3 inches in length. Resident #91 was unable to reach the switch cord from the bed if needed.</p> <p>An interview was conducted with Resident #91 on 12/02/24 at 1:13 PM. She stated the switch cord had been broken since she moved into her room more than a month ago. She added she was bed-bound and unable to get up from the bed without assistance. It was very inconvenient for her as she could not reach the switch cord and had to rely on the staff to control the light fixture all the time.</p> <p>Subsequent observation conducted on 12/03/24 at 10:46 AM revealed the switch cord for the light fixture next to Resident #91's bed remained inaccessible.</p> <p>An interview was conducted with Nurse Aide #5 (NA) on 12/03/24 at 2:53 PM. He noticed the switch cord for Resident #91's light fixture had been broken for a while, but he did not notify the maintenance staff to fix it. Instead, he used the switch on the wall near the entrance door to switch on the light fixture next to Resident #91's bed. He stated he should have notified the maintenance staff to fix it as it was important for Resident #91 to have full accessibility to her light fixture at all time.</p> <p>During an interview conducted on 12/03/24 at 2:58 PM, Nurse #3 confirmed Resident #91 was bedridden and unable to get up from her bed or stand up on her feet to switch on the light fixture next to her bed. She explained she did not notice that the switch cord was broken when she provided care for Resident #91 in the past few weeks.</p> <p>During a joint observation conducted with the Maintenance Manager on 12/03/24 at 2:40 PM, he acknowledged that the switch cord for the light fixture was too short and unreachable for Resident #91, and it needed to be fixed as soon as possible.</p> <p>(continued on next page)</p>

<p>F 0558</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>An interview was conducted with the Maintenance Manager on 12/03/24 at 2:47 PM. He stated he checked the entire facility including Resident #91's room and bathroom at least once every week. He did not know when the switch cord was broken and stated it was important for Resident #91 to have accessibility to her light fixture. He added he depended on residents and staff to report repair needs either verbally or through the work order. He typically checked the work orders at least once daily to ensure all repair needs were met in a timely manner.</p> <p>An interview was conducted with the Director of Nursing (DON) on 12/03/24 at 4:06 PM. She expected the staff to be more attentive to residents' living environment, and to report repair needs to the maintenance department in a timely manner to accommodate residents' needs. She added the maintenance staff should check repair needs on a regular basis and address the issues accordingly. It was her expectation for all the dependent residents to have full access and control of the light fixture all the time.</p>

<p>F 0578</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>Honor the resident's right to request, refuse, and/or discontinue treatment, to participate in or refuse to participate in experimental research, and to formulate an advance directive.</p> <p><b>**NOTE- TERMS IN BRACKETS HAVE BEEN EDITED TO PROTECT CONFIDENTIALITY**</b> 51142</p> <p>Based on record review and staff interviews, the facility failed to maintain accurate advanced directives throughout the medical record for 1 of 3 residents reviewed for advanced directives (Resident #65).</p> <p>Findings included:</p> <p>Resident #65 was admitted to the facility on [DATE].</p> <p>Resident #65's advanced directive care plan, initiated on 07/15/21, with the most recent revision on 03/26/2024 had Resident #65 Care planned as a Full Code. Care Plan Goal listed as: Resident's advanced directives are in effect and their wishes and directions will be carried out in accordance with their advanced directives. Interventions included: Allow resident if able to discuss feelings regarding their Advanced Directives, An Advanced Directive can be revoked or changed if the resident and or appointed Health Care Representative changes their mind about the medical care they want delivered, Complete and update MOST form as needed. Honor residents and family wishes. Review advance directives at least quarterly and PRN. The appointed Health Care Representative will make all health care decisions if the resident is incapacitated.</p> <p>The quarterly Minimum Data Set (MDS) dated [DATE] revealed Resident #65 was severely cognitively impaired.</p> <p>Review of the Code Book revealed Resident #65's revealed a Medical Orders for Scope of Treatment (MOST) form dated 09/23/2024 that indicated his preference for a Do Not Resuscitate (DNR) status in the event he had no pulse and was not breathing. The form was signed by Resident #65's Responsible Party.</p> <p>On the profile page of Resident #65's electronic health record, Resident #65's code status was listed as a DNR.</p> <p>Review of Resident #65's Physician orders, revealed an order dated 9/23/2024 for a Medical Orders for Scope of Treatment (MOST) form dated 09/23/2024 that indicated his preference for a Do Not Resuscitate (DNR) status in the event he had no pulse and was not breathing.</p> <p>During an interview on 12/04/2024 at 11:44am Nurse # 1 stated a Resident's code status could be found in the Code Book located at the desk and in the resident's electronic medical record or chart. Nurse #1 stated new orders for advanced directives were received by the nurse, the social worker used to update the charts and care plan, now it was completed by nursing.</p> <p>During an interview on 12/04/2024 at 2:42pm Unit Manager #1 stated nurses share the responsibility to make sure new orders for advanced directives were updated in the chart, face sheet and Code Book, and the Minimum Data Set (MDS) nurse updated the care plan.</p> <p>(continued on next page)</p>

<p>F 0578</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>During an interview on 12/04/2024 at 2:47pm, the MDS Coordinator #2 stated the social worker used to update advanced directives in the resident's care plan but was not aware who was responsible to keep them updated now. The MDS Coordinator #2 verified Resident #65's order for a DNR did not match the Care Plan for Full code in his electronic medical record.</p> <p>During an interview on 12/4/2024 at 3:23pm, the Director of Nursing (DON) stated the nurse who received the order would make any notifications needed to family and social work. The DON stated since the facility did not have a social worker, the DON had taken the responsibility to keep advanced directive care plans updated. The DON verified that Resident #65's care plan for a Full Code did not match the order in Resident #65's chart. The DON stated she expected for a resident's advanced directives to match throughout the medical record.</p> <p>During an interview 12/06/24 4:20 PM the Administrator stated he would expect a resident's advanced directive status to match across all areas of the resident's chart. The Administrator stated it had been the social worker's responsibility to update advanced directive care plans, but due to the social work position being vacant, the DON had assumed that responsibility.</p>

<p>F 0580</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>Immediately tell the resident, the resident's doctor, and a family member of situations (injury/decline/room, etc.) that affect the resident.</p> <p><b>**NOTE- TERMS IN BRACKETS HAVE BEEN EDITED TO PROTECT CONFIDENTIALITY**</b> 47683</p> <p>Based on staff and Nurse Practitioner (NP) interviews and record review, the facility failed to notify the Physician when a urinalysis was not completed for 1 of 2 residents reviewed for notification of change (Resident #38).</p> <p>The findings included:</p> <p>Resident #38 was admitted to the facility on [DATE] with diagnosis that included bacteremia.</p> <p>Resident #38 had a physician's order for a urinalysis (UA) with culture and sensitivity for urinary pain one time only for one day. This was ordered on 9/24/2024 and marked completed on 9/25/2024.</p> <p>Review of the treatment administration record (TAR) for September 2024 revealed the UA was documented as completed on 9/25/2024.</p> <p>Review of the lab results revealed that there were no results for the UA ordered on 9/24/2024 for Resident #38.</p> <p>A phone interview on 12/06/2024 at 9:54 AM with Nurse #6 revealed revealed that she had completed and collected the UA specimen for Resident #38 on 9/25/2024 and placed it in the refrigerator for the lab to collect. She stated that if the specimen is left in refrigerator too long the lab or an employee would throw the specimen out because it is no longer useable. She stated that could be why there were no results for the UA ordered on 9/24/2024. Nurse #6 indicated she was not aware that there were no results for the UA and therefore had not notified the Physician.</p> <p>An interview on 12/06/2024 at 8:36 AM with the Nurse Practitioner (NP) revealed that she was not notified that the September UA did not have any results returned from the laboratory and that she would want to be notified if the staff were unable to complete the UA or if it needed to be reordered. She stated that Resident #38 had not experienced harm or a negative outcome by the UA not being completed.</p> <p>An interview on 12/06/2024 at 12:33 PM with the Director of Nursing (DON) revealed that the breakdown was the Nurse who collected the specimen and did not fill out the requisition. She stated that if she had found the specimen sooner than today, she would have followed up with the NP to obtain a new order for the UA and she would have followed up with the Nurse as well about the specimen. She stated that her expectation was that laboratory test results, or lack thereof should be communicated to the Physician.</p> <p>An interview on 12/06/24 at 3:54 PM with the Administrator revealed that his expectation was if a lab order does not make it to the lab for whatever reason the NP would be notified so they could make the decision to order another lab or not.</p>

