<p>F 0584</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>Honor the resident's right to a safe, clean, comfortable and homelike environment, including but not limited to receiving treatment and supports for daily living safely.</p> <p>47000</p> <p>Based on observation, interview and record review it was determined the facility failed to provide a homelike environment for 1 of 1 sampled resident (#16) reviewed for environment. This placed residents at risk for a lack of homelike environment. Findings include:</p> <p>The facility's 2/2021 Homelike Environment Policy indicated residents were provided with a safe, clean, comfortable and homelike environment and encouraged to use their personal belongings to the extent possible.</p> <p>Resident 16 was admitted to the facility in 1/2023 with diagnoses including vascular dementia (a type of cognitive decline caused by damage to the blood vessels in the brain).</p> <p>Resident 16's 2/2/25 Annual MDS revealed the resident was in a persistent vegetative state (a chronic condition in which a person is awake but unaware of their surroundings).</p> <p>Random observations of Resident 16 from 2/24/25 to 2/27/25 between 8:43 AM through 4:42 PM revealed the resident to be in bed with her/his eyes open at times. The resident shared her/his room with three additional residents, and two of the four barriers she/he shared with her/his roommates were curtains. The other two barriers were walls. The small wall behind the head of the resident's bed revealed a cork board on which hung various papers, including information on aspiration precautions, the resident's case manager and passive range of motion exercises, with very little remaining space left on the wall. A small bedside table, located in between the resident's bed and one of the privacy curtains, had personal hygiene supplies on the surface top. Storage shelves lined the remaining wall in-and-on which were various medical and incontinence supplies, including items which belonged to the resident's roommates.</p> <p>On 2/24/25 at 1:14 PM, Witness 1 (Family Member) stated Resident 16's room looked like a storage room and it was very depressing. Witness 1 further stated she was unable to bring in any personal items for the resident because there was no place to put anything for happiness or wellness.</p> <p>On 2/26/25 at 10:20 AM, Staff 17 (CNA) stated Resident 16's room stored resident supplies for as long as I can remember, and the resident's closet was the only space available in her/his room for personal items.</p> <p>On 2/27/25 12:35 PM, Staff 1 (Administrator) observed Resident 16's room, acknowledged the room lacked space for the resident's personal items and stated the room was not homelike.</p>

<p>F 0585</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>Honor the resident's right to voice grievances without discrimination or reprisal and the facility must establish a grievance policy and make prompt efforts to resolve grievances.</p> <p>47000</p> <p>Based on observation, interview and record review it was determined the facility failed to make prompt efforts to resolve resident grievances for 2 of 4 sampled residents (#s 2 and 22) reviewed for personal property and Resident Council. This placed residents at risk for unresolved missing property and unaddressed concerns. Findings include:</p> <p>The facility's 6/2023 Grievances/Complaints, Recording and Investigating Policy directed the following:</p> <ul style="list-style-type: none"> <li>-All grievances and complaints filed with the facility were to be investigated and corrective actions were to be taken to resolve the grievance(s).</li> <li>-The Resident Grievance/Complaint Investigation Report Form was to be filed with the administrator within five working days of the incident.</li> <li>-The resident, or person acting on behalf of the resident, was to be informed of the findings of the investigation, as well as any corrective actions recommended, within five working days of the filing of the grievance or complaint.</li> </ul> <p>1. Resident 22 was admitted to the facility in 9/2023 with diagnoses including diabetes.</p> <p>Resident 22's 12/17/24 Quarterly MDS revealed the resident was cognitively intact.</p> <p>On 2/24/25 at 10:05 AM, Resident 22 was observed in her/his room in bed. Resident 22 stated Witness 2 (Family Member) brought her/him a pair of pants for her/his birthday in 9/2024 and the pants had been missing for about a month and a half. Resident 22 stated she/he mentioned the missing pants to a couple of staff but never received a resolution to her/his complaint.