STATEMENT OF DEFICIENCIES AND PLAN OF CORRECTION	(X1) PROVIDER/SUPPLIER/CLIA IDENTIFICATION NUMBER: 525457	(X2) MULTIPLE CONSTRUCTION A. Building B. Wing	(X3) DATE SURVEY COMPLETED 03/24/2026
NAME OF PROVIDER OR SUPPLIER Rennes Health and Rehab Center-East		STREET ADDRESS, CITY, STATE, ZIP CODE 701 Willow St Peshtigo, WI 54157	
For information on the nursing home's plan to correct this deficiency, please contact the nursing home or the state survey agency.			
(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)		
F 0657 Level of Harm - Minimal harm or potential for actual harm Residents Affected - Few	Develop the complete care plan within 7 days of the comprehensive assessment; and prepared, reviewed, and revised by a team of health professionals. **NOTE- TERMS IN BRACKETS HAVE BEEN EDITED TO PROTECT CONFIDENTIALITY** Based on staff and resident representative interview and record review, the facility did not ensure a plan of care was revised for 1 resident (R) (R8) of 4 sampled residents. R8's diet was changed and included instructions for comfort foods with supervision. R8's care plan and Kardex (an abbreviated care plan used by nursing staff) were not revised to reflect the changes. Findings include: The facility's Hospice Skilled Nursing Agreement policy, dated 6/15/24, indicates: In accordance with applicable federal and state laws and regulations, the nursing home shall prepare and/or revise the nursing home plan of care to be consistent with the Hospice plan of care for each new Hospice resident in the nursing home and agree to coordinate with Hospice the care and services provided to Hospice residents to maintain the residents' highest physical, mental, and psychosocial well-being. From 3/23/26 to 3/24/26, Surveyor reviewed R8's medical record. R8 was admitted to the facility on [DATE] and had a diagnosis of vascular dementia with agitation. R8's Minimum Data Set (MDS) assessment, dated 2/12/26, contained a staff assessment for cognition that indicated R8 was severely cognitively impaired. R8 had an activated Power of Attorney for Healthcare ((POAHC)-C) and received Hospice services. On 3/23/26 at 12:00 PM, Surveyor interviewed POAHC-C who expressed a concern about snacks for R8 who was on a pureed diet. POAHC-C stated POAHC-C was at the facility and staff had given R8 a [NAME] Krispie treat. POAHC-C stated R8 loves popcorn; however, R8 needs to be supervised while eating it. A progress note, written by Hospice RN (HRN)-D and dated 1/2/26 at 2:54 PM, indicated HRN-D received a phone call from POAHC-C who stated R8 had a harder time swallowing and was coughing on food the last few nights. POAHC-C stated it did not appear R8 was eating too fast. POAHC-C requested R8 have pureed food and regular, thin liquids and indicated it was okay for R8 to have regular texture pleasure food if supervised by staff. HRN-D sent a message to the physician with the above request. The facility was updated as well. A Hospice RN visit note, dated 1/2/26 at 5:44 PM, indicated R8 had been coughing on food the last two nights per POAHC-C. The writer messaged the physician and requested a diet change earlier that day. The diet change was approved for pureed texture foods and regular, thin liquids. Facility may downgrade diet if needed. It is okay for (R8) to eat regular texture foods, however, (R8) must be supervised while doing so. The writer asked the physician's office to fax an order to the facility. Surveyor confirmed the faxed order was received by the facility and was scanned into R8's medical record. Surveyor reviewed R8's care plan and Kardex. R8's care plan indicated R8 was on a pureed diet. The care plan did not indicate it was okay to offer comfort foods with supervision. R8's Kardex indicated R8 was on a general, regular diet. The Kardex did not indicate it was okay to offer comfort foods with supervision. On 3/24/26 at 10:59 AM, Surveyor interviewed Unit Manager (UM)-E who indicated Kardexes are updated manually two times per week. UM-E confirmed R8's Kardex did not indicate R8 was on a pureed diet or that it was okay to offer comfort foods with supervision. UM-E indicated two staff members cannot be in the care plan system at the same time or a care plan might not save. UM-E confirmed the diet change wasn't reflected on R8's care plan or Kardex. On 3/24/26 at 2:13 PM, Surveyor interviewed Certified Nursing Assistant (CNA)-F who documented R8 was given a snack during CNA-F's shift on 3/3/26. (continued on next page)		

Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

(X4) ID PREFIX TAG	SUMMARY STATEMENT OF DEFICIENCIES (Each deficiency must be preceded by full regulatory or LSC identifying information)		
F 0657 Level of Harm - Minimal harm or potential for actual harm Residents Affected - Few	CNA-F indicated CNA-F usually works at a sister facility but was helping at the facility that day. CNA-F indicated there are care cards behind the nurses' station that CNA-F refers to for resident care. CNA-F writes down notes for each resident from the care cards and asks staff if CNA-F has questions. CNA-F confirmed CNA-F relies on care cards to be accurate if CNA-F is not familiar with the residents. On 3/24/26 at 2:53 PM, Surveyor interviewed Director of Nursing (DON)-B and Regional Registered Nurse (RRN)-G who indicated if a change in record happens immediately, the change is written on a white board behind the nurses' station. DON-B and RRN-G indicated the change might not be reflected on the Kardex (care card) right away since it is updated manually. DON-B and RRN-G verified R8's diet change happened in January. DON-B and RRN-G confirmed R8's Kardex was not updated with the diet change and to offer comfort foods with supervision and R8's care plan did not indicate to offer comfort foods with supervision.
