(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)
<p>F 0565</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Some</p>	<p>Honor the resident's right to organize and participate in resident/family groups in the facility.</p> <p>43643</p> <p>Based on record review, and staff and resident interviews, the facility failed to provide resolution of Resident Council Meeting grievances for 4 of 6 monthly Resident Council Meetings. The Resident Council had concerns during resident council meetings that revealed no follow up resolutions (09/19/24, 11/14/24, 12/11/24, and 01/16/24.)</p> <p>The findings included:</p> <p>On 09/19/24 the Resident Council Meeting Minutes noted music not being played during meals, getting assistance to go to the beauty shop, and residents wants DNR above their bed.</p> <p>The Resident Council Follow-Up for 09/19/24 Resident Council Meeting Minutes did not demonstrate the facility's response to grievances voiced during the Resident Council.</p> <p>On 11/14/24 the Resident Council Meeting Minutes noted call lights were not being answered.</p> <p>The Resident Council Follow-Up for 11/14/24 Resident Council Meeting Minutes did not demonstrate the facility's response to grievances voiced during the Resident Council.</p> <p>On 12/11/24 the Resident Council Meeting Minutes noted call lights were not being answered and residents had issues with different nursing staff.</p> <p>The Resident Council Follow-Up for 12/11/24 Resident Council Meeting Minutes did not demonstrate the facility's response to grievances voiced during the Resident Council.</p> <p>On 01/16/24 the Resident Council Meeting Minutes noted sink and toilet issues, missing laundry, resident rooms needing painting, nursing staff being loud at night, and call lights not being answered.</p> <p>The Resident Council Follow-Up for 01/16/24 Resident Council Meeting Minutes did not demonstrate the facility's response to grievances voiced during the Resident Council.</p> <p>Interviews conducted with Resident #4, Resident #13, Resident #49, and Resident #61 during the Resident Council Meeting on 03/20/25 at 11:00 AM revealed there had been no resolution with the ongoing concerns that were addressed during the resident council meetings. The residents further revealed the issues were still a concern and the Activity Director (AD) did not discuss resolutions at resident council meetings.</p> <p>(continued on next page)</p>

Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

<p>F 0565</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Some</p>	<p>An interview conducted with the Activity Director (AD) on 03/20/25 at 12:05 PM revealed he had completed grievances and gave them to department heads to follow up on. The AD further revealed once the department heads completed grievance that they were sent to the Administrator and Social Worker. The AD stated he had failed to document resolutions on resident council minutes, but had reported to the resident council residents how concerns were being addressed.</p> <p>An interview conducted with the facility Social Worker (SW) on 03/20/25 at 12:30 PM revealed when grievances are completed during resident council minutes they are signed off by the Administrator and brought to her to be stored. The SW further revealed she had not received any resident council grievances since August 2024.</p> <p>An interview conducted with the Administrator on 03/20/25 at 1:00 PM revealed he was not aware if grievances were being completed and resolved from Resident Council meetings. The Administrator further revealed he expected concerns to be addressed and documentation to be included within the Resident Council minutes.</p>

<p>F 0644</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>Coordinate assessments with the pre-admission screening and resident review program; and referring for services as needed.</p> <p>**NOTE- TERMS IN BRACKETS HAVE BEEN EDITED TO PROTECT CONFIDENTIALITY** 43643</p> <p>Based on record review and staff interviews the facility failed to ensure a Preadmission Screening and Resident Review (PASRR) level II referral was made after a resident was given new mental health diagnoses for 1 of 3 residents (Resident #71) reviewed for PASRR.</p> <p>The findings include:</p> <p>Review of Resident #71's medical record revealed the resident was originally admitted to the facility on [DATE] and a PASRR level I was completed.</p> <p>The resident was diagnosed with depression on 04/20/23, delusional disorder on 12/4/23, and insomnia on 12/04/24.</p> <p>Review of Resident #71's most recent comprehensive Minimum Data Set (MDS) dated [DATE] revealed the resident was not coded for a level II PASRR.</p> <p>During an interview on 03/19/25 at 1:00 PM with the Social Worker (SW) she revealed a PASRR level II referral should be completed upon admission for residents with a mental health diagnosis and when a resident has had a change of condition or a newly added mental health diagnosis. It was further revealed by the SW Resident #71 should have been assessed for a possible level II and the facility failed to do so. The SW indicated she was not aware that Resident #71 did not have level II PASRR determination.</p> <p>During an interview on 03/20/25 at 1:00 PM with the Administrator he revealed PASRR level II referrals should be completed in a timely manner upon the admission of a resident with a mental health diagnosis or anytime a resident has had a change of condition or a newly added mental health diagnosis. The Administrator stated he was not aware Resident #71 had not been assessed for a possible PASRR level II.</p>