</p> <p>No evidence was found in Resident 22's clinical record or in the facility's 2024 or 2025 Grievance Logs to indicate a grievance had been completed related to Resident 22's complaint of missing pants or an investigation was completed.</p> <p>On 2/26/25 at 2:48 PM, Staff 18 (CNA) stated Witness 2 frequently brought in personal items for Resident 22 without labeling the item with the resident's name or room number.</p> <p>On 2/26/25 at 2:56 PM, Staff 14 (CNA) stated he immediately reported missing resident personal items to the nurse. Staff 14 stated Resident 22 complained a pair of her/his pants were missing on a few occasions a couple of months ago. Staff 14 stated he looked for the resident's pants in the facility's laundry room, could not find them and reported the missing pants to Staff 9 (LPN).</p> <p>On 2/26/25 at 3:34 PM, Staff 9 stated she was unaware Resident 22 was missing a pair of pants. Staff 9 further stated she would have provided the resident with a grievance form had she been aware of her/his complaint.</p> <p>(continued on next page)</p>

<p>F 0609</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>Timely report suspected abuse, neglect, or theft and report the results of the investigation to proper authorities.</p> <p>38140</p> <p>Based on interviews and record review it was determined the facility failed to report allegations of verbal abuse within the mandated timeframe for 4 of 4 sampled residents (#s 3, 23, 26 and 41) for 1 of 2 Facility Reported Incident (FRI) reports reviewed for abuse. This placed residents at risk for further abuse. Findings include:</p> <p>The facility's revised 4/2021 Recognizing Signs and Symptoms of Abuse/Neglect revealed it was expected for all personnel to report any signs and symptoms of abuse to their supervisor or the director of nursing services immediately.</p> <p>The facility's revised 9/2022 Abuse, Neglect, Exploitation or Misappropriation - Reporting and Investigation Policy and Procedures directed staff to report allegations of abuse to the state agency within two hours.</p> <p>On 6/19/24 at 3:52 AM, Staff 10 (LPN) wrote a progress note in Resident 41's health record which revealed on 6/18/24 at about 8:00 PM Resident 41 had been out of the facility and returned to the facility. Resident 41 proceeded to verbally and physically threatened staff, Resident 3, Resident 23 and Resident 26.</p> <p>On 6/20/24 at 11:23 AM, the state agency (SA) received a FRI for the 6/18/24 at 8:00 PM alleged abuse with Resident 41, Resident 3 Resident 23 and Resident 26.</p> <p>On 2/28/25 at 10:13 AM, Staff 2 (DNS) confirmed the FRI for the 6/18/24 allegations of abuse was submitted to the SA late. She stated she expected all allegations of abuse to be reported to the SA within the required two hour reporting time line.</p>

<p>F 0610</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>On 2/26/25 at 2:55 PM, Staff 18 (CNA) stated she recalled hearing something in passing about some money missing for Resident 22 but did not engage in it because a nurse was involved.</p> <p>On 2/26/25 at 3:30 PM, Staff 21 (LPN) stated Resident 22 reported she/he was missing money, and when she reported the resident's concern regarding the missing money to Staff 5, she was informed the issue had already been addressed.</p> <p>On 2/26/25 at 4:08 PM, Witness 2 stated someone at the facility spoke with her a few months ago about Resident 22's report of her/his money being lost or stolen. Witness 2 recalled she had given Resident 22 approximately \$150.00 dollars and was not sure how else the resident could get such a large amount of money unless someone else mailed it to her/him. Witness 2 further stated she thought the resident might still have a bank card.</p> <p>On 2/27/25 at 8:53 AM, Staff 24 stated Resident 22 reported to him about a month or two ago she/he was missing \$1,000 dollars. Staff 24 stated he immediately reported this to Staff 1 and Staff 2 (DNS).</p> <p>On 2/27/25 at 1:48 PM, Staff 5 stated he thought Resident 22 had her/his own bank card. Staff 5 stated the resident did leave the facility on occasion to go to the convenience store across the street where the resident could withdraw money from the store's ATM (automated teller machine). Staff 5 stated he did speak with Witness 2 about the resident's report of missing money but he did not interview anyone else, including Staff 24.</p> <p>On 2/27/25 at 1:54 PM, Staff 1 stated she spoke with Witness 2 following Resident 22's report of missing money in 12/2024 and was informed by Witness 2 that she did provide the resident with around \$100. Staff 1 stated she asked Staff 24 if he had seen the money and was told by Staff 24 he never saw it and never took it. Staff 1 stated she did not interview any additional staff, and stated the resident's report of missing money should have been investigated more thoroughly, regardless of the amount of money that was missing.</p>

