NAME OF PROVIDER OR SUPPLIER Prestige Gardens Rehabilitation and Nursing Center		STREET ADDRESS, CITY, STATE, ZIP CODE 755 South Plum Street Marysville, OH 43040	
For information on the nursing home's plan to correct this deficiency, please contact the nursing home or the state survey agency.			
(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)		
F 0880 Level of Harm - Minimal harm or potential for actual harm Residents Affected - Few	Provide and implement an infection prevention and control program. Based on observation, staff interviews, and record review, the facility failed to ensure a multi-use glucometer was cleaned with the appropriate cleansing wipes during use for multiple residents. This affected two (Residents #21 and #16) of two residents observed for medication administration. The facility census was 66. Findings include: Observation of medication administration on 06/23/26 between 7:19 A.M. and 8:13 A.M. revealed Licensed Practical Nurse (LPN) #110 cleaned the multi-use glucometer with an alcohol wipe prior to obtaining a blood sugar measurement for Resident #21. After LPN #110 obtained a blood sugar measurement for Resident #21, LPN #110 cleaned the multi-use glucometer with an alcohol wipe. LPN #110 then obtained the a blood sugar measurement for Resident #16 with the same multi-use glucometer. Interview with LPN #110 at the time of the observation confirmed the glucometer was a multi-use glucometer and was used for all residents that required blood sugar measurements on the 200 hall. LPN #110 confirmed he used alcohol wipes to clean the multi-use glucometer. LPN #110 confirmed the multi-use glucometer was not supposed to be cleaned with alcohol wipes, but it was supposed to be cleaned with special bleach wipes that were present in the bottom drawer their medication cart. Interview on 06/23/26 at 8:20 A.M. with Regional Nurse #106 confirmed the multi-use glucometer should be cleaned with bleach wipes and not with alcohol wipes. Regional Nurse #106 confirmed all nursing staff received education on multi-use glucometer usage and cleaning. Review of the document titled, Assure Prism Multi Blood Glucose Monitoring System Cleaning and Disinfecting the Assure Prism multi Blood Glucose Monitoring System, revealed the following disinfectant wipes have been shown for safe use with this meter: Clorox Germicidal Wipes, Dispatch Hospital Cleaner Disinfectant Towels with Bleach, Super Sani-Cloth Germicidal Disposable Wipes, and CaviWipes1.		

Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.
