F 0684 Level of Harm - Minimal harm or potential for actual harm Residents Affected - Few	Provide appropriate treatment and care according to orders, resident?s preferences and goals. Based on record review and staff interview, the facility failed to ensure staff provided necessary care and services for 1 of 1 sampled resident (Resident #4) with diabetes. Failure to follow physician orders for out-of-range blood sugar levels may result in adverse health events.Findings include: Kozier & Erb's Fundamentals of Nursing, Concepts, Process and Practice, 11th Edition eText, 2021, Pearson, Boston, Massachusetts, page 63, stated, . It is the nurse's responsibility to seek clarification of ambiguous or seemingly erroneous orders from the prescriber. If the order is neither ambiguous nor apparently erroneous, the nurse is responsible for carrying it out. Review of Resident #4's medical record occurred on all days of survey. Diagnoses included diabetes mellitus. The current care plan stated, [Resident] has Diabetes mellitus with polyneuropathy [a degeneration of peripheral nerves]. will be free from any s/sx [signs/symptoms] of hyperglycemia [high blood sugar] . will be free from any s/sx of hypoglycemia [low blood sugar] . will have no complications related to diabetes through the review date. Diabetes medication as ordered by doctor. Monitor/document for side effects and effectiveness. A physician's order, dated 09/28/25, stated, Blood Glucose checks four times daily and as needed per nursing discretion. Notify MD [medical doctor] if Glucose is greater than 300 or less than 70. Review of Resident #4's medication administration records from November 1, 2025 through December 9, 2025, showed 16 occasions blood glucose levels were greater than 300 milligrams per deciliter (mg/dL) (ranged from 301 mg/dL to 460 mg/dL) and 4 occasions blood glucose levels were less than 70 mg/dL (ranged from 58 mg/dL to 69 mg/dL). The medical record lacked documentation facility staff notified the provider of the out-of-range blood glucose readings. During an interview on 12/11/25 at 12:21 p.m., an administrative nurse (#1) confirmed the medical record lacked documentation of provider notification. The medical record failed to show nursing staff notified the provider to ensure proper care and services were provided regarding Resident #4's out-of-range blood glucose levels.