This placed residents at risk for an inaccurate picture of the resident's status. Findings include:</p> <p>1. Resident 23 was admitted to the facility in 2021 with diagnoses including heart failure.</p> <p>Resident 23's 10/18/24 Significant Change MDS indicated the resident's BIMS score and the mood interview to screen for depression was not assessed.</p> <p>Resident 23's 1/18/25 Quarterly MDS indicated the resident's BIMS score and the mood interview to screen for depression was not assessed.</p> <p>On 2/2/25 at 12:39 PM, Resident 23 was observed to be alert, oriented and was able to effectually express her/his current and past mood, needs and history.</p> <p>On 2/26/25 at 12:56 PM, Staff 3 (LPN/Resident Care Manager) stated Staff 5 (Social Services) was responsible to complete Sections C (BIMS score), D (mood interview) and E (behaviors). Staff 3 confirmed Resident 23's 10/18/24 Significant Change MDS and 1/18/25 Quarterly MDS was coded as not assessed for her/his cognitive status or for a possible depression score. Staff 3 stated she would expect these areas assessed on the MDS.</p> <p>On 2/26/25 at 2:52 PM, Staff 5 stated he was responsible to complete the cognition and mood sections of the MDS for Resident 23. Staff 5 confirmed Resident 23's 10/18/24 Significant Change MDS and 1/18/25 Quarterly MDS did not reflect the resident's cognition or mood and they were not assessed according to the MDS.</p> <p>47000</p> <p>2. This placed residents at risk for not being provided appropriate bed mobility assistance. Findings include:</p> <p>Resident 21 was admitted to the facility in 5/2022 with diagnoses including hepatic encephalopathy (a disorder that occurs when the liver is unable to filter toxins from the blood resulting in their build up in the brain and causing confusion, disorientation and other changes) and a spinal fracture.</p> <p>Resident 21's 1/6/24 Annual MDS indicated she/he was cognitively intact.</p> <p>A review of Resident 21's care plan dated 11/14/2022 revealed she/he required assistance from two staff members for bed mobility and she/he was to receive cares in pairs.</p> <p>A facility investigation created and signed by Staff 2 (DNS) on 2/15/24 indicated Staff 22 (Agency CNA) attempted to reposition Resident 21 by herself by guiding her/his hand to grab the headboard and having her/him pull herself/himself up in bed. Staff 22 was in Resident 21's room without another staff member at the time she attempted to reposition Resident 21. The facility investigation indicated after the interaction, Resident 21 did not want Staff 22 in her/his room again.</p> <p>On 2/28/25 at 9:20 AM, Staff 22 stated she worked with Resident 21 at the time of the reported incident and knew Resident 21 was to receive cares in pairs and required assistance from two staff to reposition her/him in bed. Staff 22 stated she decided to reposition her/him without the assistance of another CNA. Staff 22 stated she asked Resident 21 to reach over her/his head to grab and pull up on the headboard because she/he was not positioned appropriately in the bed. Staff 22 stated Resident 21 could not reach the headboard so she guided her hand to the headboard.</p> <p>On 2/28/25 at 10:41 AM, Staff 2 confirmed Staff 22 did not follow Resident 21's care plan to have two people in her/his room at all times.</p>

