F 0812 Level of Harm - Minimal harm or potential for actual harm Residents Affected - Some	Procure food from sources approved or considered satisfactory and store, prepare, distribute and serve food in accordance with professional standards. Based on facility policy review, a nourishment room posted note, observations, and interviews, the facility failed to maintain dietary equipment in a sanitary manner and failed to ensure food was stored and labeled in a manner to prevent the spread of infection when foods were found uncovered, unlabeled, and undated, in a refrigerator in the kitchen and in the nourishment room refrigerator. This facility had a census of 99, with 94 residents receiving a tray from the kitchen. The findings include: Review of the facility policy titled, Food Preparation and Service, dated 11/2022, revealed .Food and nutrition services employees prepare, distribute and serve food in a manner that complies with safe food handling practices.Food Preparation Area.cleaning and sanitizing.food-contact equipment between uses.Food Distribution and Service.labeling all food brought in.for residents. Review of the facility policy titled, Food Receiving and Storage, dated 11/2022, revealed .Food services, or other designated staff, maintain clean.appropriate food storage areas at all times.Dry Food Storage.Dry foods that are stored in bins are removed from original packaging, labeled and dated (use by date).Refrigerated/Frozen Storage.All foods stored in the refrigerator or freezer are covered, labeled and dated (use by date).Refrigerated foods are labeled, dated and monitored so they are used by their use-by date, frozen, or discarded.Foods and Snacks Kept on Nursing Units.All food items.placed in the refrigerator located at the nurses' station and labeled with a use by date.All food belonging to residents are labeled with the resident's name, the item and the use by date. Review of the undated note on the nourishment room refrigerator revealed, .ITEMS ARE TO BE LABELED WITH THE RESIDENTS NAME, ROOM NUMBER AND USE BY DATE. NO FOOD ITEMS ARE TO BE LEFT IN THIS REFRIDGERATOR [refrigerator] OR FREEZER MORE THAN 3 DAY [days]. Observation in the Kitchen during initial tour on 3/2/2026 at 9:45 AM, revealed the following: 1 box of 8 corn dogs left uncovered and opened in the stand-up freezer. 1 container of pimento spread with no open date in the refrigerator. 1 bowl of chicken noodle soup with a preparation date of 2/26/2026, and a use by date of 2/29/2026 (The date 2/29/2026 was an invalid date and should have been 3/1/2026). 1 chicken salad sandwich with a preparation date of 2/26/2026, and a use by date of 2/29/2026 (The date 2/29/2026 was an invalid date and should have been 3/1/2026). 1 drip pan under the stove burners had a moderate amount of black burned particles and dried pasta noodles. 1 bin of sugar undated. 1 bin of flour undated. During an interview on 3/2/2026 at 9:50 AM, the Dietary Supervisor acknowledged the box of corn dogs should not be left open and uncovered and the chicken soup and sandwich should have been discarded. The Dietary Supervisor stated, .it [referring to the drip pan] needs to be cleaned. The Dietary Supervisor was asked how often the drip pan should be cleaned, he stated, .whenever it is dirty and at least weekly. During an interview on 3/2/2026 at 9:57 AM, the Dietary Supervisor stated, .they (referring to the containers of sugar and flour) should have dates . During an interview on 3/4/2026 at 8:00 AM, the Certified Dietary Manager (CDM) acknowledged all dry storage bins should have a date and sandwiches prepared on 2/26/2026 should have been discarded on 3/1/2026. Observation in the Nourishment room with the CDM on 3/4/2026 at 8:10 AM, revealed the following: a prepackaged lasagna bowl with no resident name in the freezer. a prepackaged steak meal with no resident name in the freezer. a prepackaged breakfast skillet bowl with no resident (continued on next page)		

Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.