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)		
<p>F 0584</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Some</p>	<p>Honor the resident's right to a safe, clean, comfortable and homelike environment, including but not limited to receiving treatment and supports for daily living safely.</p> <p><b>**NOTE- TERMS IN BRACKETS HAVE BEEN EDITED TO PROTECT CONFIDENTIALITY**</b> 37538</p> <p>Based on observations and interviews with residents and staff, the facility failed to secure an overbed light fixture that was positioned above a resident's head to the wall (room [ROOM NUMBER]-B); ensure the overbed light worked (room [ROOM NUMBER]-B, 327-A, and 331-B); replace the light bulbs in a fixture above the sink (room [ROOM NUMBER]); ensure the water temperature from a bathroom sink was comfortable and not too cool (room [ROOM NUMBER]); ensure the shower room air vent was clean (Hall B shower room); ensure the overbed table and dresser did not have exposed sharp edges (room [ROOM NUMBER]-B); ensure a shared bathroom toilet and floor were clean and address a strong lingering odor resembling urine (room [ROOM NUMBER]); ensure ceiling, walls, flooring, baseboards, and overbed tables were clean and in good repair (rooms 227, 229-A, 318, 319, 321, 327-A, and 330); provide a clean privacy curtain (room [ROOM NUMBER]); and ensure the toilet paper holder was in place for a shared bathroom (rooms [ROOM NUMBERS]) on 2 of 2 halls reviewed for environment (Halls A and B).</p> <p>Findings included:</p> <p>1. a. During an observation and interview on 12/02/24 at 3:51 PM of in room [ROOM NUMBER]-B the resident was resting in bed with an overbed light positioned directly above the head of the bed. Resident #82 revealed the overbed light did not work and was unsure how long it had not. When the light switch chain was pulled the fixture moved and was not secured to wall.</p> <p>During an interview on 12/04/24 at 8:44 the Maintenance Manager revealed he completed weekly checks by selecting random resident rooms on each hall to identify environmental issues and he was the person responsible to fix concerns when noted. The Maintenance Manager explained environment issues were shared with him during the morning meeting, and he could be notified by staff using a computer generated or paper work order and paper work orders were kept in a binder placed at each nurse station that he checked daily.</p> <p>A follow-up observation and interview with the Maintenance Manager was conducted on 12/04/24 at 10:11 AM. The Maintenance Manager observed the overbed light in room [ROOM NUMBER]-B was not secured to the wall and moved when the chain was pulled and did not turn on. The Maintenance Manager revealed the fixture needed to be secured to the wall to prevent it from falling when the light switch chain was pulled and could injure the resident if they were in bed, and it fell off the wall. The Maintenance Manager revealed he was not aware the overbed light was not secured to the wall or that it did not work.</p> <p>b. During an observation on 12/02/24 at 3:51 PM the lights above the sink in room [ROOM NUMBER] did not work properly when turned on. The light fixture had two bulbs and when turned on only one would dimly light and flickered on and off.</p> <p>An observation and interview with the Maintenance Manager was conducted on 12/04/24 at 10:11 AM. The Maintenance Manager observed the lights above the sink in room [ROOM NUMBER] did not work and stated the bulbs needed replaced. The Maintenance Manager revealed he was not aware the light bulbs above the sink needed to be replaced.</p> <p>(continued on next page)</p>

<p>F 0584</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Some</p>	<p>c. During an observation on 12/02/24 at 3:51 PM the ceiling in room [ROOM NUMBER] had approximately three areas of different sizes where the textured spackling was missing.</p> <p>During an interview and observation on 12/04/24 at 10:11 AM the Maintenance Manager revealed he was not aware the textured spackling needed to be repaired in room [ROOM NUMBER]. He revealed the resident would need to be out of the room for him to repair the ceiling.</p> <p>2. During an observation on 12/02/24 at 10:41 AM the overbed light in room [ROOM NUMBER]-B did not work and the light switch pull chain was missing.</p> <p>During an interview on 12/04/24 at 9:14 AM the Maintenance Manager revealed he was aware the overbed light in room [ROOM NUMBER]-B did not work and needed replaced. He revealed the new light was ordered but he could not find the purchase order to show when and would order another one today (12/04/24).</p> <p>3. a. During an interview on 12/03/24 at 9:01 AM the resident in room [ROOM NUMBER] revealed the water in the bathroom did not get warm enough.</p> <p>An interview and observation with Maintenance Manager was conducted on 12/04/24 at 10:03 AM. The Maintenance Manager tested the water temperature from the bathroom sink in room [ROOM NUMBER] using his thermometer. The temperature did not get above 89.6 F after approximately 5 minutes. The Maintenance Manager stated he was not aware the water temperature was not getting warm enough.</p> <p>b. During an observation on 12/03/24 at 9:01 AM the ceiling in room [ROOM NUMBER] had an area approximately 4 inches by 4 inches where the textured spackling had broken off.</p> <p>An interview and observation with Maintenance Manager was conducted on 12/04/24 at 10:03 AM. The Maintenance Manager revealed he was not aware the ceiling in room [ROOM NUMBER] had damage where the textured spackling was missing. He revealed he used spray on textured spackling and could repair the ceiling.</p> <p>4. An observation and interview with the Maintenance Manager was conducted on 12/04/24 at 9:53 AM of the ceiling in room [ROOM NUMBER]. There were approximately 8 areas on the ceiling where the textured spackling was missing. The Maintenance Manger revealed he did not have a work order and was not aware of the damage.</p> <p>5. An observation and interview was conducted with the Floor Technician on 12/04/24 at 9:25 AM. Two air vents located in the Hall B shower room had a significant amount of dust buildup. The Floor Technician revealed he was responsible for cleaning the air vents in the shower room and it was done daily. He stated he had not cleaned the air vent in Hall B shower room on 12/4/24.</p> <p>During an interview on 12/06/24 at 3:52 PM, the Administrator he expected overbed lights to work properly and staff were to notify the Maintenance Director when repairs were needed.</p> <p>39037</p> <p>(continued on next page)</p>

<p>F 0584</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Some</p>	<p>During an interview on 12/06/24 at 3:52 PM, the Administrator he expected overbed lights to work properly and staff were to notify the Maintenance Director when repairs were needed.</p> <p>b. An observation of room [ROOM NUMBER] on 12/03/24 at 8:49 AM revealed the overbed table would not stay in a fixed position when it was raised to the maximum height and the table would lower when a minimal amount of weight was placed on top of the table surface.</p> <p>Additional observations conducted on 12/04/24 at 8:18 AM and 12/5/24 at 12:33 PM revealed the condition of the overbed table remained the same.</p> <p>An interview and tour was conducted with the Maintenance Director on 12/04/24 at 10:40 AM. The Maintenance Director revealed he was in the process of going room-to-room on each hall to make a list of repairs needed but had not made it to all the rooms yet and he relied on staff to notify him when repairs were needed. The Maintenance Director stated he was not aware the overbed light in room [ROOM NUMBER]-A did not work. He stated it was one of the older light fixtures and would need to be replaced. He revealed a new light fixture was ordered but he could not find the purchase order to show when and stated he would order another one today (12/4/24). The Maintenance Director observed the overbed table in room [ROOM NUMBER]-A and confirmed it would not stay in a fixed position when the table was raised to the maximum height. He removed the overbed table from the room and stated he would replace it with a newer one he had in storage.</p> <p>An interview with the Administrator on 12/05/24 at 5:12 PM revealed he expected furniture to be in good repair or be replaced.</p> <p>36217</p> <p>15. Resident #13 was admitted to the facility on [DATE].</p> <p>The quarterly Minimum Data Set (MDS) dated [DATE] coded Resident #13 with a moderately impaired cognition.</p> <p>During an observation conducted on 12/02/24 at 12:01 PM, the toilet roll holder mounted on the wall for the shared bathroom of room [ROOM NUMBER] and room [ROOM NUMBER] was dysfunctional. The rod in the middle of the toilet roll holder to hold the toilet roll was missing. Three (3) opened and used toilet rolls were seen sitting on top of the water tank at the back of the commode.</p> <p>An interview was conducted with Resident #13 on 12/02/24 at 12:03 PM. He stated the rod for the toilet roll holder had been missing for at least 3 months and it was very inconvenient for him. He added the opened toilet rolls sitting on top of the tank behind the commode might have fallen to the floor and been contaminated.</p> <p>Subsequent observation conducted on 12/03/24 at 12:11 PM revealed the rod for the toilet roll holder remained missing.</p> <p>During a joint observation conducted with the Housekeeper on 12/03/24 at 2:31 PM, the toilet roll holder remained dysfunctional without the toilet roll rod. Three (3) brand new unopened toilet rolls were seen sitting on top of the water tank behind the commode.</p> <p>(continued on next page)</p>

<p>F 0584</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Some</p>	<p>An interview was conducted with the Housekeeper on 12/03/24 at 2:32 PM. He stated part of his job was to replenish the toilet rolls when cleaning the bathroom. He recalled when he brought toilet rolls to this bathroom last Friday, the rod for the toilet roll holder was still in place. He stated sometimes residents could have pulled the rod out and left it in the trash container.</p> <p>An interview was conducted with the Maintenance Manager on 12/03/24 at 2:40 PM. He stated he checked the entire facility including residents' room and bathroom at least once every week. He recalled when he checked this shared bathroom last Friday, the rod for the toilet roll holder was still in place. He did not know when the rod was missing but stated it was important for the residents to have a functional toilet roll holder. He added he depended on residents and staff to report repair needs either verbally or through the work order. He typically checked the work orders at least once daily to ensure all repair needs were met in a timely manner.</p> <p>An interview was conducted with Nurse Aide #5 (NA) on 12/03/24 at 2:51 PM. He stated he typically entered the bathroom a few times a week when he assisted residents using the toilet. He recalled the rod for the toilet roll holder was in the toilet last Friday when he assisted one of the 4 residents in this shared bathroom. He did not know when it was missing.</p> <p>During an interview conducted on 12/03/24 at 3:05 PM, Nurse #3 explained she rarely entered residents' bathroom as personal and incontinence cares were mostly handled by the NAs. She expected NAs to report all repair needs to her so that she would notify the maintenance staff to fix them in a timely manner. She added it was important to keep the toilet roll holder in good repair to ensure sanitary and convenience.</p> <p>An interview was conducted with the Director of Nursing (DON) on 12/03/24 at 4:06 PM. She expected the staff to be more attentive to residents' living environment, and to report repair needs to the maintenance department in a timely manner. She added the maintenance staff should check repair needs on a regular basis and address the issues accordingly. It was her expectation for all the toilet roll holder to be in good repair all the time.</p>

