F 0584 Level of Harm - Minimal harm or potential for actual harm Residents Affected - Few	start in the dining room and then attend to their assigned halls. The Housekeeping Supervisor stated that the housekeeper that was assigned to the secured unit, would start with another hall first and then end in the secured unit. The Housekeeping Supervisor stated if a nurse calls him that a room needed cleaning, that room was prioritized and the housekeeper would attend to it right away. The Housekeeping Supervisor stated that starting tomorrow, the housekeeper assigned to the secured unit would start in the secured unit first and then go to their other assigned hall. The Housekeeping Supervisor stated it was important the rooms were kept clean because of resident safety and their well-being. The Housekeeping Supervisor stated it was also important because of infection control and hygiene. In an interview on 6/11/26 at 11:40am the Administrator stated that housekeeping usually went in the morning and the afternoon to clean Resident room [ROOM NUMBER]. The Administrator stated the resident in Resident room [ROOM NUMBER] would sometimes get aggressive and would not allow the housekeeper to clean the room. The Administrator stated distraction was used to allow for cleaning, however housekeeping did clean the room. Record review of the facility's policy on Cleaning and Disinfecting Residents' Room revised in August 2013 revealed, General Guidelines1. Housekeeping surfaces (e.g., floors, tabletops) will be cleaned on a regular basis, when spills occur, and when these surfaces are visibly soiled. 2. An observation on 6/9/26 at 9:01am of Resident room [ROOM NUMBER] revealed that the only window in the room, was covered entirely by a sheet of drywall. It was noted that the sheet of drywall was placed on the windowsill and screwed onto the wall. In an observation on 6/9/26 at 9:08am, the resident for Resident room [ROOM NUMBER] is non-interviewable. In an interview on 6/9/26 at 9:11am, LVN A stated that the resident of Resident room [ROOM NUMBER], had broken the window over the weekend. LVN A stated that the resident of Resident room [ROOM NUMBER] was not moved to another room because the resident required a single occupancy room and there was not one available. In an interview on 6/9/26 at 10:30am, the Maintenance Director stated the window for Resident room [ROOM NUMBER] did not break but had shattered. The Maintenance Director stated it happened over the weekend on Sunday, 6/7/26. He stated the Maintenance Assistant responded to call but had notified him of the incident. The Maintenance Director stated only drywall was on hand to cover the window at the time of the incident. The Maintenance Director stated there was a requirement for covering windows and there had to be an opening of 4 from the bottom to allow for ventilation and light. The Maintenance Director stated he was not aware the Maintenance Assistant had not left the 4 opening. He stated he did not know when the window would be repaired. The Maintenance Director stated he had not obtained an estimate or invoice for replacement because he was waiting on the Administrator to tell him to do so. The Maintenance Director stated that as of today, he had not been updated on the replacement for the window by the Administrator. Record review on 6/9/26 at 10:45am revealed there were no estimates on the repair or replacement of the window. In an interview on 6/9/26 at 12:36pm, the Maintenance Assistant stated he responded to the call over the weekend to repair the window in Resident room [ROOM NUMBER]. He stated when he saw the window, the window was shattered with pieces of glass on the floor. The Maintenance Assistant stated he cleaned up the glass and called the Administrator. He stated the Administrator told him to cover the window with drywall. The Maintenance Assistant stated he set the sheet of drywall on the windowsill and screwed it to the wall. He stated he did not leave the 4 off the windowsill for ventilation because he thought glass could fall from the breakage and hurt someone. The Maintenance Assistant stated he notified the staff at that time to leave the door open to allow for ventilation. In an interview on 6/11/26 at 11:40pm, the Administrator stated he was notified over the weekend about the broken window in Resident room [ROOM NUMBER]. He stated he had the Maintenance Assistant take care of it. The Administrator stated he asked the Maintenance Assistant to cover the window with drywall until the window could be replaced. He stated that on the day of the incident, he was not aware of when the window would be replaced. The Administrator stated that the resident of Resident room [ROOM NUMBER] was not moved into another room because the resident required a single occupancy room. (continued on next page)