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)		
<p>F 0690</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>Provide appropriate care for residents who are continent or incontinent of bowel/bladder, appropriate catheter care, and appropriate care to prevent urinary tract infections.</p> <p>**NOTE- TERMS IN BRACKETS HAVE BEEN EDITED TO PROTECT CONFIDENTIALITY** 49160</p> <p>Based on observations, record review, and staff and Nurse Practitioner interviews, the facility failed to remove an indwelling urinary catheter per the physician's order and failed to keep a urinary catheter drainage bag and tubing from touching the floor to reduce the risk of infection for 1 of 4 residents reviewed for urinary catheters (Resident #36).</p> <p>The findings included:</p> <p>Resident #36 was admitted to the facility on [DATE] with diagnoses that included history of stage 3-4 pressure ulcer.</p> <p>The annual Minimum Data Set (MDS) assessment dated [DATE] indicated Resident #36 was moderately cognitively impaired and was coded for having an indwelling urinary catheter.</p> <p>The care plan dated 01/02/25 revealed Resident #36 had an indwelling urinary catheter due to a stage 4 sacral wound and the interventions included providing catheter care per the physician orders.</p> <p>Resident #36 had a physician order dated 03/11/25 that read; discontinue the indwelling urinary catheter on 03/15/25. The order was entered by Nurse #3.</p> <p>Resident #36's medication administration record (MAR) indicated the indwelling urinary catheter was removed on 03/15/25 by Nurse #6.</p> <p>a. An observation conducted on 03/17/25 at 10:21 AM revealed Resident #36 was lying in bed resting and had an indwelling urinary catheter draining to a bedside drainage bag.</p> <p>An interview with Nurse #3 on 03/19/25 at 12:20 PM revealed on 03/11/25 a member of the nurse management team, she did not recall their name, asked her to obtain a physician's order to remove Resident #36's indwelling urinary catheter. Nurse #3 stated she called the Nurse Practitioner and obtained an order to remove Resident #36's indwelling urinary catheter on 03/15/25. Nurse #3 indicated she entered the order into the electronic medical record, but she was not Resident #36's assigned nurse on 03/15/25 and was unsure if the urinary catheter was removed.</p> <p>A phone interview with Nurse #6 on 03/20/25 at 8:04 AM indicated she was the 3rd shift (11pm-7am) nursing supervisor on 03/14/25 to 03/15/25. She indicated she did not recall seeing an order to remove Resident #36's indwelling urinary catheter on 03/15/25 nor did she remove the catheter. Nurse #6 was unable to explain why it was documented on the MAR that she completed the order to remove Resident #36's indwelling urinary catheter.</p> <p>During an interview with Nurse #5 on 03/20/25 at 9:03 AM she indicated she was Resident #36's assigned nurse on 3/17/25. Nurse #5 revealed a nurse, she did not recall her name, informed her that Resident #36 had an order to remove Resident #36's indwelling urinary catheter on 03/15/25 that was not completed. Nurse #5 stated she removed Resident #36's indwelling urinary catheter on 03/17/25 at approximately 10:30 AM.</p> <p>(continued on next page)</p>