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)
<p>F 0607</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>Develop and implement policies and procedures to prevent abuse, neglect, and theft.</p> <p><b>**NOTE- TERMS IN BRACKETS HAVE BEEN EDITED TO PROTECT CONFIDENTIALITY**</b> 37014</p> <p>Based on record review and staff interviews, the facility failed to follow their abuse policy and procedure by not immediately reporting an allegation of resident-to-resident abuse to the Administrator for 1 of 5 sampled residents reviewed for abuse (Resident #11).</p> <p>Findings included:</p> <p>The facility policy titled, Abuse, Neglect and Exploitation revised 03/02/23, read in part: all alleged violations will be reported to the Administrator within specified timeframes: a) Immediately, but not later than 2 hours after the allegation is made, if the events that cause the allegation involve abuse or result in serious bodily injury.</p> <p>Resident #11 was admitted to the facility on [DATE].</p> <p>The quarterly Minimum Data Set (MDS) dated [DATE] assessed Resident #11 with intact cognition.</p> <p>Review of the staff progress notes for Resident #11 revealed an entry written by Nurse #4 on 04/08/24 at 6:49 AM with an effective date of 04/06/24 that read, Resident reports that another male resident came to her room, touched her on the thighs at night and woke her up. Resident reassured of safety. There was no indication that the Director of Nursing (DON) and/or Administrator were notified.</p> <p>Review of the initial report submitted by the facility to the State Agency noted an allegation type of resident abuse with an incident date of 04/08/24 and revealed Resident #11 reported a male resident came into her room, touched her on the thighs and then left the room. Further review revealed the facility was made aware of the allegation on 04/08/24 at 11:30 AM, the initial report was submitted to the State Agency via fax transmission on 04/08/24 at 12:40 PM and law enforcement was notified.</p> <p>During an interview on 12/02/24 at 11:09 AM, Resident #11 stated a few months ago a male resident came into her room and touched her on her breast and thighs, she yelled for help and kept kicking at him until he left the room. Resident #11 was unable to recall the exact date or time this occurred and stated she reported the incident to the nurse but could not recall the nurse's name. Resident #11 stated the male resident was transferred to another facility and she hasn't had any issues with other residents since.</p> <p>During a telephone interview on 12/06/24 at 10:40 AM, Nurse #4 revealed she used to work at the facility on an as needed basis and remembered Resident #11 but did not recall Resident #11 reporting a male resident had touched her inappropriately. When the progress note dated 04/08/24 with an effective date of 04/06/24 was read to Nurse #4, she stated if that was what she wrote then that was what Resident #11 had reported to her. Nurse #4 expressed she just didn't recall much regarding the incident since it was so long ago. Nurse #4 stated that although she did not document it in the progress note, she would have notified the DON or Administrator what Resident #11 had reported because she knew allegations of abuse was serious and should be reported immediately.</p> <p>(continued on next page)</p>

<p>F 0607</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>During an interview on 12/06/24 at 10:50 AM, the DON reviewed the progress note written by Nurse #4 and confirmed the progress note was written on 04/08/24 with an effective date of 04/06/24. The DON stated she did not recall Nurse #4 notifying her on 04/06/24 to let her know what Resident #11 had alleged.</p> <p>During an interview on 12/06/24 at 10:58 AM, the Regional Director of Clinical Services (RDCS) revealed she was the Interim Administrator on 04/08/24 when Resident #11 reported a male resident touched her inappropriately and an investigation was immediately initiated. The RDCS stated she was made aware of the allegation on 04/08/24 at 11:30 AM and the initial report was submitted to the State Agency. The RDCS reviewed the progress note written by Nurse #4 on 04/08/24 with an effective of 04/06/24 and stated it seemed odd that the note was entered as a late entry because Nurse #4 was very good to call her and/or the DON to report any concerns. The RDCS stated that even if Nurse #4 entered the progress as a late entry in error, the time stamp of the note indicated it was written on 04/08/24 at 6:49 AM and Nurse #4 did not notify her until 11:30 AM. The RDCS stated Nurse #4 should have informed her or the DON of Resident #11's allegation as soon as it was reported.</p>

<p>F 0636</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Some</p>	<p>During an interview on 12/04/24 at 1:06 PM, the Administrator stated MDS assessments were behind when he started his position in June 2024 and felt the breakdown was the result of a lot turnover in MDS staff. He explained since June 2024, they had a full-time MDS Nurse and a part-time MDS Nurse that both quit which put them further behind with getting MDS assessments completed. The Administrator stated with the MDS team he now had in place, he felt they would be able to get the MDS assessments caught up and stay caught up so that MDS assessments were completed within the regulatory timeframe.</p> <p>36217</p> <p>2. Resident #89 was admitted to the facility on [DATE] with diagnosis including depression.</p> <p>A review of the significant change in status Minimum Data Set (MDS) assessment dated [DATE] revealed Resident #89 was coded with a moderately impaired cognition. A review of Section V which consisted of care area assessment summary indicated the care area for psychotropic drug use was triggered for Resident #89. The facility did not provide any information in analysis of findings that described the nature of Resident 89's problems, possible causes and contributing factors, risk factors related to the care area, and reasons to proceed with care planning.</p> <p>During an interview conducted on 12/04/24 at 11:12 AM, the MDS Coordinator confirmed 1 of the 6 triggered care areas (psychotropic drug use) for Resident #89's MDS dated [DATE] were submitted without any pertinent information in analysis of findings in Section V. She explained she started her role as the MDS Coordinator about 2 months ago. Resident #89's MDS dated [DATE] was submitted by the former MDS Coordinator and she was unable to explain how it happened. She acknowledged that it was an error to submit a significant change in status MDS without the completion of analysis of findings for all the triggered areas.</p> <p>On 12/04/24 at 11:15 AM an interview was conducted with the Director of Nursing. She stated all the CAAs must be individualized and completed comprehensively. It was her expectation for the MDS Coordinators to complete the analysis of findings for all the triggered areas in Section V before submitting an MDS assessment.</p> <p>An attempt to conduct a phone interview with the former MDS Coordinator on 12/04/24 at 1:14 PM was unsuccessful. She did not return the call.</p>

He explained since June 2024, they had a full-time MDS Nurse and a part-time MDS Nurse that both quit which put them further behind with getting MDS assessments completed. The Administrator stated with the MDS team he now had in place, he felt they would be able to get the MDS assessments caught up and stay caught up so that MDS assessments were completed within the regulatory timeframe.</p>

<p>F 0660</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>Plan the resident's discharge to meet the resident's goals and needs.</p> <p><b>**NOTE- TERMS IN BRACKETS HAVE BEEN EDITED TO PROTECT CONFIDENTIALITY**</b> 37014</p> <p>Based on record review and resident and staff interviews, the facility failed to have a discharge planning process in place that incorporated the resident in the development of a discharge care plan that addressed the resident's discharge goals and post-discharge needs for residents who wished to discharge to the community for 2 of 3 sampled residents (Residents #50 and #70).</p> <p>Findings included:</p> <p>1. Resident #50 was admitted to the facility on [DATE] with diagnoses that included diabetes, chronic pain, chronic post-traumatic stress disorder, and anxiety disorder.</p> <p>The admission Minimum Data Set (MDS) assessment dated [DATE] revealed Resident #50 had intact cognition. The MDS noted there was no active discharge plan in place and Resident #50 wanted to be asked about returning to the community on all MDS assessments.</p> <p>A Discharge Planning Review at Admission/Readmission assessment dated [DATE] noted Resident #50's discharge goal was to return to the community. Under the summary section it was noted in part that Resident #50 was approved for a Medicaid program that helped individuals residing in nursing homes transition back to their home in the community and with the assistance of the Medicaid program, appropriate referrals and appointments it would be feasible for Resident #50 to return to the community.</p> <p>A Discharge Planning Review at Admission/Readmission assessment dated [DATE] noted Resident #50's discharge goal was to return to the community. Under the summary section it was noted in part that Resident #50 had financial assistance from a Medicaid program that helped individuals residing in nursing homes transition back to their home in the community and she hoped to discharge within the next six (6) months.</p> <p>Review of Resident #50's comprehensive care plan, last reviewed/ revised 08/14/24, revealed no discharge care plan.</p> <p>During interviews on 12/03/24 at 8:49 AM and 12/05/24 at 9:30 AM, Resident #50 revealed since admitting to the facility, her discharge goal was always to return back to the community when she was able. Resident #50 stated she was ready to discharge back to independent living and had been for a while. She stated she had a housing assistance voucher when she first admitted to the facility but lost it in May 2024 when she didn't discharge as planned and was now back on the waiting list for another housing assistance voucher. Resident #50 stated she was also approved for financial assistance through a Medicaid program to help with returning back to independent living but with the facility not having a Social Worker, there had been no one to assist her with filling out the applications or setting up the appointments needed for her to discharge. Resident #50 stated the last time anything was mentioned about discharge planning was at her last care plan meeting in June 2024 and since then, no one had mentioned anything to her or asked her for input regarding her discharge goals and plans.</p> <p>(continued on next page)</p>

