During an interview on 5/18/2026 at 12:10pm LVN E said she had only worked at the facility for 2 weeks. She said she was the only floor nurse on the 6am to 2pm shift. She said they were required to take a 30-minute lunch break. She said when she takes a lunch break the ADON or MDS nurse covered for her until she returned. She said she did not know what the other shifts did. She said the staffing on the floor was they have 2 CNA's and 1 med aide and the nurse. During an interview on 5/18/26 at 2:20 PM LVN B said he had worked at the facility for about 1 1/2 months. He said it was a requirement that the nurse clock out for a 30-minute lunch break every shift. He said he was told to try and take the lunch break between 2pm-5pm when there were administrative nurses there that could watch his halls until he returned. He said sometimes it was not possible to clock out for a lunch break during those times. He said if he did not clock out for a lunch break then he had to fill out a form explaining why he did not take a lunch break and then would be talked to by the Administrator the next day. He said he had worked some 10-6 shifts and was told he still had to clock out for a lunch break even though there was no other nurse to watch the halls for him. He said the directive that they must take a lunch break came from the Administrator. During an interview on 5/19/2026 at 8:51am RN A said during a monthly in-service meeting staff were told they must take a 30-minute lunch break. She said there was no other nurse on the 10pm to 6am shift so she said she usually clocked out and sat in the conference room or break room. During an interview on 5/19/2026 at 9:30am HR said during the morning meetings the Administrator had been pulling an overtime report and gave the administrative staff missed punch sheets for anyone that had not taken a lunch break and said to have them correct it. She said it was the expectation that all staff would take at least a 30-minute lunch break. She said that the nurses usually tell the CNA's when they take a lunch break to call them if needed. During an interview on 5/19/2026 at 12:42pm LVN F said she was the medication nurse and does strictly medications and the charge nurse took care of the residents. She said they had been told they must take their lunch breaks by the DON. She said they had to take their lunch breaks or it had to be approved by the Administrator. During an interview on 5/19/2026 at 1:50pm the Administrator said she had not thought about the nurse not being in the facility because she was not sure if they were leaving the building on their lunch breaks. She said staff should not leave the facility or clock out if they were the only nurse. She said her expectation going forward was nurses will not clock out unless there are 2 nurses in the facility. She said the CNA's should know to call 911 but if the nurse was not here then who would take control of the resident and said there could be a medical emergency. Record review of the facility policy titled Nursing Department-Staffing, Scheduling & Postings dated 10/24/2022 indicated: Purpose: To ensure an adequate number of nursing personnel are available to meet resident needs. 1.
