The facility failed to conduct a thorough investigation by not interviewing other residents to ensure no other residents may have been affected by staff verbal abuse. The facility policy, titled Abuse, Neglect, Mistreatment and Misappropriation of Resident Property last reviewed 03/15/22, states under section F(a). Procedures must be in place to provide the resident with a safe, protected environment during the investigation .iv. Examine, assess and interview the resident and other residents potentially affected immediately to determine any injury and identity and immediate clinical interventions necessary. On 05/21/26, the facility reported to state agency an allegation of verbal abuse by Registered Nurse (RN) H towards R9 who reported that, [RN H] was mean to me last night. The facility initiated and completed an investigation immediately. On 06/29/26, Surveyor reviewed the facility's investigation of events and noted the facility failed to interview other residents to ensure no other residents may have been affected by staff verbal abuse. On 06/29/26 at 3:00 PM, Surveyor conducted an interview with R9. R9 was alert and responsive. Surveyor asked R9 about the incident with RN H. R9 stated they could not remember the incident. When asked about care concerns, R9 stated there were no concerns and spoke with praise of the staff. R9 stated they had sometimes argued with RN H but they got along and the alleged incident was my fault . I don't know how to explain it . I go off the rails, if you know what I mean. R9 proceeded to share about experiencing anxiety and that they sometimes had episodes. R9 then recalled the staff helped find a glass during the night of the reported incident and they could not remember RN H being mean. When asked about concerns or staff, R9 stated there were no complaints and staff were responsive.