<p>F 0660</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>During an interview on 12/05/24 at 9:00 AM, the MDS Nurse #2 revealed the facility currently did not have a Social Worker (SW) and typically, the SW would be the one responsible for developing a discharge care plan. MDS Nurse #2 was not sure who was responsible for developing discharge care plans until the SW position was filled.</p> <p>During interviews on 12/04/24 at 2:28 PM and 12/06/24 at 3:52 PM, the Administrator revealed that the SW typically handled the discharge planning process which included the development of a discharge care plan; however, the SW left employment on 10/24/24 and they have been actively interviewing candidates to fill the open position. He added they had just hired a new SW who would be starting within the next two weeks. The Administrator stated in the interim, both he and the Director of Nursing had been filling in to cover the SW position. The Administrator stated he has had frequent conversations with the Representative from the Medicaid program that had approved Resident #50 for assistance but he had not documented those conversations in Resident #50's medical record nor had he spoken with Resident #50 to keep her updated. The Administrator could not explain why a discharge care plan was not initially developed for Resident #50 and confirmed one should have been developed that incorporated Resident #50's discharge goals to return to the community and updated as her discharge plans progressed.</p> <p>During a telephone interview on 12/06/24 at 8:16 AM, the Representative from the Medicaid program that assisted individuals residing in nursing homes transition back to their home in the community revealed Resident #50 was approved for assistance prior to the new company taking over management of the Medicaid program on 09/18/24. The Representative stated from what she could recall, Resident #50 was on the waiting list for housing.</p> <p>2. Resident #70 was admitted to the facility on [DATE] with multiple diagnoses that included a chronic autoimmune disease that damages the central nervous system, history of falls and seizure disorder.</p> <p>The admission Minimum Data Set (MDS) dated [DATE] revealed Resident #70 had intact cognition. The MDS noted Resident #70's discharge goal was to return to the community and there was no current discharge plan in place.</p> <p>Review of Resident #70's comprehensive care plan, last reviewed/revised on 09/20/24, revealed no discharge care plan.</p> <p>During interviews on 12/02/24 at 12:07 PM and 12/05/24 at 4:15 PM, Resident #70 stated her desire was to discharge back to independent living and she was approved for a Medicaid program that helped individuals residing in nursing homes transition back to their home in the community but that was where the discharge planning stopped. Resident #70 stated the next step was to apply for housing but there was no one to help her with the process since the facility currently did not have a Social Worker (SW). Resident #70 stated since the SW left, no one had talked with her to discuss her discharge goals and she would like to move forward with her discharge plans.</p> <p>During an interview on 12/05/24 at 9:00 AM, the MDS Nurse #2 revealed the facility currently did not have a Social Worker (SW) and typically, the SW would be the one responsible for developing a discharge care plan. MDS Nurse #2 was not sure who was responsible for developing discharge care plans until the SW position was filled.</p> <p>(continued on next page)</p>

<p>F 0660</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>During interviews on 12/04/24 at 2:28 PM and 12/06/24 at 3:52 PM, the Administrator revealed that the SW typically handled the discharge planning process which included the development of a discharge care plan; however, the SW left employment on 10/24/24 and they have been actively interviewing candidates to fill the open position. He added they had just hired a new SW who would be starting within the next two weeks. The Administrator stated in the interim, both he and the Director of Nursing had been filling in to cover the SW position. The Administrator stated Resident #70 did not want to be at the facility and he has had many conversations with her explaining they could help get her transitioned to an Assisted Living Facility until she was able to return to the community but if they did that, she would lose the assistance she had been approved for through the Medicaid program. The Administrator stated he had not documented those conversations in Resident #70's medical record and could not explain why a discharge care plan was not initially developed for Resident #70. He stated one should have been developed that incorporated Resident #70's discharge goals to return to the community and updated as her discharge plans progressed.</p> <p>During a telephone interview on 12/06/24 at 8:16 AM, the Representative from the Medicaid program that assisted individuals residing in nursing homes transition back to their home in the community revealed Resident #70 was approved for assistance on 10/18/24. The Representative stated she met with Resident #70 and gave her an overview of the program, what she could expect and discussed her discharge needs. She stated Resident #70 mentioned she would need help with finding housing and she informed Resident #70 what documents she would need to obtain to apply for housing through the program. The Representative explained due to the volume of individuals in the program, they could provide the individual with the application if needed but they did not assist individuals with completing the applications. She stated they tried to empower them to do as much of it on their own or they could get assistance from facility staff.</p>

<p>F 0680</p> <p>Level of Harm - Potential for minimal harm</p> <p>Residents Affected - Many</p>	<p>Ensure the activities program is directed by a qualified professional.</p> <p>49000</p> <p>Based on staff interviews, the facility failed to have a qualified professional to direct the facility's activity program. This practice had the potential to affect all 106 residents at the facility.</p> <p>The findings included:</p> <p>On 12/3/24 at 2:13 PM an interview was conducted with the Assistant Activity Director (AD). She stated that she started working at the facility on October 16th, 2024. She stated that there was an Activity Director (Admission Coordinator) when she started who left the beginning of November 2024. The Assistant Activity Director stated she had no training other than when the AD was working at the facility. The Assistant Activity Director could not give any details of any training the AD gave her. The Assistant Activity Director indicated she had no college degree. The Assistant Activity Director did not realize that the AD she was referring to was actually an acting AD.</p> <p>On 12/3/24 at 2:25 PM an interview was conducted with the Activity Assistant. She stated that she started working at the facility on 11/28/24. She had not had any training since working at the facility. She had no college degree. She had not taken any state training courses. She did have some prior experience working with adults with disabilities.</p> <p>On 12/5/24 at 10:33 AM an interview was conducted with the Administrator. The Administrator stated that from 8/7/24 till 8/20/24 the facility had an AD and an Activity Assistant. The AD left on 8/20/24 and the Activity Assistant left on 9/25/24. From 9/25/24 till 10/16/24 the department did not have an AD or an Activity Assistant. Since the facility no longer had these positions filled the Admission Coordinator took over as the acting AD and the evening receptionist took over the role as the Activity Assistant. The acting AD conducted activities during the weekday hours Monday through Friday and the evening/weekend receptionist did activities in the evenings and weekends. The plan was for the Admission Coordinator to remain the acting AD until an AD was hired, however the Admission Coordinator left his position the beginning of November. Prior to leaving his position the Admission Coordinator helped the newly hired Assistant Activity Director by explaining to her the activities that he had been doing with the residents. He continued to train and explain how activities were conducted until he left his position in November. The Administrator stated that neither the Admission Coordinator or evening receptionist had any formal training in regard to activities. The Administrator stated he was now conducting 2nd interviews for the AD position. The Administrator felt he may have an AD hired by this coming week. The Administrator was aware of the regulation and the need to have a qualified AD. The Administrator knew the facility was out of compliance due to not having an AD. The Administrator stated he had been actively trying to find a candidate for the position.</p>

<p>F 0684</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>Provide appropriate treatment and care according to orders, resident's preferences and goals.</p> <p><b>**NOTE- TERMS IN BRACKETS HAVE BEEN EDITED TO PROTECT CONFIDENTIALITY**</b> 37538</p> <p>Based on record review and interviews with the Medical Director, Nurse Practitioner, and staff the facility failed to obtain a blood sugar as part of the change of condition assessment for a resident with a current diagnosis of diabetes mellitus that was being treated with routine oral blood glucose lowering medication for 1 of 1 resident reviewed for a change of condition (Resident #205).</p> <p>The findings included:</p> <p>Resident #205 was admitted to the facility on [DATE] with diagnoses including diabetes mellitus, chronic kidney disease, and chronic systolic congestive heart failure.</p> <p>Review of the 5-day/discharge Minimum Data Set (MDS) assessment dated [DATE] revealed Resident #205's cognition was moderately impaired, and medications received included a hypoglycemic.</p> <p>The baseline care plan dated 2/7/24 identified Resident #205's level of consciousness as being alert and intact.</p> <p>A physician's order revealed glipizide-metformin (medication used to lower blood sugar levels) oral tablet 2.5-500 milligrams (mg) was started on 2/7/24 with directions to give 1 tablet by mouth two times a day. There was no physician order in place to check the blood sugar.</p> <p>A review of the Medication Administration Record (MAR) for February 2024 revealed glipizide-metformin oral tablet 2.5-500 mg was initiated by the nurse to indicate it was administered on 2/10/24 at 7:00 AM and at 4:00 PM.</p> <p>The SBAR (Situation Background Assessment Recommendation) progress note dated 2/10/24 at 3:08 PM was an evaluation of a change of condition for Resident #205. The SBAR was documented by Nurse #5 and noted Resident #205's relevant medical history background of diabetes mellitus and the physical assessment noted increased confusion and general weakness. Vital signs taken were blood pressure 130/72, pulse 76, respiratory rate 19, temperature 98.1, pulse oximetry 96% on room air. The SBAR document included guidance to check the blood sugar but was left blank to indicate it was not done.</p> <p>A progress note dated 2/10/24 at 5:15 PM was documented by Nurse #5 and revealed Resident #205 had returned to the facility after a couple of hours being out with her daughter. The daughter reported Resident #205 was depressed and agitated. Nurse #5 notified the on-call Medical Doctor (MD) and received a new order for lorazepam (medication used to treat anxiety). Nurse #5 informed the daughter of the new order who wanted Resident #205 seen by a MD. Nurse #5 offered to call emergency medical services for transport to the hospital. The daughter insisted she would drive Resident #205 to the hospital, and both left the facility. Nurse #5 noted Resident #205 left with the daughter in no apparent distress.</p> <p>(continued on next page)</p>

