(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)
<p>F 0697</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>Provide safe, appropriate pain management for a resident who requires such services.</p> <p>**NOTE- TERMS IN BRACKETS HAVE BEEN EDITED TO PROTECT CONFIDENTIALITY** 48835</p> <p>Based on facility policy, observation, interview and record review, the facility failed to ensure Resident (R)17 was free from pain for 1 of 3 residents reviewed for pain.</p> <p>Findings include:</p> <p>Review of the facility policy titled Pain Assessment Forms with a revised date of 10/06/15 revealed, The nurse will assess the residents pain at regular intervals, initially the intervals will be will be hourly with the interval increasing as the residents pain is controlled.</p> <p>Review of R17's Face Sheet revealed R17 was admitted to the facility on [DATE], with diagnoses including but not limited to: vascular dementia, moderate, with mood disturbance, paroxysmal atrial fibrillation, pain in left hip and non-displaced fracture inferior pubic ramus.</p> <p>Review of R17's Quarterly Minimum Data Set (MDS) with an Assessment Reference Date (ARD) of 09/18/24, revealed R17 had a Brief Interview for Mental Status (BIMS) score of 2 out of 15, indicating R17 had severe cognitive impairment.</p> <p>Review of R17's Situation Background Assessment Recommendation (SBAR) dated 08/22/24, documented, Fall, witnessed. Limping favoring the left leg. X-ray left hip negative, left hip again on 08/27, on 8/26/24 swelling left ankle, x-ray done, negative.</p> <p>Review of R17's Progress Notes dated 08/22/24 at 6:23 PM, documented, Resident left ankle swollen and starting to discolor. Has mobility with mild tenderness. Left leg elevated in bed and attempting to ice as tolerated.</p> <p>Review of R17's Progress Note dated 08/23/24, at 5:41 AM, documented, Was anxious and aggressive at start of shift, yelling out with repetitive questions and statements, cnas in to provide incontinent care and resident grimaces when repositioning, stating she didn't know why she's sore . left foot remains swollen but does not keep elevated.</p> <p>Review of R17's Progress Note dated 08/26/24 at 6:09 PM, documented, Resident had x-ray left ankle because there was swelling and tenderness. Study is negative for fracture.</p> <p>(continued on next page)</p>

Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

<p>F 0697</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>Review of R17's Progress Note dated 08/27/24 at 5:59 PM, documented, Resident intermittently crying because she says her hip hurts. Medical Doctor (MD) contacted and he ordered a 2nd left hip x-ray. If negative he is considering a CT scan of the affected area. Mobile images on scene for the x-ray.</p> <p>Review of R17's Progress Note dated 08/27/24 at 11:21 PM, documented, Results of xray received and sent to MD. No new orders at this time , xray results Stable mild degenerative change of the left hip without acute osseous abnormality of the left hip nor pelvis. Resident is resting quietly at this time was tearful earlier during incontinent cares and repositioning.</p> <p>Review of R17's Progress Note dated 08/28/24 at 3:03 PM, documented, Resident very weepy on this shift. Resident very agitated. Cries out with pain whenever she is touched on any part of her body.</p> <p>Review of R17's Progress Note dated 08/29/24 at 4:00 AM, documented, Complained of some pain in inner thigh earlier this shift.</p> <p>Review of R17's Progress Note dated 08/29/24 at 2:04 PM, documented, New order received for CT of leg status post previous falls with ongoing complaint of pain.</p> <p>Review of R17's Progress Note dated 08/29/24 at 2:49 PM, documented, Something has to be wrong with her hip even though the x-rays have been negative because she's still saying she's in pain.</p> <p>Review of R17's CT Scan dated 08/29/24, documented, non displaced fracture of the left inferior pubic rami [pelvis fracture].</p> <p>Review of R17's Progress Note dated 08/31/24 at 5:34 AM, documented, less signs/symptoms discomfort than previous nights but does still grimace and c/o pain during adls.</p> <p>Review of R17's Progress Note dated 09/04/24 at 3:48 AM, documented, She continues to complain of her left hip/leg hurting from previous fall. Her right knee also has some swelling and tenderness noted.</p> <p>Review of R17's Progress Note dated 09/05/24 at 11:05 AM, documented, Resident was reviewed in interdisciplinary meeting related to recent falls . Ortho appointment scheduled, 09/9/2024, to assess her recent left pubic ramus fracture that was noted on CT scan, 08/29/2024, from her fall on 08/22/2024. MD ordered several x-ray views previous to CT scan r/t resident voicing pain that each came back negative. She has been unable to bear weight or stand since her fall but is able to sit on the side of bed.</p> <p>Review of R17's Medication Administration Record (MAR) dated August 2024, indicated R17 had an order for Tylenol 325 milligrams (mg) 2 tablets orally every 6 hours as needed for pain or fever. The MAR recorded three days where R17 was administered Tylenol, twice on 08/25/24, twice on 08/28/24, and twice on 08/29/24.</p> <p>Review of R17's MAR and Progress Notes dated August 2024, revealed the dates R17 complained of pain were; 08/22/24, 08/23/24, 08/25/24, 08/27/24, 08/28/24, 08/29/24 and 08/31/24. R17's MAR indicated R17 received pain medication on three of the seven days she was experiencing pain, on 08/25/24, 08/28/24 and 08/29/24. R17 did not receive pain medication on 08/22/24, 08/23/24 and 08/27/24.</p> <p>(continued on next page)</p>

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)		
<p>F 0697</p> <p>Level of Harm - Minimal harm or potential for actual harm</p> <p>Residents Affected - Few</p>	<p>During an interview on 11/05/24 at 10:18 AM, the Director of Nurses (DON) stated, [R17] fractured her pelvis, but it wasn't recognized at first because the x-rays were negative, but she was still having pain. The pain was recognized but not followed through. She should have been offered pain meds. The nurses should be giving Tylenol, and if it doesn't help, call the MD, to give her something stronger.</p> <p>During an interview on 11/05/24 at 1:59 PM, Registered Nurse (RN)1 stated, I think 08/22/2024 was the one when [R17] actually fell and fractured her pelvis. She had an x-ray that day. She would make comments of, ouch, or I hurt. I likely noted she was in pain. I called the doctor and let him know she was having pain and he ordered another x-ray. He confirmed he wrote the note on 08/27/2024. I did not give her Tylenol. I should have given her Tylenol, if she had a PRN [as needed] order for it.</p> <p>During an interview on 11/05/24 at 3:20 PM, Licensed Practical Nurse (LPN)1 stated, I think [R17] was having pain. I asked her about pain, she would not always say the right thing due to her dementia. She had Tylenol ordered at different times. I'm not sure why I didn't give [R17] pain medicine on those days.</p>
