<p>F 0640</p> <p>Level of Harm - Potential for minimal harm</p> <p>Residents Affected - Some</p>	<p>Encode each resident's assessment data and transmit these data to the State within 7 days of assessment.</p> <p>**NOTE- TERMS IN BRACKETS HAVE BEEN EDITED TO PROTECT CONFIDENTIALITY** Based on record reviews and staff interviews, the facility failed to transmit quarterly Minimum Data Set (MDS) assessments within the required time frame for 2 of 7 residents (Resident #53, Resident #68) reviewed for resident assessments. Findings included: 1. Resident #53 was admitted on [DATE]. Review of Resident 53's quarterly MDS assessment, dated 6/26/25, revealed the MDS assessment was signed as completed by the MDS Coordinator on 7/1/25 and indicated as ready to export. The MDS assessment was transmitted to the national database on 8/12/25. On 8/14/25 at 1:55 PM, during an interview, the MDS Coordinator indicated the 6/26/25 assessment was completed and signed on 7/1/25 and should have been transmitted within 14 days of completion. MDS Coordinator further stated that the facility was transitioning from old to new electronic medical records program, and the transmission process was not triggered.