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)		
<p>F 0684</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>A review of the emergency department note dated 2/10/24 at 5:30 PM revealed Resident #205 was brought in by her daughter for altered mental status. The daughter reported Resident #205 was confused and verbally agitated. The MD noted Resident #205 took glipizide and thought the reason for the admission was hypoglycemia. The physical exam revealed Resident #205's behavior was normal with no neurological deficit present and mental status as being alert. Vital signs were as follows: blood pressure 93/67, pulse 97, temperature 98.1, respiratory rate 16, oxygen saturation 98%. The initial blood sugar obtained on 2/10/24 at 5:41 PM was 37 (reference range 70-111) then at 6:25 PM was 52, and 6:45 PM was 108, and 9:16 PM was high at 116. The hospital record revealed Resident #205 was treated with intravenous (IV) and oral glucose and the blood sugar significantly improved in the emergency department. Glipizide-metformin was discontinued with no blood sugar problems since admission and Resident #205 was discharged on [DATE] in stable condition.</p> <p>During an interview on 12/12/24 at 9:04 PM Nurse #5 revealed what he saw and did for Resident #205 he documented on the SBAR, and progress note on 2/10/24. Nurse #5 confirmed he did not obtain a blood sugar as indicated on the SBAR and did not recall if he reported Resident #205 was taking oral hypoglycemic medications for diagnosis of diabetes mellitus to the on-call MD. Nurse #5 revealed he offered to call emergency medical services but Resident #205's daughter insisted she would take the resident and left the facility.</p> <p>During an interview on 12/06/24 at 9:07 AM the Nurse Practitioner (NP) revealed she would expect Nurse #5 would obtain a blood sugar level as part of Resident #205's vital sign check. She explained when Resident #205 demonstrated altered mental status with diabetes mellitus as an active diagnosis and was taking oral hypoglycemic medication she would expect that information was provided to the on-call MD. The NP revealed checking the blood sugar level might have identified Resident #205 was hypoglycemic and a physician order could have been provided to administer glucose and it appeared Resident #205 was alert and could have ate and drank something to increase the blood sugar level.</p> <p>An interview was conducted on 12/06/24 at 11:28 AM with the Medical Director. The Medical Director revealed when a resident presented with a change in mental status especially if diagnosed with diabetes mellitus and taking oral hypoglycemic medication, he would expect the blood sugar was checked. The Medical Director revealed it was an oversight by the nurse that the blood sugar was not checked and should be included as part of the assessment reported to the on-call MD for the provider to give informed guidance to the nurse.</p> <p>An interview was conducted on 12/06/24 at 12:17 PM with the Director of Nursing (DON). The DON revealed Nurse #5 did not check Resident #205's blood sugar due to there was no order in place. The DON revealed as a nurse she would have checked Resident 205's blood sugar as part of the assessment and reported the result to the on-call MD for guidance.</p> <p>During an interview on 12/06/24 at 4:47 PM the Administrator revealed he would expect Nurse #5 obtained a blood sugar level and include that information as part of the assessment reported to the on-call MD.</p>

<p>F 0689</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>Ensure that a nursing home area is free from accident hazards and provides adequate supervision to prevent accidents.</p> <p><b>**NOTE- TERMS IN BRACKETS HAVE BEEN EDITED TO PROTECT CONFIDENTIALITY**</b> 39037</p> <p>Based on observations, record review, and staff interviews the facility failed to ensure a Nurse Aide (NA #8) transferred a resident safely for 1 of 8 residents (Resident #4) reviewed for supervision to prevent accidents.</p> <p>Findings included:</p> <p>Resident #4 was admitted to the facility 12/12/15 with diagnoses including muscle spasm and lack of coordination.</p> <p>The quarterly Minimum Data Set (MDS) assessment dated [DATE] revealed Resident #4 had severely impaired cognitive skills for daily decision making and had impaired range of motion to one side of her upper extremities and impaired range of motion to both lower extremities. The MDS indicated Resident #4 was dependent for chair/bed transfers.</p> <p>Review of the activities of daily living (ADL) care plan last updated 09/20/24 revealed Resident #4 had an ADL self-care performance deficit and required a mechanical lift with 2-person assistance for transfers.</p> <p>Review of Resident #4's Kardex (a document that gives a brief overview of the care each resident requires) last updated 12/02/24 revealed she required a mechanical lift with 2-person assistance for transfers.</p> <p>A continuous observation on 12/02/24 from 11:28 AM through 11:34 AM revealed NA #8 picked Resident #4 under her arms and pivoted Resident #4 from the geriatric chair onto her bed. NA #8 failed to obtain assistance from a second staff member or use a mechanical lift to transfer Resident #4 from the chair to the bed.</p> <p>Review of NA #8's Agency Orientation documentation revealed she signed the document 09/18/24 acknowledging she received information on facility policies and processes and was to refer to the Education Station for any questions or call the Administrator or DON.</p> <p>An interview with NA #8 on 12/02/24 at 11:40 AM revealed she was an agency staff member who had been working in the facility for approximately a month. She stated she was told by another NA when she began employment that Resident #4 was a 1 person assist for transfers.</p> <p>An interview with Physical Therapist (PT) #1 on 12/02/24 at 2:22 PM revealed Resident #4 was not currently on therapy caseload, but she required 2 staff members and a mechanical lift for transfers.</p> <p>A follow-up interview with NA #8 on 12/02/24 at 2:44 PM revealed she obtained information regarding resident care, including transfer status, from other NAs or the resident's assigned nurse. She stated she did not receive any type of orientation when she was hired and did not know what a Kardex was or how to access it.</p> <p>(continued on next page)</p>

<p>F 0689</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>An interview with the Director of Nursing (DON) on 12/02/24 at 2:49 PM revealed Resident #2 required use of a mechanical lift and the assistance of 2 staff members for transfers and should not be manually transferred by 1 staff member. She stated information on resident transfer status could be located on the Kardex in the computer and all staff had access to the Kardex. The DON also stated an orientation book was located at each nurse's station which nursing staff could access if further information was needed for resident care and nurses were also available to answer any questions regarding resident care needs. She stated each nursing staff member had to sign a paper stating they received orientation upon hire.</p> <p>An interview with the Administrator on 12/05/24 at 5:31 PM revealed he expected staff to transfer residents as recommended by therapy or the Physician.</p>

<p>F 0690</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>Provide appropriate care for residents who are continent or incontinent of bowel/bladder, appropriate catheter care, and appropriate care to prevent urinary tract infections.</p> <p><b>**NOTE- TERMS IN BRACKETS HAVE BEEN EDITED TO PROTECT CONFIDENTIALITY**</b> 37538</p> <p>Based on record review, observation, and interviews with the resident and staff the facility failed to ensure the urinary catheter tubing was secured to the leg to prevent movement and trauma for 1 of 1 resident reviewed for urinary catheter (Resident #87).</p> <p>Findings included:</p> <p>Resident #87 was admitted to the facility on [DATE] with diagnosis including obstructive and reflux uropathy (obstruction of urine from bladder and a backwards flow).</p> <p>The quarterly Minimum Data Set assessment dated [DATE] revealed Resident #87's cognition was moderately impaired with no rejection of care behaviors during the lookback period. An indwelling urinary catheter was in place and setup or clean up assistance was needed for toileting hygiene.</p> <p>A review of Resident #87's current physician's order to secure the indwelling catheter tubing using an anchoring device to prevent movement and urethral traction every shift was initiated on 10/02/24.</p> <p>The care plan last revised on 11/19/24 identified Resident #87 had an indwelling catheter related to obstructive uropathy and was at risk of complications. Interventions included ensure the catheter was secured to the resident. The care plan identified Resident #87 had behaviors which included but not limited to yelling, cursing at staff, risk of refusing medications, treatments, and other interventions and noted showers were frequently refused. Interventions included encourage to build a rapport with caregivers with emphasis to show gratitude.</p> <p>Review of the Medication Administration Record (MAR) for November revealed the physician's order was transcribed with directions to secure the indwelling catheter tubing using an anchoring device to prevent movement and urethral traction every shift. Nurses initialed and checked each day, evening, and night shift from 11/01/24 through 11/30/24 to indicate the catheter tubing was secure. There were no refusals documented on the MAR to indicate Resident #87's anchoring device was not in place.</p> <p>Review of the MAR for December revealed the physician's order was transcribed with directions to secure the indwelling catheter tubing using an anchoring device to prevent movement and urethral traction every shift. Nurses initialed and checked each day, evening, and night shift from 12/01/24 through 12/02/24 and 12/3/24 day shift to indicate the catheter tubing was secure. There were no refusals documented on the MAR to indicate Resident #87's anchoring device was not in place.</p> <p>During an observation and interviews on 12/03/24 at 1:41 PM Nurse Aide (NA) #7 provided catheter care for Resident #87 with the Staff Development Coordinator (SDC) in the room. An anchoring device to secure the tubing to the leg to prevent movement and trauma was not in place. NA #7 and the SDC revealed they were not aware the anchoring device was not in place and should be.</p> <p>(continued on next page)</p>

<p>F 0690</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>An interview was conducted on 12/03/24 at 1:41 PM with Resident #87. Resident #87 revealed he wanted the catheter tubing secured to his leg and stated the anchoring device was not routinely applied and he had not removed it.</p> <p>During an observation on 12/03/24 at 2:06 PM the SDC applied an anchoring device to secure the catheter tubing to Resident#87's leg. Resident #87 was accepting of the care.</p> <p>An interview was conducted on 12/03/24 at 2:49 PM with Nurse #8 who initialed the MAR on 12/2/24 and 12/3/24 day shift to indicate the catheter tubing was secure. Nurse #8 revealed when she initialed the MAR and checked Resident #87's securement device was in place. Nurse #8 revealed Resident #87 would remove the anchoring device.</p> <p>During an interview on 12/06/24 at 8:55 AM the Nurse Practitioner (NP) revealed if there was a physician's order for the anchoring device and the nurses checked the MAR to indicate it was secure she would expect it was in place. The NP revealed the anchoring device was used to help prevent trauma and she heard Resident #87 would remove it.</p> <p>An interview was conducted on 12/06/24 on 3:31 PM with the Director of Nursing (DON). The DON revealed if the nurses checked the MAR to indicate the anchoring device was in place she would expect it was. The DON revealed she was aware Resident #87 refused to wear the anchoring device.</p>