This placed residents at risk for a decreased quality of life and social isolation. Findings include:</p> <p>1. Resident 27 admitted to the facility in 2022 with diagnoses including a stroke and disease of the pharynx (throat).</p> <p>A 10/10/22 Activities Admission Assessment revealed Resident 27 was nonverbal, dependent on staff and needed one-to-one visits. Resident 27 enjoyed hand massages, manicures, to watch television, listen to audio books and music, visits with family, a Pastor and pets.</p> <p>Resident 27's 10/24/24 Annual MDS assessed her/him with memory problems and rarely to never understood her/his ability to talk. Staff assessed Resident 27's leisure and diversional activity preferences as she/he enjoyed to listen to music, animals, to do things with groups of people, to participate in her/his favorite activities and to spend time outdoors.</p> <p>The 1/17/25 SNF (Skilled Nursing Facility) Activity Quarterly Review indicated Resident 27 had not experienced a change in her/his level of activity participation and was dependent on staff for care. The resident liked one-to-one and in-room visits, therapy animal visits, and sensory activities. Resident 27's interests included country and classic rock music, soap operas, murder mysteries, comedies, head and hand massages, her/his nails manicured, visits from the Pastor and her/his family.</p> <p>Resident 27's 2/25/25 care plan revealed she/he was dependent on staff for activities, cognitive stimulation and social interaction related to her/his cognition and immobility. The goal was for her/him to attend two weekly group activities. Staff were directed if she/he was not able to attend activities, the Activity Director would meet with the resident once or twice a week and provide television shows, music, and movies played for her/him while she/he was awake in her/his room. The care plan directed staff to the resident's preferred radio stations which included country and classic rock. Resident 27's preferred activities were head and hand massages, nails manicured, pet visits, family visits, sensory activities, listen to country and classic rock music, Pastor visits, one-to-one visits, to watch preferred television stations with soap operas, murder mysteries and comedies.</p> <p>The Activity Participation records revealed from 1/27/25 through 2/26/25 (30 days) Resident 27 participated in the following activities:</p> <p>-Spiritual Care on 2/6/25 and 2/20/25.</p> <p>-Movie/Video on 2/13/25 and 2/24/25.</p> <p>During the survey from 2/24/25 through 2/28/25 between 8:00 AM to 4:00 PM Resident 27 was not observed out of her/his bed.</p> <p>(continued on next page)</p>

<p>F 0679</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>On 2/27/25 at 10:34 AM, Staff 6 stated residents who were dependent on staff received one-to-one visits, which included Resident 16. Staff 6 stated he completed one-to-one visits with Resident 16 once a week and the visits consisted of turning her/his television on if it was noted to be off. Staff 6 stated he could not recall the last time he attempted a sensory activity, except for one related to smells, and confirmed no additional types of sensory activities were attempted with the resident. Staff 6 stated he knew it was important for Resident 16 to attend weekly church services but he had not interviewed her/his family about additional activity preferences. Staff 6 stated the resident either smiled or slept when in a group activity and stated her/his ability to attend group activities was dependent on staff availability and resident showers. Staff 6 stated the resident's care plan goal of attending a group activity weekly was based on staff availability and not on the resident's preference. Staff 6 stated he did not invite Resident 16 or request any CNA to assist the resident to get out of bed to attend any group activity this week, and could not remember the last time the resident received a manicure or a hand massage.</p> <p>On 2/27/25 at 12:35 PM, Staff 1 (Administrator) stated one-to-one visits needed to consist of more than television, Resident 16's ability to participate in group activities should not be limited by staff availability and the facility needed to offer additional sensory activities to dependent and/or cognitively impaired residents.</p>

<p>F 0699</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>Provide care or services that was trauma informed and/or culturally competent.</p> <p>38140</p> <p>Based on interview and record review it was determined the facility failed to ensure residents who were trauma survivors received trauma-informed care in accordance with professional standards of practice and account for the residents' experiences and preferences to eliminate or mitigate triggers which may cause re-traumatization for 1 of 4 sampled residents (#26) reviewed for abuse. This placed residents at risk for re-traumatization and a decrease in their quality of life. Findings include:</p> <p>The facility's revised 8/2022 Trauma Informed Care and Culturally Competent Care Policy indicated the guide was to provide the trauma-informed care was in accordance with professional standards of practice and to address the needs of trauma survivors by minimizing triggers and/or re-traumatization. It directed staff to identify and decrease exposure to triggers that may retraumatize the resident.