Resident R1 reported that she notified her assigned nurse (Employee E3) once she received the meal, asked if she could have a grilled cheese, and reported that the dietary department informed her assigned nurse that they would not be able to provide the grilled cheese sandwich to her.</p> <p>Review of the Thanksgiving Day luncheon menu that was served on November 28, 2024 included turkey, ham, various side items and dessert choices.</p> <p>During an interview with Employee E4 (dietary aide) on December 11, 2024 at 12:45 p.m. Employee E4 reported that when holiday meals are served, such as the most recent Thanksgiving Day meal on November 28, 2024, the options that residents have from the Always Available menu if they do not want the holiday meal are the cold sandwich (e.g. tuna sandwich, egg salad sandwich) items only. Employee E4 reported that the hot menu items (e.g. cheeseburgers grilled cheese, pizza) are not available for residents from the Always Available menu because when holiday meals are being provided, the dietary staff have a larger number of plates to prepare because they are feeding both the residents, and the facility staff members. Employee E5 also reported that the dietary department also does not have enough dietary staff members to do all that extra stuff involved with cooking the hot food items off the Always Available menu. Continued interview with Employee E4 indicated that when a holiday meal is being provided for the day, he notifies the nurses on the floor that the kitchen is preparing a holiday meal for lunch, and that if a resident would like something off the Always Available menu instead of the holiday meal, their options are any of the cold sandwiches.</p> <p>(continued on next page)</p>