<p>F 0712</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Some</p>	<p>During an interview on 12/05/24 at 11:15 AM, the Director of Nursing (DON) revealed Medical Records and the Social Worker were keeping track of regulatory visits for the MD but due to the turnover in both those positions, she had been filling in with this process. The DON explained she provided the MD with a weekly report of all admission and discharges as well as a physician audit report for him to review to determine which residents needed to be seen. The DON stated it was not a foolproof system because if older visits were still showing up on the report as not completed, the newer admissions would not appear until the older visits were marked complete and regulatory visits would be overlooked.</p> <p>During a telephone interview on 12/06/24 at 11:29 AM, the MD stated the only progress notes of his visits to the facility were the ones documented in the resident's EMR. He stated that when he arrived at the facility, he was provided a list of all admissions that he reviewed to determine who was recently admitted and then saw those residents. The MD confirmed he was aware of the regulation regarding the frequency of visits and was not aware Residents #21, #31, #41, and #55 had not been seen as required following their admission to the facility. He explained the facility used to have a Medical Records staff member who kept track of when residents needed to be seen in order to remind him and it had helped him ensure regulatory visits were completed. The MD stated he tried keeping up with the regulatory visits due and if his progress notes were not documented in the resident's EMR, then there were none and the resident had not been seen.</p>

<p>F 0755</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>Provide pharmaceutical services to meet the needs of each resident and employ or obtain the services of a licensed pharmacist.</p> <p><b>**NOTE- TERMS IN BRACKETS HAVE BEEN EDITED TO PROTECT CONFIDENTIALITY**</b> 37014</p> <p>Based on observations, record review, and Consultant Pharmacist, Medical Director, resident and staff interviews, the facility failed to ensure antibiotic eye drops were received from the pharmacy as ordered which resulted in five (5) missed doses for 1 of 6 sampled residents reviewed for pharmacy services (Resident #11).</p> <p>Findings included:</p> <p>Resident #11 admitted to the facility on [DATE]. Her cumulative diagnoses included chronic conjunctivitis.</p> <p>The Minimum Data Set (MDS) assessment dated [DATE] revealed Resident #11 had moderate impairment in cognition.</p> <p>A Physician Order Sheet dated 11/20/24 and signed by the Ophthalmologist read, start Moxifloxacin eye drops - one drop twice a day, OD (right eye). Do not stop, continuous.</p> <p>Review of Resident #11's active physician orders revealed an order dated 11/21/24 for Moxifloxacin Hydrochloride (HCl) Ophthalmic Solution (antibiotic used to treat eye infections caused by bacteria) 0.5% - one drop in right eye two times a day for irritation. No stop date per Ophthalmology.</p> <p>A telephone attempt on 12/05/24 at 11:36 AM for an interview with the Ophthalmologist was unsuccessful.</p> <p>Review of Resident #11's Medication Administration Record (MAR) revealed the Moxifloxacin HCl eye drops were scheduled to be administered twice daily at 8:00 AM and 8:00 PM. Further review of the MAR revealed Resident #11 did not receive the 8:00 PM dose on 12/03/24, the 8:00 AM and 8:00 PM doses on 12/04/24, and the 8:00 AM and 8:00 PM doses on 12/05/24.</p> <p>During an interview on 12/04/24 at 8:55 AM, Nurse #7 revealed Resident #11 received her last dose of Moxifloxacin eye drops yesterday morning (12/03/24) and she put in a refill request with the pharmacy around 10:30 AM on 12/03/24. Nurse #7 explained she tried to put the refill request in as soon as possible to avoid any gap in administration but was told by the pharmacy the Moxifloxacin eye drops would be delivered to the facility around 2:00 AM and Resident #11 would miss the 8:00 PM scheduled dose on 12/03/24. Nurse #7 stated she was not sure why the Moxifloxacin eye drops were not delivered with the 2:00 AM shipment on 12/04/24. Nurse #7 stated she called the pharmacy again this morning (12/04/24) at 8:50 AM and was told the eye drops would be delivered today in the 3:00 PM shipment.</p> <p>During an observation and interview on 12/04/24 at 9:03 AM, Resident #11's right eye was red with no drainage observed. Resident #11 stated she did not get her Moxifloxacin eye drops at all yesterday (12/03/24) or this morning (12/04/24). Resident #11 stated she had missed 3 doses so far and was worried about not receiving the eye drops because she was scheduled to have eye surgery soon. Resident #11 stated the nurse thought the bottle was empty, tossed it away accidentally and they had to reorder the medication.</p> <p>(continued on next page)</p>

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)		
<p>F 0755</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>During a follow-up interview on 12/04/24 at 4:33 PM, Nurse #7 stated when she checked the shipment from the pharmacy at 3:30 PM on 12/04/24 Resident #11's Moxifloxacin eye drops were not included in the shipment. Nurse #7 stated she called the pharmacy and they could not give her an explanation as to why Resident #11's eye drops were not sent as requested.</p> <p>During an observation and follow-up interview on 12/05/24 at 9:10 AM, Resident #11's right eye was bright red with a small amount of drainage in the corner of the eye. Resident #11 stated it was not painful or itching. She stated she had still not received her eye drops as scheduled since 12/03/24.</p> <p>During a telephone interview on 12/05/24 at 10:10 AM, the Consultant Pharmacist stated a refill request for Resident #11's Moxifloxacin eye drops was received on 12/03/24 at 8:45 AM and the facility was notified via an alert in the pharmacy system that it was too soon to refill but the medication could be refilled on 12/16/24 for the insurance to pay. The Pharmacist stated they did receive a Refill Too Soon Communication form this morning (12/05/24) at 6:36 AM indicating the facility would pay for the order to be refilled. The Pharmacist explained the cutoff time for the afternoon delivery was 6:30 AM and the cutoff time for the early morning delivery was 7:30 PM, Monday through Friday. The Consultant Pharmacist stated the other option would be for the facility to request the pharmacy to arrange for the medication to be filled at a backup pharmacy.</p> <p>During an interview on 12/05/24 at 4:18 PM, Nurse #1 stated Resident #11's Moxifloxacin eye drops were not received in today's (12/05/24) afternoon shipment from the pharmacy. Nurse #1 stated she called the pharmacy and was told the order was not refilled because it was too soon and insurance would not pay. She stated the pharmacy mentioned something about a form that needed to be completed indicating the facility would pay for the medication to be refilled. When she spoke to the Director of Nursing (DON), the DON stated she had sent the form back to the pharmacy today and Resident #11's Moxifloxacin eye drops would be in the shipment expected to arrive between 2:00 AM to 4:00 AM on 12/06/24. Nurse #1 confirmed Resident #11 had missed 5 doses of the scheduled Moxifloxacin eye drops due to the delay in the pharmacy refilling the order.</p> <p>During an interview on 12/05/24 at 4:46 PM, the Director of Nursing (DON) stated she was notified around lunchtime on 12/04/24 that Resident #11 had missed the 8:00 AM dose of Moxifloxacin eye drops and the nurse had requested a refill from the pharmacy that was supposed to be delivered that afternoon. She stated she was not made aware that Resident #11 had also missed the 8:00 PM dose of the Moxifloxacin eye drops on 12/03/24. The DON stated she checked first thing this morning upon arriving to the facility and Resident #11's Moxifloxacin eye drops were not delivered from the pharmacy as expected. She stated she contacted the pharmacy, faxed the Refill Too Soon Communication form to the pharmacy at 5:57 AM and the Moxifloxacin eye drops should have been delivered in the 3:00 PM shipment but were not received. She stated per the pharmacy, Resident #11's Moxifloxacin eye drops would be delivered in the early morning shipment on 12/06/24. The DON stated the nurse should have notified her when Resident #11's Moxifloxacin eye drops were not delivered as expected after the refill request was submitted on 12/03/24 so that she could have followed up with the pharmacy sooner.</p> <p>During an interview on 12/05/24 at 5:49 PM, the Administrator stated the nurse should have immediately notified the DON when Resident #11's Moxifloxacin eye drops were not delivered after requesting a refill from the pharmacy.</p> <p>(continued on next page)</p>

<p>F 0760</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>During a follow-up interview on 12/04/24 at 4:33 PM, Nurse #7 stated when she checked the shipment from the pharmacy at 3:30 PM on 12/04/24 Resident #11's Moxifloxacin eye drops were not included in the shipment. Nurse #7 stated she called the pharmacy and they could not give her an explanation as to why Resident #11's eye drops were not sent as requested.</p> <p>During an interview on 12/05/24 at 4:18 PM, Nurse #1 stated Resident #11's Moxifloxacin eye drops were not received in today's (12/05/24) afternoon shipment from the pharmacy. Nurse #1 confirmed Resident #11 had missed 5 doses of the scheduled Moxifloxacin eye drops due to the delay in the pharmacy refilling the order.</p> <p>During an interview on 12/05/24 at 4:46 PM, the Director of Nursing (DON) stated the nurse should have notified her when Resident #11's Moxifloxacin eye drops were not delivered as expected after the refill request was submitted on 12/03/24 so that she could have followed up with the pharmacy sooner.</p> <p>During a telephone interview on 12/06/24 at 11:20 AM, the Medical Director stated he was made aware that Resident #11's Moxifloxacin eye drops had to be reordered. He stated Resident #11 was receiving the eye drops to treat conjunctivitis which caused redness to her eye with a small amount of drainage. The MD stated that while he wanted her to receive the eye drops as ordered, he did not feel there would be any negative outcome related to Resident #11 missing 5 doses.</p> <p>During an interview on 12/05/24 at 5:49 PM, the Administrator stated the nurse should have immediately notified the DON when Resident #11's Moxifloxacin eye drops were not delivered after requesting a refill from the pharmacy.</p>