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)		
<p>F 0690</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>An interview conducted with the Nurse Practitioner (NP) on 03/19/25 at 10:16 AM revealed she received a phone call from the facility on 03/11/25 requesting an order to remove Resident #36's urinary catheter because there was not a supporting diagnosis for the use of the catheter. The NP indicated she ordered Resident #36's indwelling urinary catheter to be removed on 03/15/25. The NP stated she was unaware the order was not completed, and the catheter should have been removed on 03/15/25 as ordered.</p> <p>During an interview with the Director of Nursing (DON) on 03/20/25 at 11:05 AM she revealed Resident #36 had an indwelling urinary catheter in place to assist with healing of a sacral wound. The DON indicated the interdisciplinary care team decided wound healing was not considered to be a supporting diagnosis for the use of an indwelling urinary catheter, so they requested an order from the NP to remove the catheter. The DON indicated she was not aware Resident #36's indwelling urinary catheter was not removed on the order date and that it should have been removed on 03/15/25 as ordered.</p> <p>An interview conducted with the Administrator on 03/20/25 at 1:30 PM indicated an order to remove an indwelling urinary catheter should have been completed on the date the physician ordered it to be removed.</p> <p>b. An observation conducted on 03/17/25 at 10:21 AM revealed Resident #36 was lying in bed resting and had an indwelling urinary catheter draining to a bedside drainage bag. The catheter tubing and bedside drainage bag were observed lying on the floor beside the bed.</p> <p>An interview with Nurse #5 on 03/17/25 at 10:51 AM indicated she was assigned to Resident #36 and entered her room around 10:30 AM to remove the indwelling urinary catheter. She stated the catheter tubing and bedside drainage bag were lying on the floor beside the bed. Nurse #5 indicated the Nurse Aides (NA) were responsible for emptying the bedside drainage bags and usually emptied them at the end of each shift. Nurse #5 was unsure if the drainage bag lying on the floor was last emptied by the 3rd shift NA or the 1st shift NA, but stated it should have been secured under the bed frame and not touching the floor.</p> <p>A phone interview with NA #5 on 03/20/25 at 1:53 PM revealed she was the 3rd shift NA assigned to Resident #36 on 03/16/25. NA #5 stated she emptied Resident #36's bedside drainage bag around 6:00 AM on 03/17/25 prior to the end of her shift and then secured the drainage bag under the bed frame to ensure it was not touching the floor. NA #5 stated when she left Resident #36's room the urinary catheter tubing and bedside drainage bag were not touching the floor.</p> <p>Several attempts were made to contact NA #4, assigned to Resident #36 on 1st shift on 03/17/25, were unsuccessful.</p> <p>An interview conducted with the Director of Nursing on 03/20/25 at 11:05 AM revealed indwelling urinary catheter tubing and bedside drainage bags should be secured under the bed frame when a resident was in bed and not touching the floor. The DON indicated catheter tubing and drainage bags should not be lying on the floor because of the increased risk of infection.</p> <p>During an interview with the Administrator on 03/20/25 at 1:30 PM he stated urinary catheter tubing and drainage bags should not be lying on the floor due to the increased risk for infection.</p>

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)		
<p>F 0695</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>Provide safe and appropriate respiratory care for a resident when needed.</p> <p>**NOTE- TERMS IN BRACKETS HAVE BEEN EDITED TO PROTECT CONFIDENTIALITY** 37281</p> <p>Based on observations, record review, and family member and staff interviews, the facility failed to obtain a physician order for oxygen therapy for 1 of 1 resident reviewed for respiratory care (Resident #72).</p> <p>The findings included:</p> <p>Resident #72 was admitted to the facility 1/18/25 with diagnoses including chronic lung disease and hypertension.</p> <p>The admission Minimum Data Set (MDS) assessment dated [DATE] assessed Resident #72 to have oxygen therapy.</p> <p>A physician order dated 1/18/25 read (for) cyanosis or dyspnea: oxygen at 2 liters per minute, notify the provider.</p> <p>A care plan dated 1/21/25 addressed Resident #72's potential for breathing issues related to his lung disease and specified to administer oxygen at 2 liters per minute by nasal cannula.</p> <p>Review of the physician orders for Resident #72 revealed no order for oxygen therapy.</p> <p>The significant change MDS dated [DATE] assessed Resident #72 to not have oxygen therapy.</p> <p>Resident #72 was observed on 3/17/25 at 2:16 PM. Resident #72 had an oxygen concentrator running at the bedside, delivering 2.5 liters of oxygen by nasal cannula. The Responsible Party was interviewed at the time of the observation, and he reported Resident #72 required oxygen all the time because of his lung disease and he had been receiving oxygen therapy since he was admitted to the facility.</p> <p>Resident #72 was observed on 3/19/25 at 12:50 PM. The oxygen concentrator was running at the bedside, delivering 3 liters of oxygen by nasal cannula.</p> <p>The Nurse Practitioner was interviewed on 3/19/25 at 10:32 AM and she reported she was aware Resident #72 was using oxygen, but did not know there was not an active order for oxygen therapy.</p> <p>Nurse #4 was interviewed on 3/19/25 at 12:55 PM and she checked the physician orders for oxygen for Resident #72 and was unable to find an order for oxygen. Nurse #4 reported Resident #72 should have a physician order for oxygen and the order for oxygen would give instructions for the flowrate, as well as changing the nasal cannula and oxygen tubing.</p> <p>The Director of Nursing was interviewed on 3/20/25 at 10:55 AM and she reported she was not aware there was no order for oxygen for Resident #72 and there should be an order with the flowrate and orders to change the tubing and nasal cannula. The DON explained initiating oxygen therapy was a nursing judgement, but the physician needed to be notified to write an order.</p>