</p> <p>Resident 26 admitted to the facility in 2023 with diagnoses including PTSD (Post-Traumatic Stress Disorder, mental condition with intense emotional and/or physical reaction after a traumatic event or experience).</p> <p>An 8/24/23 SNF (Skilled Nursing Facility) Social Services History, Trauma and SUD (Substance Abuse Disorder) Assessment revealed Resident 26 experienced a physical assault and sudden violent death. No specific information related to how this trauma affected her/him currently nor any triggers for the trauma.</p> <p>Resident 26's 12/1/24 Quarterly MDS assessed her/him as cognitively intact and with a PTSD diagnosis.</p> <p>Staff 5 (Social Services) completed Resident 26's 12/2/24 SNF Social Service Quarterly Summary which reveal no new trauma and directed to continue the current care plan.</p> <p>Resident 26's 2/25/25 care plan identified she/he had a history of trauma. The care plan directed staff to provide reassurances, comfort, maintain a calm approach, display warmth, answer questions directly and offer unconditional acceptance. Staff were to establish and maintain a trusting relationship by listening to the resident. Staff were to maintain a calm, non-threatening manner while they worked and interacted with the resident.</p> <p>No evidence was found in Resident 26's health record related to the development and implementation of individualized interventions, for assessed triggers of trauma which may re-traumatize the resident or identification of ways to mitigate or decrease the effect of the triggers.</p> <p>On 2/25/25 at 10:42 AM, Resident 26 was observed to sit in her/his room with a book. Resident 26 was scheduled to attend the bowling outing this morning. Resident 26 stated she/he decided not to go to the bowling outing because my PTSD kicked in when she/he tried to get on the bus, it was crowded and the people were all around so she/he could not take it.</p> <p>On 2/26/25 at 10:30 AM, Resident 26 attended the Resident Council meeting. Resident 26 was observed to leave the meeting early and said something about there was too many people.</p> <p>(continued on next page)</p>

<p>F 0699</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>On 2/26/25 at 3:03 PM Staff 5 confirmed Resident 26 did not have any triggers identified on her/his care plan or in her/his health record. Staff 5 could express one trigger for Resident 26 of other people pretending or lying to have served in the military. Staff 5 stated Resident 26 probably could not tell you any triggers for herself/himself. Staff 5 confirmed he had not specially asked the resident about any other possible triggers for the trauma she/he had experienced. Staff 5 stated he would call the Psychologist if a resident needed help with PTSD triggers.</p> <p>On 2/27/25 at 10:02 AM, Resident 26 freely talked about her/his triggers when asked. Resident 26 listed multiple triggers including the feeling of being trapped, her/his bedroom door closed, people in back of her/him, bullying types of behaviors directed at others, tight spaces, and at times groups of people. Resident 26 was able to express multiple ways to mitigate most of these triggers.</p> <p>On 2/27/25 at 3:47 PM, Staff 13 (CNA) stated staff obtained information to care for a resident, including Resident 26's challenging behaviors, from the care plan.</p> <p>On 2/28/25 at 10:34 AM, Staff 1 (Administrator) acknowledged she would expect Resident 26 to have identified triggers and specific interventions for the experienced trauma to possibly eliminate or mitigate these triggers which may cause re-traumatization.</p>

The CDC's website titled Healthcare-Associated Infections (HAIs) under the heading Appendix D - Linen and laundry management dated 3/19/24 indicated the following:</p> <p>-Clean laundry is to be sorted and transported in designated carts or containers in a manner that prevents the risk of contamination by dust, debris, or soiled linens or other soiled items.</p> <p>The American Healthcare Association's undated website titled Tips for Meeting Linen Requirements in Skilled Nursing Facilities indicated the following:</p> <p>-Clean laundry should be covered to prevent contamination when it is transported to residents.