<p>F 0770</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>Provide timely, quality laboratory services/tests to meet the needs of residents.</p> <p><b>**NOTE- TERMS IN BRACKETS HAVE BEEN EDITED TO PROTECT CONFIDENTIALITY** 47683</b></p> <p>Based on staff and Nurse Practitioner (NP) interviews and record review, the facility failed to complete an ordered Urinalysis for 1 of 2 residents reviewed for laboratory services (Resident #38).</p> <p>The findings included:</p> <p>Resident #38 was admitted to the facility on [DATE] with a diagnosis that included bacteremia.</p> <p>Review of the quarterly minimum data set (MDS) dated [DATE] revealed that Resident #38 was cognitively intact.</p> <p>Resident #38 had a physician's order for a urinalysis (UA) with culture and sensitivity one time only for 1 day. This was ordered on 9/24/2024 and marked completed on 9/25/2024.</p> <p>Review of the treatment administration record (TAR) for September 2024 revealed the UA was documented as completed on 9/25/2024.</p> <p>Review of the lab results revealed that there were no results for the UA ordered on 9/24/2024 for Resident #38.</p> <p>A phone interview on 12/6/2024 at 9:54 AM with Nurse #6 revealed revealed that she had completed and collected the UA specimen for Resident #38 on 9/25/2024 and placed it in the refrigerator for the lab to collect. She stated that if the specimen is left in refrigerator too long the lab or an employee would throw the specimen out because it is no longer useable. She stated that could be why there were no results for the UA ordered on 9/24/2024. She stated that she was not sure what the process was for when that happened.</p> <p>An interview on 12/6/2024 at 8:36 AM with the Nurse Practitioner (NP) revealed that she was not notified that the September UA did not have any results returned from the laboratory and that she would want to be notified if the staff were unable to complete the UA or if it needed to be reordered. She stated that Resident #38 had not experienced harm or negative outcome by the UA not being completed.</p> <p>(continued on next page)</p>

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)		
<p>F 0770</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>An interview on 12/6/2024 at 12:33 PM with the Director of Nursing (DON) revealed when the nurse collects the specimen, she puts it in the refrigerator and fills out a requisition (a document that healthcare providers use to request specific laboratory tests for residents) that goes in the lab book. The lab comes in every morning and reviews the lab requisitions and pulls those specimens out of the refrigerator to go to the lab. She stated that she was the one who followed up with the lab book and made sure the requisitions had been marked off and if any had not been she would call the lab to inform them about any labs that were not collected. She stated that she had just found the specimen from Resident #38 's 9/24/2024 UA in the refrigerator. She stated that there was no requisition filled out for that specimen by the nurse. So that was why the UA was not collected with results. She further revealed that the breakdown was the Nurse who collected the specimen did not fill out the requisition. She stated that if she had found the specimen sooner than 12/6/2024, she would have followed up with the NP to obtain a new order for the UA and she would have followed up with the Nurse as well about the specimen.</p> <p>An interview on 12/6/24 at 3:54 PM with the Administrator revealed that his expectation was that if a lab was ordered the nursing staff gather the sample and fill out all the applicable paperwork, so the sample got to the lab for analysis. He further revealed that he expected that if a lab order does not make it to the lab for whatever reason the NP would be notified so they could make the decision to order another lab or not.</p>

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)		
<p>F 0803</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Many</p>	<p>Ensure menus must meet the nutritional needs of residents, be prepared in advance, be followed, be updated, be reviewed by dietician, and meet the needs of the resident.</p> <p>39037</p> <p>Based on observations of the meal service tray line, record review, and dietary staff, Registered Dietician (RD), and the Regional Director of Operations (RDO) interviews, the facility failed to provide all food items as specified by the approved menu and failed ensure residents received the correct portion sizes based on the approved menu. These practices had the potential to affect 77 residents receiving a regular diet, 18 residents receiving a mechanical soft diet (consisting of foods that are easy to swallow), and 8 residents receiving a puree diet (consisting of foods with a pudding-like texture).</p> <p>Findings included:</p> <p>1. An observation of the lunch meal tray line on 12/02/24 at 12:32 PM revealed the shepherd's pie being served to residents receiving a regular or mechanical soft diet consisted of a layer of ground beef, a layer of mashed potatoes, and a layer of melted cheese. No additional serving of vegetables was provided.</p> <p>A review of the recipe with the Regional Director of Operations (RDO) and Dietary Manager on 12/02/24 at 12:33 PM revealed the recipe for 100 servings (resident census was 106 on 12/02/24) of shepherd's pie is as follows:</p> <ul style="list-style-type: none"> <li>(a). 18 pounds of 80/20 ground beef</li> <li>(b). one and one fourth quarts of chopped onions</li> <li>(c). one tablespoon of garlic powder</li> <li>(d). one tablespoon of black pepper</li> <li>(e). two and 3 fourths quarts of mashed potato flakes</li> <li>(f). two cups of margarine solids</li> <li>(g). two and a half gallons of frozen mixed vegetables</li> </ul> <p>In an interview with [NAME] #1 on 12/02/24 at 12:38 PM he confirmed he did not add mixed vegetables or onions to the shepherd's pie being served because they were unavailable. He stated the former RDO taught him how to make the shepherd's pie and it did not include mixed vegetables or onions. [NAME] #1 stated he did not inform the Dietary Manager he did not have mixed vegetables or onions for the recipe, and he followed guidance from the former RDO when preparing the shepherd's pie.</p> <p>A joint interview with the Dietary Manager and RDO on 12/02/24 at 12:41 PM reveled the shepherd's pie should have contained all the items called for in the recipe for all diet types or the Dietary Manager should have been notified so he could have obtained approval for appropriate substitutions.</p> <p>(continued on next page)</p>

<p>F 0803</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Many</p>	<p>A telephone interview with the Registered Dietician (RD) on 12/04/24 at 4:26 PM revealed a contract company handled all aspects of food preparation, and she had nothing to do with day-to-day kitchen operations.</p> <p>An interview with the Administrator on 12/05/24 at 5:19 PM revealed he expected dietary staff to follow approved recipes or notify their supervisor if the ingredients were unavailable, so an appropriate substitution could be provided.</p> <p>2. Review of the regular diet menu spreadsheet for breakfast on 12/03/24 is as follows:</p> <p>(a). two slices of French toast</p> <p>(b). one sausage patty</p> <p>(c). six ounces of oatmeal</p> <p>Review of the puree diet menu spreadsheet for breakfast on 12/03/24 is as follows:</p> <p>(a). #10 scoop (equaling 3.2 ounces) of puree French toast</p> <p>(b). #16 scoop (equaling 2 ounces) of puree sausage</p> <p>(c). #6 scoop (equaling 5.3 ounces) of puree oatmeal</p> <p>An observation of the steam table on 12/03/24 at 7:05 AM revealed grits, scrambled eggs, bacon, ground sausage, pureed eggs, and French toast had been prepared. Grits were served with a black spoodle (equaling 8 ounces), scrambled eggs were served with a green scoop (equaling 2.5 ounces), and bacon, sausage, and French toast were served with tongs.</p> <p>A continuous observation of the breakfast meal tray line from 7:10 AM through 7:37 am revealed [NAME] #2 plated regular meal trays with one piece of French toast, one sausage patty or one piece of bacon (as an alternate), scrambled eggs, and grits. [NAME] #2 plated pureed meal trays with two scoops of pureed eggs and one scoop of grits.</p> <p>An interview with [NAME] #2 on 12/03/24 at 9:52 AM revealed he substituted grits for oatmeal and served one piece of bacon because he added scrambled eggs, and the eggs served as the primary protein. He stated he had approval to substitute grits for oatmeal and decided to serve eggs and bacon for residents receiving regular diets without seeking approval from the Dietary Manager. [NAME] #2 did not provide a reason why he did not seek approval for menu changes.</p> <p>An interview with the Regional Director of Operations (RDO) on 12/03/24 at 10:40 AM revealed 2 slices of French toast, one sausage patty, and six ounces of oatmeal should have been served for residents on a regular diet, unless grits were approved as a substitute for oatmeal. She stated residents receiving a puree diet should have received pureed French toast, pureed sausage, and pureed oatmeal unless appropriate substitutions were approved. The RDO stated she was not sure why the approved menu was not followed.</p> <p>(continued on next page)</p>