<p>F 0730</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>Observe each nurse aide's job performance and give regular training.</p> <p>49160</p> <p>Based on record review and staff interviews, the facility failed to complete a performance review every 12 months for 2 of 5 Nurse Aides (NAs) reviewed to ensure in-service education was designed to address the outcome of the performance evaluations (NA #2 and NA #3).</p> <p>The findings included:</p> <p>a. A review of NA #3's employment file revealed a hire date of 8/27/21. There was no record a performance review was completed for NA #3 from January 2024 to present.</p> <p>A phone interview conducted with NA #3 on 3/21/25 at 10:22 AM indicated she did not recall that a performance review had been completed at any time during her employment at the facility.</p> <p>b. A review of NA #2's employment file revealed a hire date of 5/30/23. There was no record a performance review was completed for NA #2 from January 2024 to present.</p> <p>A phone interview with NA #2 on 3/21/25 at 10:02 AM indicated she did not recall that a performance review had been completed since she was hired by the facility in 2023.</p> <p>A phone interview conducted with the Staff Development Coordinator (SDC) on 3/21/25 at 10:50 AM revealed she started working as the facility's SDC in August of 2024. The SDC stated the NA annual performance reviews were a part of the facility's online education program and email notifications were sent to the NAs when the performance review was due, and she received the email as well. The SDC stated she provided reminders to the NAs when the performance review was due, but the NA was responsible for printing the review, having it completed by a nurse and then providing a copy of the review for her to keep on file. The SDC revealed she did not recall receiving email notifications that NA #2 and NA #3 were due for a performance review and was unable to explain why there was no record that a performance review was completed for NA #2 and NA #3 every 12 months as required.</p> <p>Attempts made to contact the former SDC were unsuccessful.</p> <p>A phone interview with the Director of Nursing on 3/21/25 at 11:21 AM indicated the SDC was responsible for monitoring the completion of the NA performance reviews and NA performance reviews should be completed every 12 months.</p> <p>A phone interview with the Administrator on 03/21/25 at 11:21 AM revealed NAs should have a performance review every 12 months and the SDC was responsible for overseeing and making sure that the reviews were completed.</p>

