This observation was pointed out to DA A, who immediately got a broom, swept the roach up, and removed it from the kitchen. DA A stated the roach was alive. DA A stated he knew that someone came and sprayed the kitchen twice a month for bugs.</p> <p>During an interview on 04/10/2025 at 02:39 p.m., the DS stated she was told about the water roach seen this morning. She stated that the facility kitchen did have stragglers but did not know how the water roach got in. She stated the kitchen had pest control treatment every month.</p> <p>During an interview on 04/10/2025 at 02:57 p.m., the Maint Dir stated the facility had monthly pest control services. He stated that the facility had recently changed pest control companies due to a concern that the prior company's chemical spray was not strong enough. He stated that the new company appeared to be working better for the facility's needs. He stated the new company had been treating the kitchen with a new chemical that seemed to be working. He stated he believed the small bug found that morning possibly entered the kitchen due to a clean out area that had flooded during the night by the kitchen grease trap. He stated that the clean out area and flooding were addressed and fixed that same morning.</p> <p>(continued on next page)</p>