<p>F 0806</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>Ensure each resident receives and the facility provides food that accommodates resident allergies, intolerances, and preferences, as well as appealing options.</p> <p><b>**NOTE- TERMS IN BRACKETS HAVE BEEN EDITED TO PROTECT CONFIDENTIALITY**</b> 39037</p> <p>Based on observation, record review, and resident and staff interviews the facility failed to honor a resident's food preferences for 1 of 5 residents reviewed for food preferences (Resident #31).</p> <p>Findings included:</p> <p>Resident #31 was admitted to the facility 06/06/24.</p> <p>Review of Resident #31's Physician orders revealed an order dated 10/03/24 for a regular diet.</p> <p>The quarterly Minimum Data Set (MDS) assessment dated [DATE] revealed Resident #31 was cognitively intact and made himself understood and was able to understand others.</p> <p>Resident #31's nutrition care plan initiated 07/15/24 and last revised 12/03/24 revealed he was on a regular diet and desired double protein. Interventions included providing his diet as ordered and meeting his preferences.</p> <p>An interview with Resident #31 on 12/02/24 at 3:44 PM revealed he had asked the dietary department numerous times for large portions or at least double protein throughout his stay. He stated the last time he asked the Dietary Manager for large portions was on 12/01/24. Resident #31 stated he rarely received large portions.</p> <p>An observation of Resident #31 on 12/03/24 at 7:20 AM revealed he was sitting in the dining room eating breakfast. He stated he received one piece of French toast, one sausage patty, a scoop of grits, and a scoop of eggs for breakfast. Resident #31 stated that even though he was still eating, he was going to need more food to feel full. No mention of double portions was noted on Resident #31's meal ticket for the breakfast meal on 12/03/24.</p> <p>On 12/03/24 at 7:22 AM the Dietary Manager was informed that Resident #31 was requesting additional breakfast food. The Dietary Manager stated Resident #31 would be provided with additional food when all other resident trays had been served.</p> <p>An interview with the Dietary Manager on 12/03/24 at 8:01 AM revealed he became aware of Resident #31's request for large portions on 12/01/24. He was unable to provide a reason why Resident #31 did not receive large portions for breakfast on 12/03/24 and stated he had not had time to add the request to his meal ticket.</p> <p>A follow-up interview with Resident #31 on 12/03/24 at 9:00 AM revealed he had not yet received any additional food and was still hungry.</p> <p>An additional follow-up interview with Resident #31 on 12/03/24 at 9:50 AM revealed the Dietary Manager did offer to make him an omelet (he was unable to recall the exact time, but it was after 9:00 AM), but he declined. Resident #31 stated he was still hungry, but he declined the omelet because he knew the Dietary Manager was busy and he did not want to inconvenience him.</p> <p>(continued on next page)</p>

<p>F 0812</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Many</p>	<p>Procure food from sources approved or considered satisfactory and store, prepare, distribute and serve food in accordance with professional standards.</p> <p><b>**NOTE- TERMS IN BRACKETS HAVE BEEN EDITED TO PROTECT CONFIDENTIALITY**</b> 39037</p> <p>Based on observations and staff interviews the facility failed to maintain a clean floor in 1 of 1 walk-in cooler, 1 of 1 walk-in freezer, 1 of 1 dry storage rooms, and 1 of 1 kitchen; label and date open food items and discard expired food in 1 of 1 walk-in cooler and 2 of 2 reach-in coolers; cover and date open food items in 1 of 1 walk-in freezer and 1 of 1 reach-in cooler; date milkshakes to identify their use-by date in 1 of 1 reach-in cooler; maintain clean shelves on 5 prep tables in 1 of 1 kitchen; discard expired bread in 1 of 1 kitchen; and maintain clean refrigerators and freezers in 2 of 2 nourishment rooms (200 hall and 300 hall). This failure had the potential to affect food served to residents.</p> <p>Findings included:</p> <p>1. An initial observation of the walk-in cooler, walk-in freezer, walk-in storage, and kitchen floor on [DATE] at 9:42 AM revealed multiple dried yellow and brown stains on the floor of the walk-in cooler, multiple dried black stains on the walk-in freezer floor, scattered dried brown stains on the floor of the dry storage room and surveyor's shoes stuck to the floor, and multiple dried black stains scattered across the kitchen floor.</p> <p>An interview with the Dietary Manager on [DATE] at 9:52 AM revealed kitchen floors were usually cleaned once a week, but 2 dietary staff members were out sick and that contributed to the floors not being clean.</p> <p>An additional observation of the walk-in cooler, walk-in freezer, and kitchen floor on [DATE] at 12:32 PM revealed multiple dried yellow and brown stains on the floor of the walk-in cooler, multiple dried black stains on the walk-in freezer floor, scattered dried brown stains on the floor of the dry storage room, and multiple dried black stains scattered across the kitchen floor.</p> <p>An interview with the Administrator on [DATE] at 5:19 PM revealed he expected all floors in the kitchen to be clean and free of stains.</p> <p>2. An initial observation of the walk-in cooler on [DATE] at 9:48 AM revealed a three quarters full box of pasteurized eggs with an expiration date of [DATE].</p> <p>An interview with the Dietary Manager on [DATE] at 9:52 AM revealed the pasteurized eggs were not used and he should have removed them from the cooler before they expired.</p> <p>An interview with the Administrator on [DATE] at 5:19 PM revealed he expected food to be used or discarded on or before the expiration date.</p> <p>3. An initial observation of the walk-in freezer on [DATE] at 9:53 AM revealed the following:</p> <p>(a) a box of frozen biscuits sitting on a shelf that was open to air with an opened date of [DATE]</p> <p>(continued on next page)</p>

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)
<p>F 0842</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>Safeguard resident-identifiable information and/or maintain medical records on each resident that are in accordance with accepted professional standards.</p> <p><b>**NOTE- TERMS IN BRACKETS HAVE BEEN EDITED TO PROTECT CONFIDENTIALITY**</b> 51142</p> <p>Based on observation, record review and staff interviews, the facility failed to maintain a complete and accurate medical record when staff documented that they applied a splint when a splint was not applied. This occurred for 1 of 3 residents (Resident #73) reviewed for accurate medical records.</p> <p>The findings included:</p> <p>Resident #73 was admitted on [DATE] with diagnoses that included contracture of muscle, right hand.</p> <p>A physician's order dated 11/01/2023 read- Staff to don (apply) right hand splint, Place Pillow under right hip, all shifts to access for any skin irritation. Doff (remove) pm shift, every shift.</p> <p>An observation of Resident #73 on 12/02/2024 at 11:34am revealed Resident #73 did not have a splint in place to her right hand.</p> <p>During observation on 12/03/2024, Resident #73 was observed at 9:33am with no splint on right hand.</p> <p>A review of the Medication Administration Record (MAR) revealed it was documented by Nurse #2 on 12/02/2024 and 12/03/2024 that the splint was applied to Resident #73 ' s right hand.</p> <p>During an interview on 12/03/2024 at 10:11am, Nurse #2 stated the assigned nurse would apply the splint daily as Resident #73 would tolerate. Nurse #2 verified that Resident #73 was not wearing the splint on 12/3/24. Nurse #2 stated he may have clicked and signed by accident, but the splint was applied to Resident #73's right hand as tolerated. Nurse #2 verified at 10:12am the splint was documented as applied, and reviewed the order and verified the order did not read to apply splint as tolerated. Nurse #2 stated it could be documented on the MAR if a resident did not tolerate treatment. Nurse #2 was observed as the splint was applied to Resident #73 ' s right hand after Nurse #2 verified the order on the MAR.</p> <p>During an interview on 12/06/2024 at 2:41pm, the Director of Nursing (DON) stated if the MAR was documented a splint was applied, she expected the splint to be applied. The DON stated if a splint was not applied, she would expect a note written that explained why the splint was not applied.</p> <p>During an interview on 12/06/2024 the Administrator stated he expected if a splint was documented as applied then the splint should be on the resident.</p>

<p>F 0914</p> <p>Level of Harm - Potential for minimal harm</p> <p>Residents Affected - Some</p>	<p>Provide bedrooms that don't allow residents to see each other when privacy is needed.</p> <p><b>**NOTE- TERMS IN BRACKETS HAVE BEEN EDITED TO PROTECT CONFIDENTIALITY**</b> 37538</p> <p>Based on record review, observations, and interviews with the resident and staff the facility failed to install a privacy curtain and failed to ensure the privacy curtain extended around the bed for 2 of 9 rooms reviewed for environment (room [ROOM NUMBER]-A and #304-A).</p> <p>Findings included:</p> <p>a. An observation on 12/03/24 at 2:06 PM revealed room [ROOM NUMBER] was a semi-private room shared by two residents. There was no ceiling mounting track in place to have a privacy curtain installed that extended around bed 207-A located by the door.</p> <p>An observation and interview on 12/03/24 at 2:06 PM Nurse Aide (NA) #7 revealed she was the assigned NA for room [ROOM NUMBER]-A and did not notice there was no privacy curtain in place.</p> <p>During an observation and interview on 12/04/24 at 10:19 AM room [ROOM NUMBER]-A continued to have no privacy curtain in place and no ceiling mounting track for it to be installed. The resident residing in room [ROOM NUMBER]-A revealed he liked to crack the door open and wanted the privacy curtain placed to keep the hallway light from shining in his eyes.</p> <p>During an observation and interview on 12/04/24 at 10:19 AM the Maintenance Manager confirmed there was no mounting track in place for a privacy curtain to be installed in room [ROOM NUMBER]-A. The Maintenance Manager revealed he was not aware there was no mounting track in place, and he would need to install one for a privacy curtain to be placed.</p> <p>b. During an observation on 12/04/24 at 12:09 PM room [ROOM NUMBER] was a semi-private room being shared by two residents. The privacy curtain for bed 304-A located by the door did not fully extend. The curtain got stuck in the mounting track where it started to curve around the bed. The resident revealed it was shared with nursing staff and maintenance the privacy curtain got stuck and she was told it would be fixed and gave leeway about how long it had been, but she wanted the curtain to work.</p> <p>An observation and interview was conducted on 12/04/24 at 1:16 PM with the Maintenance Manager. The Maintenance Manager observed the privacy curtain in room [ROOM NUMBER]-A got stuck where the mounting track curved and did not extend all the way around the bed. The Maintenance Manager was not aware the privacy curtain did not fully extend and revealed the wheels that were attached into the mounting track were put in backwards causing it to get stuck. He revealed to fix it the privacy curtain it would need to be removed, and the wheels put back in the mounting track the correct way.</p> <p>During an interview on 12/06/24 at 4:05 PM the Administrator revealed he expected staff to report a missing privacy curtain and ensure the privacy curtain extended around the entire bed. The Administrator stated there were issues with staff communication and reporting environment issues that needed to be addressed.</p>