<p>F 0842</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Some</p>	<p>On 3/20/25 at 11:49 AM, the Administrator was interviewed. He had begun employment at the facility in January 2025. The Administrator was unable to explain why the psychiatric progress notes for Residents #21, #31, #37 and #90 were not in their EMR as they should be.</p> <p>49160</p> <p>2. Resident #36 was admitted to the facility on [DATE] with diagnoses that included history of stage 3-4 pressure ulcer.</p> <p>Resident #36 had a physician order dated 03/11/25 that read; discontinue the indwelling urinary catheter on 03/15/25.</p> <p>Resident #36's medication administration record (MAR) indicated the indwelling urinary catheter was removed on 3/15/25 by Nurse #6.</p> <p>Further review of Resident #36's medical record revealed there were no orders to reinsert the indwelling urinary catheter.</p> <p>An observation conducted on 3/17/25 at 10:21 AM revealed Resident #36 was lying in bed resting and had an indwelling urinary catheter draining to a bedside drainage bag.</p> <p>A phone interview with Nurse #6 on 3/20/25 at 8:04 AM indicated she was the 3rd shift (11pm-7am) nursing supervisor on 3/14/25 to 03/15/25. She indicated she did not recall seeing an order to remove Resident #36's indwelling urinary catheter on 3/15/25 nor did she remove the catheter. Nurse #6 was unable to explain why it was documented on the MAR that she completed the order to remove Resident #36's indwelling urinary catheter.</p> <p>An interview was conducted with the Director of Nursing (DON) on 3/20/25 at 11:05 AM. The DON revealed she was not aware Resident #36's indwelling urinary catheter was not removed on 3/15/25 per the physician's order. The DON stated if Nurse #6 did not remove Resident #36's indwelling catheter on 3/15/25 then she should not have documented on the MAR that the order was completed.</p>

<p>F 0880</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Some</p>	<p>Provide and implement an infection prevention and control program.</p> <p>**NOTE- TERMS IN BRACKETS HAVE BEEN EDITED TO PROTECT CONFIDENTIALITY** 37281</p> <p>Based on observations, record review and staff interviews, the facility staff failed to perform hand hygiene during meal service for 1 of 4 staff observed (Nursing Assistant #2) and failed to follow Enhanced Barrier Precautions (EBP) and apply personal protective equipment (PPE) prior to providing enteral feeding to a resident with a gastrostomy tube (G-tube) for 1 of 1 staff observed (Nurse #4) and failed to perform hand hygiene or apply new gloves during a dressing change to a G-tube for 1 of 1 observation for G-tube dressing changes (Nurse #1). The deficient practice occurred for 3 of 8 staff members reviewed for infection control practices.</p> <p>The findings included:</p> <p>The facility Handwashing Policy with a revision date of 4/2023 was reviewed and read, in part: Personnel should wash their hands after contact with body fluids, equipment or articles contaminated with body fluids; after removing gloves; before and after touching wounds; between resident contacts, when otherwise indicated to avoid transfer of microorganisms, and between tasks and procedures; an alcohol-based hand sanitizer may be used for handwashing unless the hands are visibly soiled.</p> <p>1. The 300-400 hall dining room was observed on 3/17/25 at 12:31 PM. Nursing Assistant (NA) #2 was observed to be passing out meals to the residents. NA #2 was observed to cut food up for a resident, remove lids from drinks, and assist the resident to pick up the utensils. NA #2 was then observed to return to the counter and pick up another meal and deliver it to another resident without performing hand hygiene. NA #2 was observed to deliver multiple meals to residents in the dining room without performing hand hygiene between each delivery.</p> <p>NA #2 was observed again on 3/18/25 at 12:37 PM delivering meals to residents in room [ROOM NUMBER]. NA #2 was observed to assist Bed A resident to sit up in bed, she adjusted the over-the-bed tray and assisted the resident to remove lids from her drinks. NA #2 returned to the dining room and did not perform hand hygiene before she picked up another tray to deliver to Bed B in room [ROOM NUMBER]. NA #2 did not perform hand hygiene after assisting the resident with her tray, bed, and over-the-bed table.</p> <p>NA #2 was stopped as she headed to the meal service area to pick up another tray and asked about hand hygiene. NA #2 went to the wall mounted hand sanitizer and reported she was aware she should have used hand sanitizer between the delivery of each meal, but she did not think about it during the meal service because she was trying to get the food to the residents as quickly as possible.</p> <p>The Director of Nursing (DON) was interviewed on 3/20/25 at 10:44 AM. The DON reported there was no supervision during the meal service to monitor if staff were performing hand hygiene. The DON reported NA #2 was very task oriented and was focused on getting meals to residents as quickly as possible and did not think to perform hand hygiene.</p> <p>(continued on next page)</p>