</p> <p>On 2/24/25 at 12:08 PM, Staff 7 (Laundry) was observed delivering laundry on hangers to the residents in room [ROOM NUMBER]. Staff 7 carried the clean laundry from the basement to room [ROOM NUMBER] draped over her bare left arm and the laundry was not covered. When she arrived at room [ROOM NUMBER], Staff 7 was observed to hang the laundry in the residents' closets.</p> <p>On 2/24/25 at 12:12 PM, Staff 7 stated there was no covered cart for delivering clean laundry to residents' closets. Staff 7 stated this was how she delivered clean clothes to residents.</p> <p>On 2/25/25 at 9:59 AM, Staff 7 was observed to carry clean laundry on hangers draped over her bare arm from the basement laundry room to the residents in room [ROOM NUMBER]. The laundry was not covered.</p> <p>On 2/27/25 at 10:47 AM, Staff 8 (Laundry Manager) was observed to carry an uncovered plastic bin which contained clean towels, sheets and clothing protectors upstairs from the basement laundry room and delivered them to the closet opposite the nurses' station. Staff 8 stated the facility had a small covered cart that allowed staff to deliver clean laundry to residents' rooms and linen closets while covered. Staff 8 stated it was difficult to pull the cart up the stairs with laundry in it and was why staff did not use the cart. Staff 8 stated she expected staff to keep laundry covered while delivering clean linen or clothing in order to prevent it from becoming contaminated.</p> <p>On 2/28/25 at 11:06 AM, Staff 2 (DNS) stated she expected residents' laundry and the facility's clean linens to be protected from potential contamination when it was delivered to residents rooms and linen closets. Staff 2 stated the facility had a covered cart but it was awkward and difficult to use so they were working on a solution.</p> <p>2. The facility's policy titled, Laundry and Bedding, Soiled dated September 2022 indicated the following:</p> <p>(continued on next page)</p>

<p>F 0909</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>Regularly inspect all bed frames, mattresses, and bed rails (if any) for safety; and all bed rails and mattresses must attach safely to the bed frame.</p> <p>47000</p> <p>Based on observation, interview and record review it was determined the facility failed to ensure a bed rail was inspected and maintained according to manufacturer's recommendations for 1 of 2 sampled residents (#22) reviewed for accidents. This placed residents at risk for potential injury. Findings include:</p> <p>The facility's 2/2021 Assistive Devices and Equipment Policy indicated the following:</p> <ul style="list-style-type: none"> <li>-Certain devices and equipment that assisted residents with mobility, safety and independence were provided for residents.</li> <li>-Devices and equipment were maintained on schedule and according to manufacturer's instructions. Defective or worn devices were discarded or repaired.</li> </ul> <p>Resident 22 was admitted to the facility in 9/2023 with diagnoses including history of falls and unsteadiness on her/his feet.</p> <p>Resident 22's 12/17/24 Quarterly MDS revealed the resident was cognitively intact.</p> <p>Resident 22's 12/27/24 Assistive Device Assessment revealed the resident had bilateral mobility bars (a type of bed rail used to provide support and stability for people with limited mobility) on her/his bed in order to provide the resident with increased independence and assistance with bed mobility and transfers.</p> <p>On 2/24/25 at 10:12 AM, and on 2/25/25 at 3:37 PM, Resident 22 was observed in her/his room in bed. Resident 22 stated her/his right mobility bar was not right and needed to be fixed, and did not want to use or rely on the bar because it was so loose. Resident 22 stated the mobility bar had been loose for months, she/he mentioned the mobility bar was in need of repair to a number of staff members and nothing had been done. On each of these occasions, the state surveyor observed the mobility bar to be extremely loose and to turn almost 180 degrees from side-to-side.</p> <p>On 2/25/25 at 3:48 PM, Staff 4 (Maintenance Director) stated mobility bars should not have any give or they weren't stable. At this time, Staff 4 observed Resident 22's right mobility bar, and stated it was broken and no one reported to him it was in need of repair.</p> <p>On 2/26/25 at 12:40 PM, Staff 3 (LPN/RCM) stated Resident 22 used the mobility bars for bed mobility and not for transfers.</p> <p>On 2/26/25 at 12:47 PM Staff 2 (DNS) stated she expected mobility bars to be securely and properly installed.</p>