<p>F 0880</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Some</p>	<p>2. The facility Enhanced Barrier Precautions policy with a revision date of 6/13/2024 was reviewed, and read, in part: EBP are used in conjunction with Standard Precautions to reduce the risk of MDRO transmission (multi-drug-resistant organisms, primarily bacteria that is resistant to one or more classes of antimicrobial agents [antibiotics] making infections caused by the bacteria difficult to treat) during high-contact resident care activities. Included with use of both gowns and gloves. EBP are meant to be in place for the duration of the resident's stay, or until discontinuation of an indwelling medical device occurs. EBP apply to residents with any of the following: . presence of indwelling medical devices with or without the presence of an MDRO infection or colonization .Resident care activities that are considered high contact include, but are not limited to .device care or use: .feeding tube . (Instructions included) perform hand hygiene with alcohol-based handrub or wash with soap and water before entering and after leaving the room; Wear gloves and a gown for the following high-contact resident care activities .device care .feeding tube .take off and dispose gloves . gown .(and use) alcohol-based handrub or wash with soap and water .</p> <p>An observation of Resident #3's room was conducted on 3/18/25 at 12:30 PM. A sign with EBP instructions was posted on her door and a caddy with PPE was on the door, including gloves, gowns, and face masks. The EBP sign directed staff to perform hand hygiene, apply gloves and a gown when providing care to Resident #3.</p> <p>Nurse #4 was observed on 3/18/25 at 12:41 PM to enter Resident #3's room to provide G-tube feeding. Nurse #4 was observed to perform hand hygiene with hand sanitizer and apply gloves. Nurse #4 did not apply a gown. Nurse #4 went to Resident #3's beside and explained it was time for her G-tube feeding. Nurse #4 pulled the covers down and was removing the abdominal binder when she was stopped and asked to come to the door to read the EBP sign. Nurse #4 read the sign for EBP and reported she was going to complete the G-tube feeding without the gown because she was rushing to get the feeding completed. Nurse #4 removed her gloves, performed hand hygiene, and applied a gown to complete the G-tube feeding. Nurse #4 explained that she was aware of the EBP and PPE use, but she didn't think to apply it.</p> <p>The Director of Nursing was interviewed on 3/18/25 at 3:52 PM and she reported she was not aware Nurse #4 did not apply appropriate PPE to provide a G-tube feeding to Resident #3, and she expected all staff to read the signs on the doors and apply the appropriate PPE for resident care.</p> <p>50415</p> <p>3. According to the facility's infection control policy subsection titled Enhanced Barrier Precautions dated 4/03 and revised 6/13/24, personal protective equipment (PPE) including a gown and gloves was to be worn during high contact care for a resident with an indwelling medical device such as a feeding tube.</p> <p>(continued on next page)</p>

<p>F 0880</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Some</p>	<p>On 3/19/25 at 10:06 AM Nurse #1 donned a gown and gloves at the doorway of Resident #100's room due to the resident being on enhanced barrier precautions. Nurse #1 was observed as she provided a dressing change of the (PEG) percutaneous endoscopic gastrostomy tube (a thin, flexible tube inserted through the skin and into the stomach) insertion site. After cleansing the insertion site and applying a clean dressing, Nurse #1 removed her gloves and took a pen out of her pocket. Without performing hand hygiene or donning a clean pair of gloves, she then used her bare left hand and stabilized the newly applied dressing against the resident's stomach and wrote her initials and date on the tape of the dressing. Nurse #1 was interviewed immediately upon exiting the room. She stated that she knew the resident was on enhanced barrier precautions, but she did not want to touch her pen with the gloves she had been wearing. She stated that she should have had a pen readily available and changed gloves to write the date on the dressing instead of using her bare hand.</p> <p>The Director of Nursing (DON) was interviewed on 3/19/25 at 10:42 AM, and she stated that Nurse #1 should have followed the instructions for the facility's policy on enhanced barrier precautions.</p> <p>The Nurse Practitioner was interviewed on 3/19/25 at 11:46 AM, and she stated that she expected the staff to follow written orders for a resident placed on enhanced barrier precautions when providing care to the residents.</p> <p>On 3/20/25 at 2:00 PM the Administrator was interviewed. He stated he expected the facility's staff to follow the infection control policy when providing care to all residents.</p>
